Jaffe, 1989 Annotation Sixteen essays examine aspects of American art that owe a debt to Italy and Italian artists A central theme is the tension between perceptions of Italy as a mythic presence the visual incarnation of spirit and a contrasting ambivalence felt by many Americans about the cultural ties binding them to Europe despite their political independence With some 200 illustrations 36 in color Not indexed Pre publication price 49 95 until 12 31 90 Annotation c 2003 Book News Inc Portland OR booknews com **Palladio and America** Christopher Weeks, 1997 The eight essays of this collection were originally published by the Centro Internazionale di Studi di Architettura Andrea Palladio and were chosen for their relevance to American Palladianism by the Center for Palladian Studies in America **George Washington's Mount Vernon** Robert F. Onuf, Nicholas P. Cole, 2011-10-19 Thomas Jefferson read Latin and Greek authors throughout his life and wrote movingly about his love of the ancient texts which he thought should be at the core of America's curriculum Yet at the same time Jefferson warned his countrymen not to look to the ancient world for modern lessons and deplored many of the ways his peers used classical authors to address contemporary questions As a result the contribution of the ancient world to the thought of America's most classically educated Founding Father remains difficult to assess This volume brings together historians of political thought with classicists and historians of art and culture to find new approaches to the difficult questions raised by America's classical heritage The essays explore the classical contribution to different aspects of Jefferson's thought and taste as well as examining the significance of the ancient world to America in a broader historical context The diverse interests and methodologies of the contributors suggest new ways of approaching one of the most prominent and contested of the traditions that helped create America's revolutionary republicanism Contributors Gordon S Wood Brown University Peter S Onuf University of Virginia Michael P Zuckert University of Notre Dame Caroline Winterer Stanford University Richard Guy Wilson University of Virginia Maurie D McInnis University of Virginia Nicholas P Cole University of Oxford Peter Thompson University of Oxford Eran Shalev Haifa University Paul A Rahe Hillsdale College Jennifer T Roberts City University of New York Graduate Center Andrew Jackson O Shaughnessy University of Virginia *The Paper Trail* Alexander Monro, 2016-03-22 A sweeping richly detailed history that tells the fascinating story of how paper the simple Chinese invention of two thousand years ago wrapped itself around our world humankind's most momentous ideas imprinted on its surface The emergence of paper in the imperial court of Han China brought about a revolution in the transmission of knowledge and ideas allowing religions philosophies and propaganda to spread with ever greater ease The first writing surface sufficiently cheap portable and printable for books pamphlets and journals to be mass produced and distributed widely paper opened the way for an unprecedented ongoing dialogue between individuals and between communities across continents oceans and time The Paper Trail explores how the new substance was used to solidify social and political systems that influenced China even into our own time We see how paper made possible the spread of the then new religions of Buddhism and Manichaeism into Japan Korea and Vietnam how it enabled theologians scientists and artists to build the vast and signally intellectual empire of the Abbasid Caliphate and embed the Koran in popular culture how paper was carried along the Silk Road by merchants and missionaries finally reaching Europe in the late thirteenth century and how once established in Europe along with the printing press paper played an essential role in the three great foundations of Western modernity the Renaissance the Reformation and the Scientific Revolution Here is a dramatic comprehensively researched vividly written story populated by holy men and scholars warriors and poets rulers and ordinary men and women an essential
