THE NOSTRADAMUS KID

Nostradamus Kid

Jim Dougherty, Brandon Castel

Nostradamus Kid:

Urban Australia and Post-Punk David Nichols, Sophie Perillo, 2020-02-25 Richard Lowenstein's 1986 masterpiece *Dogs in Space* was and remains controversial, divisive, compelling and inspirational. Made less than a decade after the events it is based on, using many of the people involved in those events as actors, the film explored Melbourne's postpunk counterculture of share houses, drugs and decadence. Amongst its ensemble cast was Michael Hutchence, one of the biggest music stars of the period in his acting debut. This book is a collection of essays exploring the place, period and legacy of *Dogs in Space* by people who were there or who have been affected by this remarkable film. The writers are musicians, actors and artists and also academics in heritage, history, urban planning, gender studies, geography, performance and music. This is an invaluable resource for anyone passionate about Australian film, society, culture, history, heritage, music and art.

Youth Culture in Global Cinema Timothy Shary, Alexandra Seibel, 2009-01-27 Coming of age is a pivotal experience for everyone. So it is no surprise that filmmakers around the globe explore the experiences of growing up in their work. From blockbuster US movies such as the Harry Potter series to thought-provoking foreign films such as *Bend It Like Beckham* and *Whale Rider*, films about youth delve into young people's attitudes, styles, sexuality, race, families, cultures, class, psychology and ideas. These cinematic representations of youth also reflect perceptions about youth in their respective cultures as well as young people's worth to the larger society. Indeed, as the contributors to this volume make plain, films about young people open a very revealing window on the attitudes and values of cultures across the globe. *Youth Culture in Global Cinema* offers the first comprehensive investigation of how young people are portrayed in film around the world. Eighteen established film scholars from eleven different national backgrounds discuss a wide range of films that illuminate the varied conditions in which youth live. The essays are grouped thematically around the issues of youthful resistance and rebellion, cultural and national identity, including religion and politics, and sexual maturation, including gender distinctions and coming of age, queer. Some essays engage in close readings of films, while others examine the advertising and reception of films or investigate psychological issues. The volume concludes with filmographies of over 700 youth-related titles arranged by nation and theme.

Continuous Creation Les Murray, 2025-09-23 The final collection of poems by the great Australian poet Les Murray. *Continuous Creation*: We bring nothing into this world except our gradual ability to create it out of all that vanishes and all that will outlast us. In *Continuous Creation*, the final collection from Les Murray, the preeminent poet of modern Australia, recalls moments from his youth and wryly observes the changing world moving back and forth through time and history with characteristic curiosity and an ever-fresh commitment to capturing the rhythms of life in verse. This collection displays Murray's miraculous ability to reinvent language in order to plant his and our reality on the page, whether he writes about the Australian landscape, a kangaroo sleeping ahead on the road, turns out to be twigs and leaves, or unsold books sitting in department stores. *Continuous Creation* demonstrates once more that Murray was one of the great poets of the English language.

Bob Ellis is never less than hugely entertaining. He combines hyperbole, passion, intensely personal reminiscence, emotions always on the surface, implausible and outrageous generalisations and sullen anger into a hilarious mixture of Shakespearean rhetoric and good old fashioned Hunter S Thompson inspired gonzo journalism. Historical Dictionary of the Seventh-Day Adventists Gary Land, 2014-10-23 Seventh-day Adventism was born as a radical millenarian sect in nineteenth-century America. It has since spread across the world, achieving far more success in Latin America, Africa and Asia than in its native land. In what seems a paradox, Adventist expectation of Christ's imminent return has led the denomination to develop extensive educational, publishing and health systems. Increasingly established within a variety of societies, Adventism over time has modified its views on many issues and accommodated itself to the delay of the Second Advent. In the process, it has become a multicultural religion that nonetheless reflects the dominant influence of its American origins. This second edition of Historical Dictionary of the Seventh Day Adventists covers its history through a chronology, an introductory essay, appendixes and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on key people, cinema, politics and government, sports and critics of Ellen White. This book is an excellent access point for students, researchers and anyone wanting to know more about Seventh-day Adventism.
