Diversity and Self-Determination in International Law Karen Knop, 2002-04-18 The emergence of new states and independence movements after the Cold War has intensified the long standing disagreement among international lawyers over the right of self determination especially the right of secession Knop shifts the discussion from the articulation of the right to its interpretation She argues that the practice of interpretation involves and illuminates a problem of diversity raised by the exclusion of many of the groups that self determination most affects Distinguishing different types of exclusion and the relationships between them reveals the deep structures biases and stakes in the decisions and scholarship on self determination Knop's analysis also reveals that the leading cases have grappled with these embedded inequalities Challenges by colonies ethnic nations indigenous peoples women and others to the gender and cultural biases of international law emerge as integral to the interpretation of self determination historically as do attempts by judges and other institutional interpreters to meet these challenges

Ethnic Politics Milton J. Esman, 2018-10-18 In this timely book Milton J Esman surveys a recurrent and seemingly intractable factor in the politics of nations ethnicity As the author notes virtually no contemporary nation state is ethnically homogeneous Most address the

political effects of domestic ethnic difference and many fail in the attempt with devastatingly violent results Esman focuses on ethnic mobilization and the management of conflict on the ways ethnic groups prepare for political combat and on measures that can moderate or control ethnic disputes whether peaceful or violent Opening with a broad synopsis of current understandings of ethnicity and its varying political salience he illustrates his theories by analyzing experiences in South Africa Israel Palestine Canada Quebec and Malaysia He also outlines the political issues and dilemmas transnational as well as domestic caused by the vast labor migrations of Mexicans to the United States North Africans to France Turks to Germany and Koreans to Japan Can economic growth and prosperity ease ethnic conflicts Esman addresses this question and draws conclusions based on the empirical chapters In his view ethnic pluralism and ethnic politics are not collective psychoses or aberrations to be deplored and exorcised but rather pervasive realities that observers can confront and politicians can manage

The International Spread of Ethnic Conflict David A. Lake, Donald Rothchild, 2020-10-06 The wave of ethnic conflict that has recently swept across parts of Eastern Europe the former Soviet Union and Africa has led many political observers to fear that these conflicts are contagious Initial outbreaks in such places as Bosnia Chechnya and Rwanda if not contained appear capable of setting off epidemics of catastrophic proportions In this volume David Lake and Donald Rothchild have organized an ambitious sophisticated exploration of both the origins and spread of ethnic conflict one that will be useful to policymakers and theorists alike The editors and contributors argue that ethnic conflict is not caused directly by intergroup differences or centuries old feuds and that the collapse of the Soviet Union did not simply uncork ethnic passions long suppressed They look instead at how anxieties over security competition for resources breakdown in communication with the government and the inability to make enduring commitments lead ethnic groups into conflict and they consider the strategic interactions that underlie ethnic conflict and its effective management How why and when do ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties How can such transnational ethnic conflicts best be managed Following an introduction by the editors which lays a strong theoretical foundation for approaching these questions Timur Kuran Stuart Hill Donald Rothchild Colin Cameron Will H Moore and David R Davis examine the diffusion of ideas across national borders and ethnic alliances Without disputing that conflict can spread James D Fearon Stephen M Saideman Sandra Halperin and Paula Garb argue that ethnic conflict today is primarily a local phenomenon and that it is breaking out in many places simultaneously for similar but largely independent reasons Stephen D Krasner Daniel T Froats Cynthia S Kaplan Edmond J Keller Bruce W Jentleson and I William Zartman focus on the management of transnational ethnic conflicts and emphasize the importance of domestic confidence building measures international intervention and preventive diplomacy

The Trickle-Down Delusion John Seip, Dee Wood Harper, 2016-05-02
From inside the book Since 1980 the economy has been growing and productivity has been growing but trickle down values that we the American people promote pursuant to the Republican Party's conservative ideology have rigged the economy to continuously upwardly redistribute those revenues attributable to our increased productivity yielding a productivity wage disconnect resulting in increased concentration of income and wealth at the top in corporations and among older Americans beneficiaries of income from Social Security pensions and investments and continuing income due to delaying retirement and the lowest percentage of GDP attributable to wages and highest attributable to profits since World War II But trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law The result has been that the trickle down policies promoted by the Republican Party are undermining our economy democracy institutions and health For further discussion contact author at johnjseip@gmail.com

