*Women who Taught* Alison L. Prentice,Marjorie R. Theobald,1991-01-01 In an era when women are moving into so many areas of the labour force we all remember some of the first working women we ever encountered women teachers as they were too often known The impact of women on education has been enormous throughout the English speaking world It has also been ignored for the most part by mainstream historians of education Alison Prentice and Marjorie R Theobald have addressed this omission by bringing together a wide range of essays by feminist historians on the role of women in education at all levels in Canada Australia Britain and the United States All the essays were ground breaking when first published Among the subjects they explore are the experience of women in private or domestic schooling and the rigours of teaching as single women in remote areas Other essays discuss the impact on women s working schools in the nineteenth century the growth of professional teachers organizations and the blurring of public and private in the lives of twentieth century teachers The editors provide an introduction that traces the growth of the emerging field of the history of women in teaching and identifies new directions currently developing A bibliography offers further resources     Reading for Profit Montgomery Belgon,1950     Outlook ,1928     *Maynard Keynes* Donald Moggridge,1992-04-02 Based on an intimate knowledge of the subject and his environment this biography of the most influential economist of the twentieth century traces Keynes career on all its many levels From academic Cambridge to artistic Bloomsbury to official Whitehall and to the City we see the intellectual roots of Keynes achievements and failures We also     **Outlook and Independent** ,1928     *Functions of Victorian Culture at the Present Time* Christine L. **South Melbourne** Susan Priestley,2013-04-01 South Melbourne is a state of mind Once you live there you don t want to shift Doris Condon South Melbourne resident from 1942 until her death in 1979 Mayor 1969 to 1970 The first of Melbourne s suburbs to adopt fuoll municipal status South Melbourne has also been at the forefront of many of the forces that have shaped both the local and national landscapes Having seen its Aboriginal inhabitants displaced by European settlers what

became of one of Melbourne's first industrial suburbs then underwent a shift from manufacturing to commercial industry after the Second World War before experiencing the recent push for inner city heritage conservation and urban renewal. South Melbourne's people have participated in the national dramas of immigration, federation, booms, busts and world war. Not surprisingly in a suburb that boasts some of Melbourne's most popular beaches and sporting grounds, the residents have contributed significantly to the national passions for beach culture and sport, producing cricket heroes, football legends and playing host most controversially to motor racing. As the home of the National Gallery of Victoria, the Victorian Arts Centre and other cultural institutions, South Melbourne has a unique place in Australia's cultural life. Part of an amalgamated City of Port Phillip since June 1994, the suburb now looks to draw strength from what Jessie Kennelly, long-time resident and widow of Senator Pat Kennelly, calls its good past. Bellamy, Hamilton Wright Mabie, 1928 **Vampyres: Genesis and Resurrection: from Count Dracula to Vampirella** Christopher Frayling, 2016-09-13 An expanded, fully illustrated and up-to-date edition of the classic cultural history of vampires. *Vampyres* is a comprehensive and generously illustrated history and anthology of vampires in literature from the folklore of eastern Europe to the Romantics and beyond. It incorporates extracts from a huge range of sources from Bram Stoker's detailed research notes for *Dracula* to penny dreadfuls to Angela Carter's *The Bloody Chamber*, new to this edition, which is analyzed by the author in a broader cultural context. This revised and expanded edition of the 1978 classic brings *Vampyres* up to date with twenty-first century vampire literature, including new text extracts, commentary and a revised introduction. For the first time, Christopher Frayling also explores the development of the vampire in the visual arts in four color plate sections with illustrations ranging from eighteenth-century prints to twenty-first-century film stills, demonstrating the enduring appeal of the vampire from popular press to fine art and finally to film. **Glasgow by the way, but** John Cairney, 2020-05-15 This is a book about Glasgow but not your everyday history book. *Glasgow by the way* but is a contemporary series of essays examining different aspects of Glasgow in a historical and cultural context, revealing a unique, amusing and sometimes critical perspective of Cairney's beloved city. Those who remember John Cairney's performances and have read his other books will enjoy the insightful anecdotes from Cairney's career. **Schoolteachers in the News** Kathryn Shine, Tom O'Donoghue, 2013-02-28 Research examining how schoolteachers have been represented in the news is scarce. This is noteworthy given the recognition that the news media has an influential agenda-setting function, plays a pivotal role in shaping public opinion and can influence educational policy. Indeed, there is a view amongst some authorities that education policy and news media coverage are irrevocably interconnected. Specifically in relation to newspapers, research indicates that their coverage can be particularly influential in informing and influencing public debate and policy about a variety of educational issues. Research has also been conducted on the reactions of teachers reporting that they perceive news media coverage as important in shaping public opinion and education policy as well as affecting their relationships with

