Pancavimsa Brahmana:

Pancavimsa-brahmana: the brahmana of twenty five chapters, tr Panchavimsabrahmana.. English,Willem Caland, **Pancavimsa Brahmana** ,2021 [The Origins of Human Rights](#) R.U.S Prasad,2022-09-09 This book studies the history of intercultural human rights It examines the foundational elements of human rights in the East and the West and provides a comparative analysis of the independent streams of thought originating from the two different geographic spaces It traces the genesis of the idea of human rights back to ancient Indian and Greco Roman texts especially concepts such as the Rigvedic universal moral law the Upanishadic narratives the Romans model of governance the rule of law and administration of justice It also looks at Cicero s concept of rights and duties which focuses on quality of compassion and fair play and Seneca s expositions on mercy empathy justice and checks on the arbitrary exercise of power An important contribution this book fills a significant gap in the study of human rights It will be useful for students and researchers of political science ancient history religion and civilizations philosophy history human rights governance law sociology and South Asian studies The book also caters to general readers interested in the history of human rights **Veda and Torah** Barbara A. Holdrege,1996-01-01 In this book Barbara Holdrege has set a high standard for comparative work and has made an important contribution to both Hindu and Jewish studies She has looked at Veda and Torah not simply as scripture but as systems of meaning symbol systems each with its own affiliated meanings each with its symbolic context and each with its history of interpretation *River and Goddess Worship in India* R.U.S. Prasad,2017-08-09 The book examines Sarasvati s origin the course of her flow and the place of her disappearance in a holistic manner Based on a close analysis of texts from the early Rig Veda to the Brahmanas and the Puranas it discusses different view points in a balanced perspective and attempts to drive the discussions towards the emergence of a consensus view The author delineates the various phases of Sarasvati s evolution to establish her unique status and emphasise her continued relevance in the Hindu tradition The book argues that the practice of pilgrimage further evolved after its association with the river Sarasvati who was perceived as divinity personified in Hindu tradition [Founding Territorial Cults in Early Japan](#) G. Domenig,2023-12-11 The first book that deals with the territorial cults of early Japan by focusing on how such cults were founded in ownerless regions Numerous ancient Japanese myths and legends are discussed to show that the typical founding ritual was a two phase ritual that turned the territory into a horizontal microcosm complete with its own terrestrial heaven inhabited by local deities Reversing Mircea Eliade s popular thesis the author concludes that the concept of the human made horizontal microcosm is not a reflection but the source of the religious concept of the macrocosm with gods dwelling high up in the sky The open access publication of this book has been published with the support of the Swiss National Science Foundation [Vedic Index of Names and Subjects](#) Arthur Anthony Macdonell,Arthur Berriedale Keith,1912 **Selected Studies of Jan Gonda, Volume 6 Selected Studies, part 2** Gonda,2025-02-03 The print edition is available as a set of two volumes

9789004094468 *Controversial And Interesting Laws In Manu Smriti - Part 2* London Swaminathan,2023-04-25 This is the second part of my views a sort of commentary on the controversial Manu Smriti No one has the authority to criticize or appreciate it unless one reads it in full But politicians show them as half baked fellows when they make comments without reading it in full This second part has more interesting tit bits from the smriti Luzac & Co.'s Oriental List ,1904 The Vedic Tradition: Cosmos, Connections & Consciousness Subhash Kak,2025-04-01 This book is a compilation of essays exploring various aspects of the Vedic tradition including the interpretation of Vedic hymns the significance of divinities and their actions ritual and meaning as well as art and temple architecture It delves into the historical dimensions of the tradition tracing its roots through astronomy the archaeological record and the spread of Indic ideas beyond the Himalayas and across the seas to Central Asia Europe and Southeast Asia The book also examines the connections between the inner and outer worlds using these insights to explain the nature of the mind in Vedanta and the design of the r Cakra The enduring relevance of these ideas is underscored especially as consciousness is now recognized as the final frontier of science

