The Eclectic Magazine of Foreign Literature, Science, and Art ,1889 Explorations in Art, Theology and Imagination Michael Ridgwell Austin,2016-04-08 Christianity has repeatedly valued the Word over and above the non verbal arts Art has been seen through the interpretative lens of theology rather than being valued for what it can bring to the discipline Explorations in Art Theology and Imagination argues that art is crucially important to theology The book explores the interconnecting themes of embodiment and incarnation faith and imagination and the similarities and differences between art and theology Arguing for a critique that begins with art and moves to theology Explorations in Art Theology and Imagination offers a radical re evaluation of the role of art in Christian discourse The Methuen Drama Companion to Performance Art Bertie Ferdman,Jovana Stokic,2020-02-20 The Methuen Drama Companion to Performance Art offers a comprehensive guide to the major issues and interdisciplinary debates concerning performance in art contexts that have developed over the last decade It understands performance art as an institutional cultural and economic phenomenon rather than as a label or object Following the ever increasing institutionalization and mainstreaming of performance the book s chapters identify a marked change in the economies and labor practices surrounding performance art and explore how this development is reflective of capitalist approaches to art and event production Embracing what we perceive to be the oxymoronic status of performance art where it is simultaneously precarious and highly profitable the essays in this book map the myriad gestures and radical possibilities of this extreme contradiction This Companion adopts an interdisciplinary perspective to present performance art s legacies and its current practices It brings together specially commissioned essays from leading innovative scholars from a wide range of approaches including art history visual and performance studies dance and theatre scholarship in order to provide a comprehensive and multifocal overview of the emerging research trends and methodologies devoted to performance art The Theory of the Arts Francis Edward Sparshott,2014-07-14 In a systematic overview of classical and modern contributions to aesthetics Professor Sparshott argues that all four lines of theory and no others are necessary to coherent thinking about art Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