families friends and the community Teachers in various countries have also expressed frustration at what they have perceived as a negative focus in coverage Furthermore news media coverage has been seen to play a role to the decline in the status of teaching that has been documented by researchers from many developed countries over the past three decades It has been claimed that contemporary news media coverage has led to greater scrutiny and criticism of the teaching profession than ever before with educators increasingly having to explain and justify their work In addition to the widespread concern about the decline in the status of teaching many countries are experiencing ongoing teacher recruitment and retention problems Despite this very few studies have considered how schoolteachers and teaching as a profession are depicted in the news media Particularly scarce are investigations with a historical dimension This book helps fill the gap by examining the reporting in The West Australian newspaper one of the oldest newspapers in Australia and a daily publication since 1885 It is offered as a contribution towards rectifying the deficit in the corpus of work on how newspapers have depicted teachers and points the way towards one of a number of avenues of research that other scholars in the field could take for various contexts including different countries and time periods The specific aim of the study is to provide a historical analysis of The West Australian newspaper's representation of teachers over two decades To that end it examines the portrayal of teachers in its reporting of five major educational developments in the state of Western Australia that were the subject of sustained coverage at various times between 1987 and 2007 unit curriculum 1987 1989 industrial dispute 1995 standardised testing 1997 2001 teacher shortage 1997 2007 and outcomes based education 2005 2007 Although the study focused on The West Australian newspaper the topics chosen reflect the international trends and universal issues in education Each of the topics in the study is located within the broader context of related developments internationally and especially in the United States the United Kingdom and Australia Three key representations of teachers are identified negative representations sympathetic representations and positive representations The negative representations refer to coverage which is overtly critical of teachers such as reporting which condemns teachers for taking industrial action the sympathetic representations relate to reporting which typically presents teachers as stressed overburdened and powerless and the positive representations show teachers as valued by the community and devoted to their students and work The central argument of the study is that The West Australian's coverage was dominated by both negative and sympathetic representations of schoolteachers while positive representations were relatively rare Overall the coverage presented a less flattering image of teachers than that which emerges from the educational research literature yet it provided a more balanced presentation of teachers than the extremes of hero and villain which tend to dominate popular culture Its portrayal of teachers was generally consistent with that of other news media with a movement towards a more sympathetic treatment in recent reporting reflecting a trend also identified in contemporary British newspaper coverage Although the sympathetic coverage did recognize the challenges faced by teachers it consistently presented teaching as a profession in a negative light

Across the coverage there was almost a total absence of voices defending teaching or presenting it as an attractive career option. In addition, comments of any type from individual teachers were rare. Overall, the book highlights the need for key media spokespeople in education, politicians, union representatives, bureaucrats, and academics to consider carefully the messages they want to send regarding teachers and teaching. It also points to implications for journalism education and journalism practice. This book should be read by those working in the fields of educational policy, journalism education, media studies, and history of education internationally, particularly those working in these fields in the United States, Canada, the United Kingdom, Australia, and New Zealand.

**Knowing Women** Marjorie R. Theobald, 1996. A comprehensive study of female education in nineteenth-century Australia, rich in narrative detail.

*Gender Matters in Educational Administration and Policy* Jill Blackmore, Jane Kenway, 2017-05-18. Originally published in 1993. This introductory text brings the somewhat gender-blind fields of educational administration and policy into contact with feminism. The chapters here demonstrate the considerable scope and potential of feminist scholarship for the field with regard to theory, research, and practice, and open up new possibilities for effecting gender justice in and through education. The first part looks at educational history, the second at contemporary issues like assessment, ethical practices, equal opportunities, and parental participation, and the third at political and administrative theory.