Dictionary of Vedanta Samir Nath,2002 IVY **Luzac's Oriental List and Book Review** ,1904 The Mahabharata, Volume 1 J. A. B. van Buitenen,James L. Fitzgerald,1973 Sanskrit classical epic translated into English Vedic Index of Names and Subjects Arthur Anthony Macdonell,Arthur Berriedale Keith,1995-01-01 **The Rig-Vedic and Post-Rig-Vedic Polity (1500 BCE-500 BCE)** R.U.S. Prasad,2020-10-06 The book critically examines and assesses the literary evidence available through Vedic and allied literature portraying the nature of Vedic polity the functionalities of its various institutions and the various social and religious practices The book is not a narrative but critically examines the nature of changes in a host of these areas that occurred at each stage of Vedic polity from early Vedic period to post ig Vedic period It outlines in historical perspective the various stages involved in the development of Vedic polity and Vedic canon and how the two processes have gone along together It contains extensive discussions on political system and institutions religious and social practices as they obtained during the Rig Vedic and post Rig Vedic periods It provides a fresh approach to the cult of sacrifice and fire rituals practiced by Vedic Aryans along with an in depth analysis of the Vedic view of Nationalism Sovereignty and State as discernible from Vedic texts The book also features an extensive discussion on the institution of kingship administrative machinery role of various entities in the polity including the Purohita the Sabha and the Samiti position of women Varna system and features of tribal kingdoms such as the Kuru Panchalas and Kosala Videhas Isolating political and social aspects from the essentially religious character of Vedic literature an attempt has been made to show with due corroboration that the tribal polity was not deficient in political content contrary to the stance of some scholars to depict Vedic Aryans as apolitical and inward looking The present book partakes both the current and previous scholarship on the subject but breaks a new path with its exclusive focus on the Rig Vedic and Post Rig Vedic polity together with a balanced and objective assessment of their features It brings all the relevant and connected issues on to one platform and deals with

them in a holistic manner Its unique features include The Vedic Grid a graphical representation and tabulations of the characteristics of each of the about 50 Vedic tribes including information on the location of their habitat their time line the names of their chieftains and their linkage with priestly clans A special focus on the Second Urbanization taking place in the Gangetic valley between the 6th and 4th centuries BCE It explains how towards the end of the later Vedic period the polity underwent a change in political social and economic spheres which blossomed later during the period of Mauryas Two appendices dealing with the theories of Aryan migration and the relationship of the Vedic Aryans with the Harappa culture and what can be ascertained by Vedic literature *The Myths of Narasimha and Vamana* Deborah A. Soifer,1991-11-08 The Sanskrit Puranas and epics are replete with stories of the avatars incarnations of the god Visnu in various forms to rid the universe of malevolent forces and to restore the proper cosmic balance As Narasimha half man half lion Visnu finds a loophole in the pact of invulnerability the demon Hiranaipu has received from god Brahma and rends the demon apart with his claws As the brahmin dwarf Vamana Visnu deceives the demon Bali with his diminutive appearance and thwarts Bali s attempt to gain universal sovereignty After carefully analyzing the myths of Vamana and Narasimha Deborah Soifer grounds her study in the textual history of each avatar and its myth in their religious contexts and in the intricate cosmology of the classical period of Hinduism Contrasting the bestial persona of Narasimha with Vamana s priestly appearance and his associations with early cosmologic themes she finds complementarity and significance in this pair as they are viewed in the larger context of periodic cosmic destructions and recreations While focusing primarily on these two mythological figures Soifer s work explores the relationship between dharma and the devious acts of gods the interplay between cosmic and sociocosmic levels of reality and the relationship between cosmology theology and soteriology in a religious worldview

Classical Hindu Thought Arvind Sharma,2000 Introduces the texts and ideas of Hinduism crystallized during the 4th to the 10th century BCE This book explains their contemporary relevance and deals with the key concepts the main gods and goddesses and texts such as the Purusarthas It also examines the different systems of yoga **Problems and Perspectives in Religious Discourse** John A. Grimes,1994-01-01 Religious discourse uses ordinary language in an extraordinary way This book surveys Western and Indian discussions of the nature and aspects of religious discourse It presents the first cross cultural elucidation of Advaita Ved nta as religious discourse **The Spectrum of Consciousness** Ken Wilber,2012-12-19 Wilber s groundbreaking synthesis of religion philosophy physics and psychology started a revolution in transpersonal psychology He was the first to suggest in a systematic way that the great psychological systems of the West could be integrated with the noble contemplative traditions of the East Spectrum of Consciousness first released by Quest in 1977 has been the prominent reference point for all subsequent attempts at integrating psychology and spirituality
