The Whole Island Mark Weiss, 2009-11-25 Cuba's cultural influence throughout the Western Hemisphere and especially in the United States has been disproportionately large for so small a country This landmark volume is the first comprehensive overview of poetry written over the past sixty years Presented in a beautiful Spanish English edition The Whole Island makes available the astonishing achievement of a wide range of Cuban poets including such well known figures as Nicolás Guillén José Lezama Lima and Nancy Morejón but also poets widely read in Spanish who remain almost unknown to the English speaking world among them Fina García Marruz José Kozer Raúl Hernández Novás and Angel Escobar and poets born since the Revolution like Rogelio Saunders Omar Pérez Alessandra Molina and Javier Marín The translations almost all of them new convey the intensity and beauty of the accompanying Spanish originals With their work deeply rooted in Cuban culture many of these poets both on and off the island have been at the center of the political and social changes of this tempestuous period The poems offered here constitute an essential source for understanding the literature and culture of Cuba its diaspora and the Caribbean at large and provide an unparalleled perspective on what it means to be Cuban
Culture as Soft Power Elisabet Carbó-Catalan, Diana Roig Sanz, 2022-09-06 This book contributes to bridge the gap between different scholarly communities interested in the entanglements of culture and politics in the international arena It sheds light on existing connections in their parallel evolution with a thorough literature review complemented by several case studies showing the fruitful character of their interdisciplinary mobilisation

Through the notions of cultural relations intellectual cooperation and cultural diplomacy the book draws on a soft power perspective to offer a shared novel and interdisciplinary theoretical framework to approach cultural institutions and organisations that have been previously examined as isolated objects for example cultural institutes international organisations literary magazines and literary contests The interdisciplinary nature of this volume justifies the relevance of its content for scholars working in the history of international relations international cultural relations and intellectual history comparative literature sociology of literature and global literary studies

The Cuban Condition Gustavo Pérez Firmat, 2006-11-02 Firmat explores the process of assimilation or transculturation in the case of Cuba and proposes a new understanding of the issue of Cuban national identity through revisionary readings dating from the early decades of the twentieth century a time of intense self reflection in the nation's history He argues that Cuban identity is translational rather than foundational and that Cuban identity emerges from a nuanced self conscious recasting of foreign models

The Repeating Island Antonio Benítez-Rojo, 1997-01-10 In this second edition of *The Repeating Island* Antonio Benítez Rojo a master of the historical novel short story and critical essay continues to confront the legacy and myths of colonialism This co winner of the 1993 MLA Katherine Singer Kovacs Prize has been expanded to include three entirely new chapters that add a Lacanian perspective and a view of the carnivalesque to an already brilliant interpretive study of Caribbean culture As he did in the first edition Benítez Rojo redefines the Caribbean by drawing on history economics sociology cultural anthropology psychoanalysis literary theory and nonlinear mathematics His point of departure is chaos theory which holds that order and disorder are not the antithesis of each other in nature but function as mutually generative phenomena Benítez Rojo argues that within the apparent disorder of the Caribbean the area's discontinuous landmasses its different colonial histories ethnic groups languages traditions and politics there emerges an island of paradoxes that repeats itself and gives shape to an unexpected and complex sociocultural archipelago Benítez Rojo illustrates this unique form of identity with powerful readings of texts by Las Casas Guillén Carpentier García Márquez Walcott Harris Buitrago and Rodríguez Juli

Uniting Blacks in a Raceless Nation Miguel Arnedo-Gómez, 2016-05-12 The Cuban writer Nicolás Guillén has traditionally been considered a poet of mestizaje a term that whilst denoting racial mixture also refers to a homogenizing nationalist discourse that proclaims the harmonious nature of Cuban identity Yet many aspects of Guillén's work enhance black Cuban and Afro-Cuban identities Miguel Arnedo Gómez explores this paradox in Guillén's pre-Cuban Revolution writings placing them alongside contemporaneous intellectual discourses that feigned adherence to the homogenizing ideology whilst upholding black interests On the basis of links with these and other 1930s Cuban discourses Arnedo Gómez shows Guillén's work to contain a message of black unity aimed at the black middle classes Furthermore against a tendency to seek a single authorial consciousness be it mulatto or based on a North American construction of blackness Guillén's prose and poetry are also characterized as a struggle for a viable identity in a socio-culturally heterogeneous society

