Palestinian Parties and Politics that Shaped the Old Testament Morton Smith, 1971      History, Politics and the Bible from the Iron Age to the Media Age James G. Crossley, Jim West, 2016-12-01 As biblical studies becomes increasingly fragmented this collection of essays brings together a number of leading scholars in order to show how historical reconstruction philology metacriticism and reception history can be part of a collective vision for the future of the field This collection of essays focuses more specifically on critical questions surrounding the construction of ancient Israel s minimalism the ongoing significance of lexicography the development of early Judaism orientalism and the use of the Bible in contemporary political discourses Contributors include John van Seters Niels Peter Lemche Ingrid Hjelm and Philip R Davies

*History and Ideology in the Old Testament* James Barr, 2000-05-19 The end of the millennium sees biblical study in a state of transition The traditional position of historical approaches is widely questioned and historical criticism is regarded as pass There is a search for approaches literary or sociological that are less tied to history On the other hand there is a more radical approach to the history of Israel that sees true history as distinct from the biblical narrative and dependent on sources other than the Bible Biblical narratives thus express not the actual events but the ideological and religious aspirations of writers in much later times Ideology has become one of the key words but is used in very divergent ways All this is linked with the intellectual movement known as post modernism Some connections between post modernism and theology are suggested by Professor Barr in the final chapter This book is important because it tries to bring together various threads of these different movements and to state a position from which we may advance into the new millennium      *The Origin Myths and Holy Places in the Old Testament* Lukasz Niesiolowski-Spano, Jacek Laskowski, 2016-04-08 Origin Myths and Holy Places in the Old Testament examines the biblical narratives which describe the origins of holy places It argues for the Hellenistic origin or redaction of most of these narratives Three central questions are addressed are there common features in biblical accounts about the foundation of places of worship are there elements in the aetiological stories that reveal the real mythology rituals of the sanctuary what were the circumstances of the creation of such narratives      **The Old Testament** Rolf

Rendtorff, 1991-01-01 The Old Testament is a collection of writings which came into being over a period of more than a thousand years in the history of the people of Israel and which reflect the life of the people in this period Therefore there is a reciprocal relationship between the writings or books of the Old Testament and the life of Israel in its history The understanding of the texts presupposes insights into the historical context and the development of the life of Israelite society while at the same time the texts themselves are the most important indeed for the most part the only source for it This Introduction attempts to take account of this reciprocal relationship The first part deals with the history of Israel However its approach differs from most accounts of this history It takes the Old Testament texts themselves as a starting point and first of all outlines the picture of historical developments and associations which the texts present An attempt is then made on this

basis to reconstruct historical developments by introducing material from outside the Bible This method of working leads to close connections between the second and third parts because it has to take account of the nature and original purpose of the texts and their function within the biblical books as they are now The second part attempts to present the texts collected in the Old Testament as expressions of the life of Israel The third part discusses the books of the Old Testament in their present form

*Literary Approaches to the Bible* Douglas Mangum, Douglas Estes, 2018-03-14 The study of the Bible has long included a literary aspect with great attention paid not only to what was written but also to how it was expressed The detailed analysis of biblical books and passages as written texts has benefited from the study of literature in classical philology ancient rhetoric and modern literary criticism This volume of the Lexham Methods Series introduces the various ways the study of literature has been used in biblical studies Most literary approaches emphasize the study of the text alone its structure its message and its use of literary devices rather than its social or historical background The methods described in *Literary Approaches to the Bible* are focused on different ways of analyzing the text within its literary context Some of the techniques have been around for centuries but the theories of literary critics from the early 20th century to today had a profound impact on biblical interpretation In this book you will learn about those literary approaches how they were adapted for biblical studies and what their strengths and weaknesses are

*Treasures Old and New* Joseph Blenkinsopp, 2004 The Pentateuch is one anchor of the Western religious heritage a rich source of theological and spiritual instruction capable of being plumbed again and again In *Treasures Old and New* accomplished biblical scholar Joseph Blenkinsopp engages twelve topics of great interest to thoughtful people today and does so in dialogue with texts from the Pentateuch In keeping with the view that the Pentateuch is far too multiplex to be encapsulated in a single theological system Blenkinsopp has written *Treasures Old and New* as a sketchbook of theology in the Pentateuch This fruitful approach allows him to consider themes that easily fall through the cracks of more systematic works of biblical theology Among the many interesting subjects Blenkinsopp explores are the role of memory in the construction of the past the dependence of Christianity on Judaism the close connection between sacrifice and community in Old Testament Israel the proper meaning of human stewardship of the world and belief or lack of belief in a meaningful post mortem existence Blenkinsopp believes that scripture is infinitely interpretable and that we are free to read the Bible in more flexible fascinating and exciting ways In keeping with the great variety of discourses in the Pentateuch the standard

historical critical method must coexist with other and in some cases much older interpretive approaches to texts Blenkinsopp here ably demonstrates this perspectival approach to scripture by reading well known texts from less well known angles The Garden of Eden story for example gains in resonance when read together with Gilgamesh and the laws governing diet and cleanliness come clearer in the light of current ecological concerns Blenkinsopp's approach also throws new light on such important yet enigmatic stories as the Creation Cain and Abel the Flood the Tower of Babel the Call of Abram Sodom and Gomorrah and others Blessed with an extraordinary ability to transmit complex issues in concise and lucid fashion Blenkinsopp has put forth great effort to make this sketchbook accessible Footnotes have been kept to a minimum and Blenkinsopp has transliterated the few Hebrew references and used his own more idiomatic translations of biblical texts wherever they seemed clearer than the standard translations As a result this volume can be pursued profitably by scholars students and readers alike Above all Treasures Old and New shows that serious engagement with biblical texts while sometimes demanding can be intellectually and religiously rewarding

