The Essential Dürer Larry Silver, Jeffrey Chipps Smith, 2011-11-29 Albrecht Dürer 1471-1528 perhaps the most famous of all German artists embodies the modern ideal of the Renaissance man he was a remarkable painter printmaker draftsman designer theoretician and even a poet More is known about his thoughts and his life than about any other Northern European master of his time since he wrote extensively about himself his family's history his travels and his friends His woodcuts and engravings were avidly collected and copied across Europe and they quickly established his reputation as a master Praised in life and eulogized in death by such thinkers as Martin Luther and Erasmus he served Emperor Maximilian and other leading church and secular princes in the Holy Roman Empire Although there is a vast specialized literature on the Nuremberg master *The Essential Dürer* fills the need for a foundational book that covers the major aspects of his career The essays included in this book written by leading scholars from the United States and Germany

provide an accessible up to date examination of Durer's art and person as well as his posthumous fame The essays address an array of topics from separate and detailed studies of his paintings drawings printmaking and sculpture to broader concerns such as his visits to and interactions with Venice and the Netherlands his personal relationships and his relationships with other artists Collectively these stimulating essays explore the brilliance of Durer's creativity and the impact he had on his world exposing him as an artist fully engaged with the tumultuous intellectual and religious challenges of his time

Animals and Early Modern Identity Pia F. Cuneo, 2017-07-05 Animals were everywhere in the early modern period and they impacted at least in some way the lives of every kind of early modern person from the humblest peasant to the greatest prince Artists made careers based on depicting them English gentry impoverished themselves spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization
