Reserve Collection, 1968 The First Folio of Shakespeare William Shakespeare, Charlton Hinman, 1968 **Shakespeare's First Folio 1623-2023** Matthias Bauer, Angelika Zirker, 2024-09-05 This wide ranging collection reflects on the various motivations that caused the Folio to come into being in 1623 7 years after Shakespeare's death and on how the now iconic book has been continually reimagined after its initial publication to the present day In honour of its original publication Shakespeare's First Folio 1623 2023 Text and Afterlives brings together a remarkable set of ground breaking essays by an international group of scholars From the beginning the publication that came to be called the First Folio was defined by the tension between the book as text and the book as a material object In this volume the individual contributions move between these two meanings in that they consider precursors to the First Folio in the form of reader assembled volumes the poetic identity of Shakespeare and how misfortunes and successes in the early modern printing house shaped Shakespeare's text Chapters examine the unpredictable and often surprising subsequent histories of the book that has even been given a sacred status and become the basis of Shakespeare's unique position in the history of literature They consider the afterlife of the text in relation to the reception of Shakespeare's First Folio in Spain its presence in and influence on James Joyce's Ulysses the role that Meisei University of Japan's Shakespeare Collection has played in the education and research of the institution and what the collection of 82 copies at the Folger Shakespeare Library in Washington DC tells us about the ongoing role of these books within the study of Shakespeare and the early modern period Abstractions of Evidence in the Study of Manuscripts and Early Printed Books Joseph A. Dane, 2016-12-05 In this book Joseph Dane critiques the use of material evidence in studies of manuscript and printed books by delving into accepted notions about the study of print culture He questions the institutional and ideological presuppositions that govern medieval studies descriptive bibliography and library science Dane begins by asking what is the relation between material evidence and the abstract statements made about the evidence ultimately he asks how evidence is

to be defined The goal of this book is to show that evidence from texts and written objects often becomes twisted to support pre existing arguments and that generations of bibliographers have created narratives of authorship printing reading and editing that reflect romantic notions of identity growth and development The first part of the book is dedicated to medieval texts and authorship materials include Everyman Chaucer s Legend of Good Women the Anglo Norman Le Seint Resurrection and Adam de la Helle s Le Jeu de Robin et Marion The second half of the book is concerned with abstract notions about books and scholarly definitions about what a book actually is chapters include studies of basic bibliographical concepts Ideal Copy and the application of such a notion in early editions of Chaucer the combination of manuscript and printing in the books of Colard Mansion and finally examples of the organization of books by an early nineteenth century book collector Leander Van Ess This study is an important contribution to debates about the nature of bibliography and the critical institutions that have shaped its current practice **Four Hundred Years of Shakespeare's First Folio** Thomas Hubeart,2025-08-12