*The Incomparable God* Brent A. Strawn, 2023-05-30

My Lord There is no one like you among the gods Attempting to describe the nature of God often prompts the exclamation of the psalmist that God is unlike anyone or anything else And yet the claim is not simply the overflow of an adoring heart God's incomparability is a truth lodged deep within Christian Scripture In *The Incomparable God* Old Testament scholar Brent Strawn offers thoughtful insight into this theological mystery This volume collects eighteen of Strawn's most provocative essays on the nature of God several of which are published for the first time here Strawn covers the following topics the complex portrayal of God in Genesis God's mercy in Exodus poetic description of God in the Psalms the Trinity in both testaments pedagogy of the Old Testament integration of faith and scholarship Encompassing close readings of Scripture biblical theological argument and considerations of praxis *The Incomparable God* is essential reading for Old Testament scholars and students

*The Ideology of the Book of Chronicles and Its Place in Biblical Thought* Sara Japhet, 2009-06-30

In the last several decades interest in the Exilic and Postexilic periods of ancient Israel's history has grown especially as this era has been recognized to be important for the formation of the Hebrew Bible One of the scholars at the forefront of interest in this period is Sara Japhet now Yehezkel Kaufmann Professor Emeritus in the Department of Bible at the Hebrew University of Jerusalem This volume which is based on Japhet's 1973 Ph D dissertation at the Hebrew University published in Hebrew in 1978 was first published in English in 1989 and rapidly was recognized as a major distillation of the themes underlying the ideology of the book of Chronicles The book of Chronicles written at the end of the fourth century B C E relates the history of Israel from its beginnings with the creation of man to the return from exile with the declaration of Cyrus The historical and theological points of departure of the Chronicler's description are to be found in the realities of his own day Through this historical composition he attempts to imbue with new meaning the two components of Israel's life the past which through its sublimation and transformation into a norm was in danger of becoming remote and irrelevant and the present which is

granted full legitimization by demonstrating its continuity with this past The one is interpreted in terms of the other Japhet's study strives to reveal the Chronicler's views and perspectives on all the major issues of Israel's history and religion unveiling his role as a bridge between biblical and postbiblical faith The book has been out of print for a number of years this edition which has been completely retypeset so that it is more readable makes an important contribution to the growing body of literature that explores the development of Israelite religion during the time of the formation of the Hebrew Scriptures Japhet's ground breaking work continues to make a lasting contribution to our understanding of the historical and theological position of the Chronicler

*SCM Core Text: The Pentateuch* Walter Houston, 2013-10-22 This book introduces students with a little background in biblical studies to the scholarly study of the Pentateuch Genesis to Deuteronomy Existing introductions to the Pentateuch are either mainly concerned with historical criticism or taken up with a survey of the contents of the five books or both This book is distinctive in that every chapter is concerned with the whole Pentateuch and in that it approaches the subject from three completely different points of view following the way in which biblical scholarship has developed over the past 30 years The first part attempts to understand the text as it stands as narrative law and covenant The second surveys the work that has been done on the history and development of the text and its historicity The third is concerned with its reception and interpretation There are many detailed examples throughout and aids to study include tables and boxes in the text questions to enable students to come to grips with the issues either in private study or in class and detailed guides to further reading

**The Role of Old Testament Theology in Old Testament Interpretation** Walter Brueggemann, 2015-05-14 This collection of essays is drawn from a series of previous collections to which the author has contributed that were designed to honor senior scholars in the discipline of Old Testament study Each of these essays reflects a distinct intention depending on the nature of the original collection in which they appeared and the scholar who was being honored Taken together however this collection amounts to an articulation of Brueggemann's distinctive approach to theological interpretation of the Old Testament Already in his major volume on Old Testament theology Brueggemann proposed a dynamism of tension dispute and contradiction as the text of ancient Israel sought to give voice to the mystery of God as a sustaining and disruptive agent in the life of the world Over a long period of time this collection reflects the author's growing clarity about the task of Old Testament theology It further reflects on the nature of the biblical text and the way in which the God who inhabits the text runs beyond all of our attempts to define and explain These essays reflect not so much on methodological issues but take up the substantive questions that regularly occupied these ancient text makers

*Anthropomorphic Depictions of God* Zulfiqar Ali Shah, 2012-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths as viewed through the texts of the Hebrew Bible the New Testament and the Qur'an Throughout history Christianity and Judaism have tried to make sense of God While juxtaposing the Islamic position against this the author addresses the Judeo-Christian worldview and how each has chosen to framework its encounter with God to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and absorption of Hellenistic philosophy Shah also examines Islam's heavily anti-anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism As secularism debates whether God is dead the issue of anthropomorphism has become of immense importance The quest for God especially in this day and age is partly one of intellectual longing To Shah anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre-modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what God is and represents causing the soul to detract from a sense of the sacred and thereby belief in
