The Nordic Countries and the European Union Caroline Howard Grøn, Peter Nedergaard, Anders Wivel, 2015-02-20 In European policy making the Nordic countries are often viewed as a relatively coherent bloc in

international and European affairs the Nordic position has traditionally been conditioned on being different from and better than Europe This book offers a coherent original and systematic comparative analysis of the relationship between the Nordic countries and the European Union over the past two decades It looks at the historical frame institutions and policy areas addressing both traditional EU areas such as agriculture and more nascent areas affecting the domestic and foreign policies of the Nordic countries In doing so it examines how the Nordic approach to European policy making has developed and explains why the Nordic countries are similar in some respects while differing in others when engaging with EU institutions In highlighting the similarities and differences between the Nordic countries it explores what lessons positive and negative may be drawn from this approach for the Nordic countries and other small states This book will be of interest to scholars students and practitioners engaged with the Nordic Countries EU politics and policy making European politics and comparative politics

Nordic States and European Integration Malin Stegmann McCallion, Alex Brianson, 2017-07-06 This book provides the first lengthy study of awkward states partners in regional integration Is awkwardness a characteristic of states in many global regions or is it reducible to the particular case of the United Kingdom in European integration The authors assess how far the concept of awkwardness can travel and apply it to the cases of the Nordic States involvement in and with the European Union Denmark Finland Sweden Iceland and Norway The renewed interest in the Nordic region is in part thanks to recent events in the on going crisis of European integration and particular its member states response to the refugee question which appears to be undermining years of intra regional solidarity even between the Nordic countries The security dimension of the region further broadens the book's readership beyond Nordic Politics specialists to IR scholars as the Nordic countries share borders with Russia and are key players in the Baltic Sea Strategy seeking to involve Russia in looser forms of regional cooperation

the EU However a closer examination casts some doubt of the unitary status of Member States or at least suggests that the concept requires nuancing Whilst diversity and to some extent differentiation have been part and parcel of the European integration process since its inception Redefining EU Membership proposes that considering several developments a new reflection on membership within the EU and on differentiation in and outside the EU is required The volume s contributions are organized around four aspects of the tensions faced by the concept of a unitary and formal EU membership first an examination of key policy areas which have already witnessed various forms of differentiated integration second an analysis of special statuses within the EU third important examples of non Member States in which EU law is applied with and without their participation in the EU s decision making process and fourth the situation of states under accession or secession procedures which obliges them to accept EU norms and policies even prior to after formal membership These analyses are complemented by a reflection on the concept of membership in itself In a context in which EU enlargement appears likely the provided analysis reflects on the need to expand and introduce several kinds of membership to the EU in the future
