The Experience of Retirement Robert S. Weiss, 2018-05-31 Retirement brings with it the promises of leisure and freedom as well as the risks of boredom and isolation When retirees rid their schedules of anything resembling the kinds of obligations that once had been imposed by work they will experience a sometimes uncomfortable absence of structure In *The Experience of Retirement* the distinguished sociologist Robert S Weiss provides a detailed description of how some people plan their retirement what life in retirement is like and what makes for a fulfilling retirement His engaging book can thus serve as a most useful guide Weiss shows us both retirement's benefits and its possible costs both the relief retirees can feel once free of work's stresses and constraints and the discomfort that can be caused by loss of the positive aspects of working life The book is based on extensive interviews with eighty nine men and women before and after their retirement from middle income careers Weiss makes vivid their experiences by presenting in their own words their descriptions of leaving their careers considering what to do with their time confronting issues of income in retirement dealing sometimes with social isolation and reorganizing their lives The interviews reveal the way in which retirement affects marriages and other familial relationships Weiss concludes by

Logics of History William H. Sewell Jr.,2009-07-27 While social scientists and historians have been exchanging ideas for a long time they have never developed a proper dialogue about social theory William H Sewell Jr observes that on questions of theory the communication has been mostly one way from social science to history *Logics of History* argues that both history and the social sciences have something crucial to offer each other While historians do not think of themselves as theorists they know something social scientists do not how to think about the temporalities of social life On the other hand while social scientists treatments of temporality are usually clumsy their theoretical sophistication and penchant for structural accounts of social life could offer much to historians Renowned for his work at the crossroads of history sociology political science and anthropology Sewell argues that only by combining a more sophisticated understanding of historical time with a concern for larger theoretical questions can a satisfying social theory emerge In *Logics of History* he reveals the shape such an engagement could take some of the topics it could illuminate and how it might affect both sides of the disciplinary divide
