Laurence Sterne and the Argument about Design Mark Loveridge,1982-03-25 **The Fatal Gift of Beauty: The Italies of British Travellers** Manfred Pfister,2023-04-12 This is the first anthology of British travel writing on Italy which traces the development of the genre and the history of the British perception of Italy from the Renaissance to the present As an anthologie raissonn e it presents the texts in thematic clusters and chronological order providing commentary and annotations for each of them and their nearly hundred authors some of them like Smollett Byron Dickens or Huxley well known others virtually unknown amongst them many unduly neglected women writers Further features are a substantial introduction to the travelogue and the writing of Italy more than thirty illustrations visualizing the British experience of Italy and an extensive bibliography of primary and secondary sources **Stonehenge** Rosemary Hill,2012-10-08 Welcoming 800 000 visitors each year Stonehenge is the most famous pre historic monument in all of Europe It has inspired modern replicas throughout the world including one constructed entirely of discarded refrigerators This curious structure is the subject of cult worship is a source of pride for Britons and offers an intellectual challenge for academics It has captured the imagination and the attention of thousands of people for thousands of years Over the centuries experts have tried to discover the meaning behind Stonehenge While each new theory contradicts earlier speculation every new proposal attributes a purpose to the site From bards of the twelfth century to Black Sabbath from William Blake to archaeologists of the twenty first century Stonehenge has embodied a wealth of intention Was it designed for winter solstice for goddess worship or as a funerary temple While all have been suggested even proven the mystery continues Through the eyes of its most eloquent apologists Rosemary Hill guides the reader on a tour of Stonehenge in all its cultural contexts as a monument to many things to Renaissance Humanism Romantic despair Victorian enterprise and English Radicalism In the end the stones remain compelling because they remain mysterious apparently simple yet incomprehensible that is the wonder the enchantment of Stonehenge National Union Catalog ,1978 Includes entries for maps and atlases **Born Under Saturn** Rudolf Wittkower,Margot Wittkower,2006-11-28 A rare art history classic that The New York Times calls a delightful scholarly and gossipy romp through the character and conduct of artists from antiquity to the French Revolution Born Under Saturn is a classic work of scholarship written with a light and winning touch Margot and Rudolf Wittkower explore the history of the familiar idea that artistic inspiration is a form of madness a madness directly expressed in artists unhappy and eccentric lives This idea of the alienated artist the Wittkowers demonstrate comes into its own in the Renaissance as part of the new bid by

visual artists to distinguish themselves from craftsmen with whom they were then lumped together Where the skilled artisan had worked under the sign of light fingered Mercury the ambitious artist identified himself with the mysterious and brooding Saturn Alienation in effect was a rung by which artists sought to climb the social ladder As to the reputed madness of artists well some have been as mad as hatters some as tough minded as the shrewdest businessmen and many others wildly and willfully eccentric but hardly crazy What is certain is that no book presents such a splendid compendium of information about artists lives from the early Renaissance to the beginning of the Romantic era as *Born Under Saturn* The Wittkowers have read everything and have countless anecdotes to relate about artists famous and infamous about suicide celibacy wantonness weird hobbies and whatnot These make *Born Under Saturn* a comprehensive quirky and endlessly diverting resource for students of history and lovers of the arts This book is fascinating to read because of the abundant quotations which bring to life so many remarkable individuals *The New York Review of Books* **Art and Architecture Book Guide** ,1974 **The birth of modern London** ,2021-02-23 The period 1660 1720 saw the foundation of modern London The city was transformed post Fire from a tight warren of medieval timber framed buildings into a vastly expanded regularised landscape of brick houses laid out in squares and spacious streets This work for the first time examines in detail the building boom and the speculative developers who created that landscape It offers a wealth of new information on their working practices the role of craftsmen and the design thinking which led to the creation of a new prototype for English housing The book concentrates on the mass produced houses of the middling sort which saw the adoption of classicism on a large scale in this country for the first time McKellar shows however that the new city maintained a surprising degree of continuity with existing patterns of urban used and traditional architecture The book presents the late seventeenth and the early eighteenth century as a distinct phase in London s architectural development and offers a radical reinterpretations of the adoption of Renaissance styles and ideas at the level of the everyday challenging conventional interpretations of their use and reception in this country **Library of Congress Catalogs** Library of Congress,1976 **'Turquerie' and the Politics of Representation, 1728-1876** Nebahat Avcioglu,2011 Devoted explicitly to the examination of Ottoman Turkish inspired architecture in Western Europe during the eighteenth and nineteenth centuries in this study Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a rapport of heterogeneities Reclaiming turquerie as cross cultural art from the confines of the inconsequential exoticism it is often reduced to Avcioglu analyses hitherto neglected constructions and links them to notions of self representation and politics **Rudolf Wittkower e gli "itinerari" simbolici** Ivana Randazzo,2020-07-13T00:00:00+02:00 Questo volume si occupa del celebre storico dell arte Rudolf Wittkower noto soprattutto per gli studi sull arte barocca e l architettura italiana e per i lavori sul Rinascimento Michelangelo Palladio e Bernini e in particolare fa emergere come sia stato anche un importante rappresentante dell Istituto Warburg a Londra Mette in rilievo come dalla cerchia degli studiosi afferenti all Istituto e alla Biblioteca Warburg Rudolf Wittkower venne