The Bosnian Muslims Francine Friedman, 2018-10-08 Although their plight now dominates television news worldwide the Bosnian Muslims were until recently virtually unknown outside of Yugoslavia This meticulously researched comprehensive book traces the turbulent history of the Bosnian Muslims and shows how their mixed secular and religious identity has shaped the conflict in which they are now so tragically embroiled Although their plight now dominates television news worldwide the Bosnian Muslims were until recently virtually unknown outside of Yugoslavia Who are these people Why are they the focus of their former neighbors' rage What role did they play in Yugoslavia before they became the victims of ethnic cleansing Why has Bosnia Hercegovina once a model of ethnic tolerance and multicultural harmony suddenly exploded into ethnic violence Focusing on these questions Friedman provides a comprehensive study of this national group whose plight has riveted governments the press and the public alike With a name reflecting both their religious and their national identity the Bosnian Muslims are unique in Europe as indigenous Slavic Muslims Descendants of schismatic Christians from the Middle Ages they converted to Islam after the Ottoman conquest of Bosnia The book follows them as they went from victims of crusades during

the Middle Ages to members of the ruling elite within the Ottoman Empire from rulers back to subjects under Austria Hungary and later subjects again this time under the Serbs in the interwar Yugoslav Kingdom and the Communists after World War II The Bosnian Muslims have survived through it all even thriving during certain periods most notably when they were recognized by Tito as a nation Meticulously tracing their turbulent history and assessing the issues surrounding Bosnian Muslim nationhood in Yugoslavia Friedman shows us how the mixed secular and religious identity of the Bosnian Muslims has shaped the conflict in which they are now so tragically embroiled

Re-Defining Legitimate Statehood Obiora Chinedu Okafor, 2000-01-26 I The research problem

Radical Ethnic Movements in Contemporary Europe Stefan Troebst, Farimah Daftary, 2004-11-01 Nation states and minorities resort more and more to violence when safeguarding their political interests Although the violence in the Middle East has been dominating world politics for some time now European governments have had their share of ethnic violence to contend with as this volume demonstrates And as the case studies show ranging as they do from the Basque Country to Chechnya from Northern Ireland to Bosnia Herzegovina this applies to western Europe as much as to eastern Europe However in contrast to other parts of the world instances where political struggles for power and social inclusion between minorities and majorities lead to full fledged inter ethnic warfare are still the exception in the majority of cases conflicts are successfully de escalated and even resolved In a comprehensive conclusion the volume offers a theoretical framework for the development of strategies to deal with violent ethnic conflict

Minorities' Claims: From Autonomy to Secession

Gnanapala Welhengama, 2017-11-30 This title was first published in 2000 An investigation of how the claims of minority groups for greater political power through autonomy and secession clash with the concerns of the nation State and how States refusals to respond positively to such claims contribute to the escalation of ethnic conflicts in contemporary multi ethnic polities In addition this book examines the extent to which the international community is prepared to accommodate the concerns of minority groups beyond traditionally identified minority rights The validity of claims for autonomy with

shared sovereignty autonomy as an inherent part of self determination autonomy as a solution to current ethnic conflicts secessionist and irredentist movements and their impact on peace and security are analyzed in detail Most importantly whether minorities as such can secede from the State in which they live by virtue of self determination is critically analyzed The discussion of peoples in the context of self determination is the first detailed research on this subject to appear in international and human rights literature

Europe and Ethnicity Seamus Dunn,T.G. Fraser,2005-08-04 The 1990s have seen an upsurge in ethnic tensions in many parts of Europe Europe and Ethnicity suggests the main reasons are to be found in the decisions taken during the first world and at Versailles An introductory chapter analyzes the context of the war with particular reference to regions and states where the national and ethnic questions were particularly complex and intransigent Subsequent chapters present case studies from arenas of conflict Ireland to Yugoslavia the Middle East to the Baltic states Austria Hungary and Czechoslovakia Europe and Ethnicity confirms the mixed legacy of the period for the ethnic stability of the areas examined while taking into account the impact of the Second World War and the ending of the Cold War

Failed Imagination? Andrew Williams,2013-01-18 The main purpose of this book is to explain how mainly American but also British and other Western policy makers have planned and largely managed to create an international order in their own image the so called New World Order It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty first centuries It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order one that both reflects the American national interest but also can be said to have established the major security economic organisational and normative pillars of our epoch In addition it provides excellent background reading for the current debate about American foreign policy and the origins of neo conservatism in international relations This edition updates a very successful first edition of the title with additional material to take into account changes in the global order since 2001 and the beginning of the War on Terror

Religion in International Relations F. Petito,P. Hatzopoulos,2003-06-13 Are the secular foundations of international relations sustainable at present This comprehensive study shows how the global resurgence of religion confronts international relations theory with a theoretical challenge comparable to that raised by the end of the Cold War or the emergence of globalization The volume tries to shake the secular foundational myths of the discipline and outline the need for an expansion into religiously inspired spheres of thought It also challenges the most condemning accusation against religion the view that the politicization of religion is always a threat to security and inimical to the resolution of conflict Finally the task of demystifying religion is taken further with an argument for a stronger and progressive political engagement of the worldwide religious traditions in the contemporary globalized era
