Northwest Epic The Building Of The Alaska Highway:

Northwest Epic Heath Twitchell,1992 Describes the work of U S Army engineers and civilian contractors to build a 1 500 mile emergency supply line to isolated military bases in Alaska in the tense months after the attack on Pearl Harbor The Black Soldiers Who Built the Alaska Highway John Virtue,2012-11-16 This is the first detailed account of the 5 000 black troops who were reluctantly sent north by the United States Army during World War II to help build the Alaska Highway and install the companion Canol pipeline Theirs were the first black regiments deployed outside the lower 48 states during the war The enlisted men most of them from the South faced racial discrimination from white officers were barred from entering any towns for fear they would procreate a mongrel race with local women and endured winter conditions they had never experienced before Despite this they won praise for their dedication and their work Congress in 2005 said that the wartime service of the four regiments covered here contributed to the eventual desegregation of the Armed Forces **The Alaska Highway** Paul Kupperberg,2009 Profiles the building of the Alaska Highway **The Army Historian** ,1993 *Engineering in the Far North* Lisa Mighetto,1997 Army History ,1992 *Alaska at War, 1941-1945* Fern Chandonnet,2007-09-15 Over the course of the past two hundred years only one United States territory has experienced foreign occupation Alaska Available for the first time in paperback Alaska at War brings readers face to face with the North Pacific front in World War II Wide ranging essays cover the war as seen by Alaskan eyes including the Japanese invasion of the Attu and Kiska islands the effects of the war on Aleutian Islanders and the American campaign to recover occupied territory Whether you re a historian or a novice student interested in this pivotal period of American history Alaska at War provides fascinating insight into the background history and cultural impact of war on the Alaskan homefront **The U.S. Army and World War II** Judith Bellafaire,1998 The U S Army and World War II is an anthology of selected papers from three international conferences held in 1990 1992 and 1994 on the Army s role in the war Taking the best from those meetings Judith L Bellafaire has organized the various presentations into four thematic categories prewar planning the home front the European theater and the Asian Pacific theaters reflecting the diversity of both the war and the interest of those seeking to understand its many facets In these carefully edited papers one will find the more conventional treatments of doctrine strategy and operations side by side with those focusing on military mobilization and procurement race and gender psychological warfare and large scale advice and assistance programs Despite significant changes in military technology and the geopolitical landscape of the world since those desperate times the human problems highlighted by the authors are not much different from many of those facing Army leaders today Although the past can never provide the specific recipes needed for the future experience has shown that both the basic ingredients and the manner in which they are prepared and processed have remained remarkably constant Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable Rufus

Woods, the Columbia River, and the Building of Modern Washington Robert E. Ficken, 2022-01-24 Rufus Woods editor and publisher of the Wenatchee Daily World for more than forty years has been called the High Priest of the Columbia River From his editorial platform Woods tirelessly promoted Wenatchee and north central Washington and advocated for Columbia River development He pegged his brightest hopes on a huge dam to be built in the isolated Grand Coulee region A founding member of the Dam University Woods through the World helped to keep the drive for the structure alive From 1918 through Grand Coulee s completion in 1941 he was the leading promoter of the largest dam building project in American history Utilizing his newspaper and his extensive political contacts at state and national levels Woods helped convince President Franklin Roosevelt Congress and the Bureau of Reclamation that the grandiose scheme was attainable Where others despaired he never faltered Speaking before the 1942 Grand Coulee High School graduating class Woods proudly boasted of the accomplishment that he helped see to reality So here it stands a monument to the idea and the power of an idea a monument to an organization a monument to cooperation You class of 1942 could you come back here in a thousand years hence you would hear the sojourners talking as they behold this slab of concrete and you would hear them say Here in 1942 indeed there once lived a great people Woods got his dam but not the Wenatchee boom he desired Possible only because of federal financing those in control imposed a vast maze of power lines emanating from the dam s huge hydroelectric plant Cities like Portland and Seattle benefited from its power much more than Wenatchee Even so Woods s beloved adopted home grew tremendously during his lifetime and much of that economic development can be attributed to his single minded efforts

Tourism and War Richard Butler, Wantanee Suntikul, 2013-05-07 This is the first volume to fully explore the complex relationship between war and tourism by considering its full range of dynamics including political psychological economic and ideological factors at different levels in different political and geographical locations Issues of peace and tourism are dealt with insofar as they pertain to the effects of war on tourism that emerge after the cessation of hostilities The book therefore reveals how not only location but also political strategies accidents of history transportation linkages and economic expediency all have played their role in the development and continuation of tourism before during and after wartime It further show how the effects of war are seldom if ever simply a negation or reversal of the effects of peace on tourism The volume draws on a range of examples from medieval times to the present to reveal the multi faceted development of tourism amidst and because of conflict in a wide variety of locations including the Pacific Europe the Middle East North America Africa and South East Asia showing the diverse ways in which tourism and war interacts In doing so it explores how some locations have been developed as tourist attractions primarily because of war and conflict e g as resting and training places for troops and others flourished because of the threat of danger from conflicts to more traditional tourist locations This thought provoking volume contributes to the understanding of the interrelationships between war peace and tourism in many different parts of the world at different scales It will be valuable reading for all those interested in this topic as well as dark
