Medicine, Committee on Federal Regulation of Methadone Treatment, 1995-02-18 For nearly three decades methadone hydrochloride has been the primary means of treating opiate addiction Today about 115 000 people receive such treatment and thousands more have benefited from it in the past Even though methadone s effectiveness has been well established its use remains controversial a fact reflected by the extensive regulation of its manufacturing labeling distribution and use The

Food and Drug Administration regulates the safety and effectiveness of methadone as it does for all drugs and the Drug Enforcement Administration regulates it as a controlled substance. However, methadone is also subjected to a unique additional tier of regulation that prescribes how and under what circumstances it may be used to treat opiate addiction. Federal Regulation of Methadone Treatment examines current Department of Health and Human Services standards for narcotic addiction treatment and the regulation of methadone treatment programs pursuant to those standards. The book includes an evaluation of the effect of federal regulations on the provision of methadone treatment services and an exploration of options for modifying the regulations to allow optimal clinical practice. The volume also includes an assessment of alternatives to the existing regulations.

Intellectual Property Law and Policy Volume 12 Hugh Hansen, 2013-05-22. This is the 17th Annual volume in the series collecting the presentations and discussion from the Annual Fordham IP Conference. The contributions by leading world experts analyse the most pressing issues in copyright, trademark and patent law as seen from the perspectives of the USA, the EU, Asia and WIPO. This volume in common with its predecessors makes a valuable and lasting contribution to the discourse in IP law as well as trade and competition law. The contents while always informative are also critical and questioning of new developments and policy concerns. Praise for the series: This must be one of the most enjoyable and thought provoking conferences in the IP field. The high quality of the speakers is matched by the intense audience led debates and challenges which follow. The Honourable Mr Justice Laddie, Royal Courts of Justice, London. Faculty for this conference are always well known names, well respected leaders in their fields speaking with a combination of candor and timeliness that is unrivaled by any other forum of its kind. Honorable Marybeth Peters, Register of Copyrights, United States Copyright Office.

Readings in the Making of American Foreign Policy Andrew MacKay Scott, Raymond H. Dawson, 1965. The factors that influence foreign policy decisions are both formal: Congress and its committees, the Executive establishment and informal: interest groups, the press, scientific advancements and elections. In either case, the process by which and the environment in which a decision is made largely determines the substance of that decision. These readings give a thorough introduction to the formulation of American foreign policy. They cover many aspects of the foreign policy dilemma from the current world situation to budgetary problems, the Intelligence community, national security, the powerful role of the military and overseas Americans.
