Children's and Young Adult Literature and Culture Amie A. Doughty, 2016-08-17 This collection of essays explores a wealth of topics in children's and young adult literature and culture. Contributions about picture books include analyses of variants of the folktale *The Little Red Hen* and bullying. Race and gender are explored in essays about picture books featuring children as consumable objects about books focused on African American female athletes and about young adult dystopian fiction. Gender itself is further explored in articles about *Monster High*. Joyce Carol Oates's *Beasts* and *The Hunger Games* and *Divergent*. Essays about fantasy literature include an exploration of environmentalism in Rick Riordan's *The Heroes of Olympus*, a discussion of Severus Snape as a Judas figure, an explication of Chapter 5 of *The Hobbit*, and an analysis of ghosts and nationalism in Eva Ibbotson's *The Haunting of Granite Falls*. An essay about *Horrible Histories* explores television genre and the way history is coded. Other contributions explore how teaching literature to reluctant readers can be effective through multimodal texts and how *Harry Potter* has played a role in the popularity of young adult literature for adult readers.

Narratology beyond the Human David Herman, 2018-03-01 To what extent and in what manner do storytelling practices accommodate nonhuman subjects and their modalities of experience and how can contemporary narrative study shed light on interspecies interactions and entanglements? In *Narratology beyond the Human*, David Herman addresses these questions through a cross-disciplinary approach to post-Darwinian narratives concerned with animals and human-animal relationships. Herman considers the enabling and constraining effects of different narrative media, examining a range of fictional and nonfictional texts disseminated in print, comics, and graphic novels, and film. In focusing on techniques such as the use of animal narrators, alternation between human and nonhuman perspectives, the embedding of stories within stories, and others, the book explores how specific strategies for portraying nonhuman agents both emerge from and contribute to broader attitudes toward animal life. Herman argues that existing frameworks for narrative inquiry must be modified to take into account how stories are interwoven with cultural ontologies or understandings of what sorts of beings populate the world and how they relate to humans. Showing how questions of narrative bear on ideas of species difference and assumptions about animal minds, *Narratology beyond the Human* underscores our inextricable interconnectedness with other forms of creatural life and suggests that stories can be used to resituate imaginaries of human action in a more-than-human world.

Charlotte Perkins Gilman's *the Yellow Wall-paper* and the History of Its Publication and Reception Julie Bates Dock, 2010-11-01 *Masculine Identities* Herbert Sussman, 2012-03-14 This book provides an intriguing look at the long history of the changing definitions of what it means to be a man, identifying both the continuity and disparity in these ideals and explaining the contemporary crisis of masculinity. In the classical Athens of Plato and Pericles, erotic relations between adolescents and adult men, what we now revile as pedophilia, was the marker of manliness, a clear example of how concepts of masculinity shift. Even within modern western society, there are conflicting ideals for men: they are expected to be both

aggressive and unemotional in business and sensitive and caring as a father and lover **Masculine Identities** The History and Meanings of Manliness provides a comprehensive consideration of what being a man has meant over time A fascinating read for men and women alike it examines masculine identities that emerged in the past and continue into the present such as the warrior the democratic man the craftsman the self made man of business as well as ethnic forms of manliness The work concludes by examining the contemporary issues of male sexuality same sex identity and the conflicts within men in the modern world
