circumstances new communities and new concerns that are reconstituting Asian America **Re-Creating Medicine** Gregory E. Pence, 2007-05-30 In this important new book Gregory E Pence looks at issues on the frontiers of medicine including gene therapy to produce brave new babies cloning human eggs and embryos for sale and experiments on human embryos Pence argues that the conservatism of the medical establishment the bioethics community and the public at large has created shibboleths that impede improvements in our quality of life What I Learned in Medical School Kevin M. Takakuwa, Nick Rubashkin, Karen E. Herzig, 2004-01-06 Like many an exclusive club the medical profession subjects its prospective members to rigorous indoctrination medical students are overloaded with work deprived of sleep and normal human contact drilled and tested and scheduled down to the last minute Difficult as the regimen may be for those who don t fit the traditional mold white male middle to upper class and heterosexual medical school can be that much more harrowing This riveting book tells the tales of a new generation of medical students students whose varied backgrounds are far from traditional Their stories will forever alter the way we see tomorrow's doctors In these pages a black teenage mother overcomes seemingly insurmountable odds an observant Muslim dons the hijab during training an alcoholic hides her addiction We hear the stories of an Asian refugee a Mexican immigrant a closeted Christian an oversized woman these once unlikely students are among those who describe their medical school experiences with uncommon candor giving a close up look at the inflexible curriculum the pervasive competitive culture and the daunting obstacles that come with being different in medical school Their tales of courage are by turns poignant amusing eye opening and altogether unforgettable Clear Writing Marjorie Mather, Brett McLenithan, 2006-10-31 Clear Writing is a compact varied and very readable collection of prose designed to provide models of excellent and engaging writing for courses in rhetoric composition writing university writing expository prose non fiction writing and the essay Bioethics as Practice Judith Andre, 2004-08-01 Andre examines the field of bioethics from an insider s point of view exploring the questions that have dominated the field and encouraging students and practitioners to move beyond end of life issues to address issues in the routine practice of medicine

Between Doctors and Patients Lilian R. Furst,1998 Although there are many books on the mechanics of doctor patient interaction none has previously confronted the philosophical and psychological issues of power and trust that bind these figures One consequence of their changed relationship Furst asserts has been the decrease of interest in patients as individuals In this time of impersonal HMOs and spiraling health care costs she hopes that doctors and patients can learn from the past and eventually find a mutually beneficial balance of power that will see medicine as both a science and an art and will recognize human understanding as an integral element of healing **Treatment Kind and Fair** Perri Klass, 2008-08-26 If you we ever gotten wrapped up in the arcana of E R or House or been absorbed by a piece in The New Yorker by Gawande Groopman or Nuland or sat on that exam table wondering what s really going on in your doctor s head then this book is for you Expertise versus commonsense practice moral judgments on young patients or their parents asking

tough questions death and physician assisted suicide daily life with a doctor s job yours or a family member s doctors as patients Klass addresses the primary issues in the life of any doctor and by extension the lives of those for whom they care Perri Klass M D is a writer teacher pediatrician and mentor In her frequent contributions to the New York Times she takes on a host of issues particular to the life of a doctor secrecy ethics fear grief and competition with a warmth and wit her readers have come to love Now in the newest addition to Basic's Art of Mentoring series she offers her guidance and her stories to a new generation of doctors and readers Planning a Life in Medicine The Princeton Review, John Smart, Stephen Nelson, Julie Doherty, 2011-11-23 A life in medicine is something that many dream of but few achieve The tests students face both literal and figurative just to get into medical school are designed to weed out the weak In Planning a Life in Medicine the experts at The Princeton Review help you succeed in a premedical program score higher on the MCAT meet the challenges of medical school and ultimately flourish in your medical career More than just a comprehensive plan for getting into medical school Planning a Life in Medicine is a handbook that will help you to cultivate the skills and habits such as compartmentalizing knowledge and improving concentration that will help you along your path of heart and serve you well Doctors' Stories Kathryn Montgomery Hunter, Kathryn Montgomery, 1991 throughout your education and medical career A patient s job is to tell the physician what hurts and the physician s job is to fix it But how does the physician know what is wrong What becomes of the patient's story when the patient becomes a case Addressing readers on both sides of the patient physician encounter Kathryn Hunter looks at medicine as an art that relies heavily on telling and interpreting a story the patient's story of illness and its symptoms **Intensive Care** Danielle Ofri, MD,2013-03-05 A collection of riveting and compassionate stories about the triumphs and trials of medicine from a doctor and gifted storyteller on the front lines The Washington Post This eBook original exhibits Danielle Ofri s range and skill as a storyteller as well as her empathy and astuteness as a doctor Her vivid prose brings the reader into bustling hospitals tense exam rooms and Ofri s own life giving an up close look at the fast paced life and death drama of becoming a doctor She tells of a young man uncertain of his future who comes into the clinic with a stomach complaint but for whom Dr Ofri sees that the most useful treatment she can offer him is SAT tutoring She writes of a desperate struggle to communicate with a critically ill patient who only speaks Mandarin of a doctor whose experience in the NICU leaves her paralyzed with PTSD and of her own struggles with the fear of making fatal errors the dangers of overconfidence and the impossible attempts to balance the empathy necessary for good care with the distance necessary for self preservation Through these stories of her patients colleagues and her own experiences Intensive Care offers poignant insight into the medical world and into the hearts and minds of doctors and their patients These stories are drawn from the author's previous books Final Exam Pauline W. Chen, 2007-01-09 A brilliant transplant surgeon brings compassion and narrative drama to the fearful reality that every doctor must face the inevitability of mortality Uncommonly moving A revealing and heartfelt book Atul Gawande 1 New York bestselling author of Being Mortal When