Representations of the Moon

in Literature and Art Gabriela Gândara Terenas, 2024-10-19 This book brings together a collection of essays on the occasion of the fiftieth anniversary of the arrival of the first man on the moon a time when tourist journeys to the moon now a real possibility were no more than a fantasy Divided into four sections illustrating different perceptions of the moon the common aim of the essays in this book is to examine how mankind's interest in the moon has been represented in Literature and the Arts an objective underpinned by the desire to exploit the relationship between the so called two cultures the Humanities and Science as C P Snow perceived them in his pioneering work 1959 The plethora of ways in which our companion satellite has been portrayed has led the authors of the essays to draw upon research from the history of science as well as from literary cultural and artistic studies In addition to analysing the impact on literature and music of our arrival on the moon whether real or imaginary these studies also examine how writers along the centuries have appropriated the moon as a metaphor in order to project latent conflict criticise the society or politics of their day reflect upon scientific or technological discoveries or fantasise about journeys encounters or imaginary realities The African Presence and Influence on the Cultures of the Americas Brenda M. Moss, 2017-12-06 From notions of art for art's sake to committed poetry it may seem that poets cannot achieve reconciliation between the politics and poetry However among committed Communist poets of the 20th century of the Spanish speaking world three poets stand out as examples of a search to bring together their political and their poetic commitments Rafael Alberti Nicolás Guillén and Pablo Neruda *Political Poetry in the Wake of the Second Spanish Republic* analyzes the simultaneous development of politics and poetics in these three Spanish language poets as it was nurtured by the Second Spanish Republic 1931-1939 Beginning in these years Alberti Guillén and Neruda strove to tackle

the challenge of committing to their own independent poetic projects and to their politics at the same time Later these three poets maintained their Communist Party affiliation until their deaths and produced collection after collection of quality poetry Despite the differences in their overall poetic trajectories and projects the ability to maneuver between politics and poetry without sacrificing either one is common among them Because of their unique experiences during the time of the Second Spanish Republic in Spain each author explicitly denounced the injustices that the opposing Franquist forces had committed against the Republic After the fall of the Republic in 1939 Alberti Guill n and Neruda continued to intertwine their politics with their poems only in a less obvious manner Therefore each could solidify his position within the poetic canon while at the same time each could maintain his position as a committed or at least card carrying Communist Socialist Joy in the Writing of Langston Hughes Jonathan Scott,2006 Explores Hughes s intellectual method and its relation to social activism Examines his involvement with socialist movements of the 1920s and 1930s and contends that the goal of overthrowing white oppression produced a socialist joy expressed repeatedly in his later work in spite of the anticommunist crusades of the cold war Provided by publisher Antolog a personal Roberto Fern ndez Retamar,2007 El autor dirige desde 1965 la revista Casa de las Am ricas Su obra poes a ensayo cr tica ediciones es enorme y en todos los g neros ha alcanzado una posici n sobresaliente en la cultura latinoamericana contempor nea Ha sido traducido a casi todas las lenguas europeas y su ensayo Calib n ha dado la vuelta al mundo planteando con extraordinaria agudeza los problemas centrales de Nuestra Am rica Ha recibido numerosos premios y distinciones nacionales e internacionales y es sin duda un verdadero embajador itinerante de la cultura cubana y latinoamericana as como te rico y divulgador brillante de la perspectiva revolucionaria tercermundista En esta Antolog a personal se pone de manifiesto su poderosa originalidad el vigor de su riqueza verbal la agudeza de su talento y el despliegue de su emoci n l rica Roberto Fern ndez Retamar es una de las figuras se eras de la poes a actual en nuestra lengua **World Literature in Spanish** Maureen Ihrle,Salvador Oropesa,2011-10-20 Containing roughly 850 entries about Spanish language literature throughout the world this expansive work provides coverage of the varied countries ethnicities time periods literary movements and genres of these writings Providing a thorough introduction to Spanish language literature worldwide and across time is a tall order However World Literature in Spanish An Encyclopedia contains roughly 850 entries on both major and minor authors themes genres and topics of Spanish literature from the Middle Ages to the present day affording an amazingly comprehensive reference collection in a single work This encyclopedia describes the growing diversity within national borders the increasing interdependence among nations and the myriad impacts of Spanish literature across the globe All countries that produce literature in Spanish in Europe Africa the Americas and Asia are represented covering both canonical authors and emerging contemporary writers and trends Underrepresented writings such as texts by women writers queer and Afro Hispanic texts children s literature and works on relevant but less studied topics such as sports and nationalism also appear While writings throughout the
