Bornstein, 2002 Crossing the Green Line Between the West Bank and Israel makes eloquent use of particular Palestinian experiences as the framework for a critique of the way borders work in the modern world [Al-Haq](#) Lynn Welchman, 2021-06-08 A free open access ebook is available upon publication Learn more at www.luminosoa.org The leadership and legacy of al Haq from its origins in Palestine to its international impact Established in Ramallah in 1979 al Haq was the first Palestinian human rights organization and one of the first such organizations in the Arab world This inside history explores how al Haq initiated methodologies in law and practice that were ahead of its time and that proved foundational for many strands of today's human rights work in Palestine and elsewhere Lynn Welchman looks at both al Haq's history and legacy to explore such questions as Why would one set up a human rights organization under military occupation How would one go about promoting the rule of law in a Palestinian society deleteriously served by the law and with every reason to distrust those charged with implementing its protections How would one work to educate overseas allies and activate international law in defense of Palestinian rights This revelatory story speaks to the practice of

local human rights organizations and their impact on international groups

Theologies of Liberation in

Palestine-Israel Nur Masalha, Lisa Isherwood, 2014-04-29 This collection of essays concerns the development of contextualized theologies of liberation in Palestine and the indigenous Palestinian people's struggle for justice and liberation. The work is innovative because of its inclusion of indigenous perspectives within its remit and the introduction of new concepts such as civil liberation theology. The collection offers other ways to look at biblical discourses and their impact on the ongoing conflict, ways to live in peace, ways to be ethical when visiting these conflicted lands, understandings of resource ethics, and even a new way to understand how we approach our understanding of liberation theology. Contributors include well-known scholars from Muslim, Jewish, Christian, Palestinian, Israeli, Indian, American, and British contexts. This work goes beyond standard academic collections. It is aimed not only at scholars and students but also at peace activists and policymakers. It should be of use not only in academic courses but also for practitioners of conflict resolution, peace, and reconciliation.

Occupational Hazards David M. Edelstein, 2011-07-20 Few would contest that the U.S. occupation of Iraq is a clear example of just how fraught a military occupation can become. In *Occupational Hazards*, David M. Edelstein elucidates the occasional successes of military occupations and their more frequent failures. Edelstein has identified twenty-six cases since 1815 in which an outside power seized control of a territory where the occupying party had no long-term claim on sovereignty. In a book that has implications for present-day policy, he draws evidence from such historical cases as well as from four current occupations: Bosnia, Kosovo, Afghanistan, and Iraq, where the outcome is not yet known. Occupation is difficult, in Edelstein's view, because ambitious goals require considerable time and resources, yet both the occupied population and the occupying power want occupation to end quickly and inexpensively. In drawn-out occupations, impatience grows and resources dwindle. This combination sabotages the occupying power's ability to accomplish two tasks: convince an occupied population to suppress its nationalist desires and sustain its own commitment to the occupation. Structural conditions and strategic choices play crucial roles in the success or failure of an occupation. In describing those factors, Edelstein prescribes a course of action for the future.

Migration Across

Boundaries Parvati Nair, Tendayi Bloom, 2016-03-03 Bringing together scholars and practitioners from a range of disciplinary backgrounds working in Europe, North and South America, South Asia, and the Middle East, this volume explores the question of how to ensure that migration research feeds back into improving the lives of migrants. It emphasises the necessarily interdisciplinary and cross-boundary nature of migration research, offering methodological recommendations to anyone studying or working in the field and showing how migration studies can usefully affect real contexts by better exploring the potential that exists for both bridging academic disciplines and building links with work that occurs beyond strictly academic forums. Organised around the themes of methodological considerations and interdisciplinary approaches, the experiences of migrants as researchers and interaction between practitioners, policy makers, and academics. *Migration Across*

Boundaries discusses the realities of the discourses that surround international migration examining the proper role of academia in bringing together a range of stakeholders to formulate dialogic approaches to understanding migration An international and interdisciplinary contribution to our understanding of how research in migration can be brought to bear on the experiences of migrants and linked to the work of activists artists and policy makers this book will appeal not only to scholars and students of migration across the social sciences but also to those working in the fields of migrant advocacy and activism

