Notes And Fragments:

Notes and Fragments Immanuel Kant, 2005-03-21 This volume provides an extensive translation of the notes and fragments that survived Kant's death in 1804. These include marginalia, lecture notes, and sketches and drafts for his published works. They are important as an indispensable resource for understanding Kant's intellectual development and published works, casting fresh light on Kant's conception of his own philosophical methods and his relations to his predecessors, as well as on central doctrines of his work, such as the theory of space, time, and categories, the refutations of scepticism and metaphysical dogmatism, the theory of the value of freedom, and the possibility of free will, the conception of God, the theory of beauty, and much more. Addressing an array of canonical writers including William Faulkner, Joseph Conrad, Thomas Hardy, and Henry James, along with popular contemporary writers like Stephen King and Ian McEwan, this volume presents a systematic study of changes in mode of composition and writing technologies. Computational analysis of texts produced in multiple circumstances of composition, such as dictation, handwriting, typewriting, word processing, and translation, reveals the extraordinary durability of authorial style. Modes of Composition and the Durability of Style in Literature will be essential for readers interested in exploring the rapidly expanding field of digital approaches to literature.