Pauline Chen began medical school she dreamed of saving lives What she could not predict was how much death would be a part of her work Almost immediately she found herself wrestling with medicine s most profound paradox that a profession premised on caring for the ill also systematically depersonalizes dying Final Exam follows Chen over the course of her education and practice as she struggles to reconcile the lessons of her training with her innate sense of empathy and humanity A superb addition to the best medical literature of our time Where Night Is Day James Kelly, 2013-03-15 There is no night in the ICU There is day lesser day then day again There are rhythms Every twelve hours shift change Report first all together in the big room then at the bedside nurse to nurse Morning rounds A group of doctors moves slowly through the unit like a harrow through a field At each room like a game a different one rotates into the center They leave behind a trail of new orders Wean extubate titrate start this stop that scan film scope The steep hill the patient is asked to climb Can you breathe on your own Can you wake up Can you live Where Night Is Day Where Night Is Day is a nonfiction narrative grounded in the day by day hour by hour rhythms of an ICU in a teaching hospital in the heart of New Mexico It takes place over a thirteen week period the time of the average rotation of residents through the ICU It begins in September and ends at Christmas It is the story of patients and families suddenly faced with critical illness who find themselves in the ICU It describes how they navigate through it and find their way James Kelly is a sensitive witness to the guiet courage and resourcefulness of ordinary people Kelly leads the reader into a parallel world the world of illness This world invisible but not hidden not articulated by but known by the ill does not readily offer itself to our understanding In this context Kelly reflects on the nature of medicine and nursing on how doctors and nurses see themselves and how they see each other Drawing on the words of medical historians doctor writers and nursing scholars Kelly examines the relationship of professional and lay observers to the meaning of illness empathy caring and the silence of suffering Kelly offers up an intimate portrait of the ICU Narrative and the Cultural Construction of Illness and Healing Cheryl Mattingly, Linda C. Garro, 2000 and its inhabitants A valuable collection The essays in the volume are all fresh the result of recent work and the opening chapter by Garro and Mattingly places the current trend in narrative analysis in historical context explaining its diverse origins and constructs in a range of disciplines Shirley Lindenbaum author of Kuru Sorcery A good place to consult the narrative turn in medical anthropology Thick with the richness and diversity and stubborn resistance to interpretations of human stories of illness An anthropological antidote for too narrow a framing of the complex tangle of ways of being and ways of telling that make medicine a space of indelibly human experiences Arthur Kleinman author of The Illness Narratives Measuring Medical Professionalism David Thomas Stern, 2006 Patients who are confident of physicians intellectual and technical abilities are sometimes not convinced of their professional behavior Systemic and anecdotal cases of physician misconduct conflict of interest and self interest abound Many have even come to mistrust physicians as patient advocates How can patients trust the intellectual and technical aspects of medical care but not the professional In order to enhance and promote

professionalism in medicine one should expect it encourage it and evaluate it By measuring their own professional behavior physicians can provide the kind of transparency with which they can regain the trust of patients and society Not only patients but also institutions which accredit organizations have demanded accountability of physicians in their professional behavior. While there has been much lament and a few strong proposals for improving professionalism no single reliable and valid measure of the success of these proposals exists. This book is a theory to practice text focused on ways to evaluate professional behavior written by leaders in the field of medical education and assessment. Fieldwork in Educational Settings. Sara Delamont, 2002-11-01 Extensively revised and updated this new edition of Fieldwork in Educational Settings will be welcomed by researchers and academics in education and the social sciences Embracing both sociological and anthropological approaches to qualitative research the book covers education inside and beyond schools. It emphasises writing up ethnographic research and getting the project finished and is packed with examples from research in progress. This new edition brings the original text right up to date for new researchers. There is an additional chapter on computer software for data handling and attention is given to the implications of postmodernism for writing up research. The examples given are taken from the latest research replacing those from the first edition. This is an indispensable handbook by an author whose work on this subject is widely recognised as being an essential resource for the researcher in education.