Disappearing Palestine Jonathan Cook, 2013-04-04 Palestine is fast disappearing Over many decades Israel has developed and refined policies to disperse imprison and impoverish the Palestinian people in a relentless effort to destroy them as a nation It has industrialized Palestinian despair through ever more sophisticated systems of curfews checkpoints walls permits and land grabs It has transformed the West Bank and Gaza into laboratories for testing the infrastructure of confinement creating a lucrative defence industry by pioneering the technologies needed for crowd control surveillance collective punishment and urban warfare In this insightful and authoritative new book leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out Accessible and comprehensive this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics

The Palestinians David McDowall, 1994 In this new and wide ranging book David McDowall author of the highly respected 1986 MRG report on the Palestinians traces their story from the late nineteenth century to the present day He describes their first fears before 1914 of the Zionist aim to build a Jewish state in Palestine the fulfilment of their worst expectations in the wars of 1948 and 1967 the situation of the Palestinian minority within Israel Israel's occupation of the West Bank and Gaza Strip the Palestinian response and the Intifada the 1991 Gulf War and the subsequent search for peace

Popular Protest in Palestine Marwan Darweish, Andrew Rigby, 2015-07-20 This is a thoughtful and sensitive analysis of the history and significance of non violent civil resistance in the Palestinian national movement It shows how the thread of unarmed struggle has run through the history of Palestinian liberation from the establishment of the Israeli state through the Nakba and to the present day Set in this historical context the book draws upon personal conversations and living history in order to focus on the contemporary movement in the Occupied Palestinian Territories By analysing this under emphasised dimension of the Palestinian struggle the authors argue that today the popular resistance movement

especially in the West Bank is the most significant form of struggle against the ongoing occupation. They also address the international dimensions of the struggle focusing in particular on the BDS campaign, the role of Israeli and international solidarity activists and the changing forms of engagement developed by international agencies seeking to work on the roots of the conflict.

The Zionist Bible Nur Masalha, 2014-10-20 Throughout the history of European imperialism the grand narratives of the Bible have been used to justify settler colonialism. The Zionist Bible explores the ways in which modern political Zionism and Israeli militarism have used the Bible, notably the Book of Joshua and its description of the entry of the Israelites into the Promised Land as an agent of oppression and to support settler colonialism in Palestine. The rise of messianic Zionism in the late 1960s saw the beginnings of a Jewish theology of zealotocracy based on the militant land traditions of the Bible and justifying the destruction of the previous inhabitants. The Zionist Bible examines how the birth and growth of the State of Israel has been shaped by this Zionist reading of the Bible, how it has refashioned Israeli Jewish collective memory, erased and renamed Palestinian topography and how critical responses to this reading have challenged both Jewish and Palestinian nationalism.

Laughter in Occupied Palestine Chrisoula Lionis, 2016-02-24 Though the current political situation in Palestine is more serious than ever, contemporary Palestinian art and film is becoming paradoxically increasingly funny. In *Laughter in Occupied Palestine*, Chrisoula Lionis analyses both the impetus behind this shift toward laughter and its consequences, arguing that laughter comes as a response to political uncertainty and the decline in nationalist hope. Revealing the crucial role of laughter in responding to the failure of the peace process and ongoing occupation, she unearths the potential of humour to facilitate understanding and empathy in a time of division. This is the first book to provide a combined overview of Palestinian art and film, showing the ways in which both art forms have developed in response to critical moments in Palestinian history over the last century. These key moments, Lionis argues, have radically transformed contemporary Palestinian collective identity and in turn Palestinian cultural output. Mapping these critical junctions, beginning with the Balfour Declaration of 1917 to the Oslo Accords in 1993, she explores the historical trajectory of Palestinian art and film and explains how the failure of the peace process has led to the present proliferation of humour in Palestinian visual culture.