continuamente stimolato nelle sue complesse ricerche sulla sopravvivenza dei simboli del mondo arcaico nelle epoche successive e sulla trasmigrazione delle immagini tra Oriente e Occidente La simbologia l'allegoria e i geroglifici costituiscono interessi di studio che Wittkower inizia a sviluppare già negli anni londinesi ma che non abbandonerà mai Dalle sue lezioni e dai suoi scritti viene fuori un'immagine dello storico dell'arte più vicina ai temi warburghiani di quanto non sia stato spesso sottolineato

Fenestration Practice and Theory in Early Modern Europe Hentie Louw, 2024-06-05 This book explores the transformation of the window during the Early Modern Period in Europe Following the Italian Renaissance new stylistic norms for modern classical windows had to be invented Building a new classical repertoire drew on existing traditions in fenestration as local builders throughout Europe struggled with the constraints of varying climatic conditions customs and physical resources in pursuit of a broader vision of an international classical revival With the Renaissance the architectural emphasis shifted towards secular design and as the classical revival gained momentum a quest for a cultured lifestyle commensurate with the new architecture increased demand for sophisticated fenestration systems in civil architecture The movement coincided with a period of dramatic climate change the so called Little Ice Age c 1450 c 1850 adding urgency to the campaign for transforming fenestration practice By the late seventeenth century Northern European builders had developed appropriate indigenous classical window forms for their respective societies functional products sophisticated enough to form the basis of new architectural styles northern classical traditions that rivalled and in some respects surpassed those created in Italy Their achievement was embodied in the two flagships of the movement the Franco Italian folding casement the French window and the English mechanical sliding window the sash window

From Chinese Cosmology to English Romanticism Yu Liu, 2023-04-27 A culturally sensitive and rewarding new understanding of the cross cultural interaction between China and Europe In this important new work author Yu Liu argues that confined by a narrow English and European conceptual framework scholars have so far obscured the

radical innovation and revolutionary implication of Samuel Taylor Coleridge and William Wordsworth's monistic philosophy. Liu's innovative intellectual history traces the organic westward movement of the Chinese concept of tianren heyi or humanity's unity with heaven. This monistic idea enters the European imaginary through Jesuit missionary Matteo Ricci's understanding of Chinese culture. Travels through Spinoza's identification of God with nature becomes ingrained in eighteenth-century English thought via the landscaping theory and practice of William Kent and Horace Walpole and emerges in the poetry and thought of Coleridge and Wordsworth. In addition to presenting a significantly different reading of the two English poets, Liu contributes to scholarship about English literary history, history of European philosophy and religion, English garden history, and cross-cultural interactions between China and Europe in the sixteenth, seventeenth, and eighteenth centuries.
