Pandoras Box Corporate Power Free Trade And Canadian Education:

Pandora's Box John Calvert, 1993-01-01 This book is about free trade and its impact on education in Canada and the rapidly growing influence of business in the restructuring of the Canadian educational system The authors analyze the powerful economic political and social forces set in motion by free trade document the profound educational changes resulting from the Canada U S Free Trade Agreement and predict the consequences of the then as yet incomplete North American Free Trade Agreement They enumerate free trade s threats to Canada s public education system First published in 1993 Pandora s Box is an immediate report on the relation between public education and corporate globalization An Our Schools Our Selves book Globalisation, Trade Liberalisation, and Higher Education in North America C.W. Barrow, S. Didou-Aupetit, J. Mallea, 2012-12-06 Since the mid 1970s economic and educational developments in Canada Mexico and the USA have been influenced by two parallel trends 1 the resurgence of global economic competition and 2 the active promotion of knowledge intensive service based economies Both trends have been reinforced by the liberalisation of international trade under the rubric of the General Agreement on Tariffs and Trade GATT and the World Trade Organisation WTO The North American Free Trade Agreement NAFTA has accelerated these trends in all three countries by providing the framework for an integrated regional economy in North America designed to compete against comparable trading blocs centred in Japan and the European Union The purpose of this study is to examine the developing relationship between trade liberalisation post industrialisation and higher education in Canada Mexico and the USA The larger trends and linkages that we identify are by no means confined to these three countries We have chosen to focus on Canada Mexico and the USA because the adoption of the North American Free Trade Agreement has accelerated the development of economic policies in these countries which identify higher education as a central component of each country s new competitiveness strategy As a consequence government policy makers and higher education decision makers are responding with targeted initiatives to promote the internationalisation of higher education generally and to promote trilateral co operation among North American higher education institutions specifically **States Against Markets** Robert Boyer, Daniel Drache, 2005-08-15 This work challenges the popular view that globalization threatens the role of the nation state in determining national policy It examines the fundamental issue of competitiveness and market power in an increasingly borderless and co dependent world Despite this increased threat to the nation state as an effective manager of the national economy the authors argue that there are a number of options and alternatives open to governments to protect themselves from the global business cycle *The Impact of NAFTA on the Public Sector* United States. Congress. House. Committee on Government Operations. Legislation and National Security Subcommittee, 1994 **Extending Educational Change** Andy Hargreaves, 2007-12-12 ANDY HARGREAVES Department of Teacher Education Curriculum and Instruction Lynch School of Education Boston College MA U S A ANN LIEBERMAN Carnegie Foundation for the Advancement of Teaching Stanford CA U S A MICHAEL FULLAN

Lieberman,M. Fullan,D.W. Hopkins,2014-11-14 The International Handbook of Educational Change is a state of the art collection of the most important ideas and evidence of educational change The book brings together some of the most influential thinkers and writers on educational change It deals with issues like educational innovation reform restructuring culture building inspection school review and change management It asks why some people resist change and what their resistance means It looks at how men and women older teachers and younger teachers experience change differently It looks at the positive aspects of change but does not hesitate to raise uncomfortable questions about many aspects of educational change either It looks critically and controversially at the social economic cultural and political forces that are driving educational change School leaders system administration teacher leaders consultants facilitators educational researchers staff developers and change agents of all kinds will find this book an indispensable resource for guiding them to both classic and cutting edge understandings of educational change no other work provides as comprehensive coverage of the field of educational change *The Corporate Campus* James Turk,Canadian Association of University Teachers,2000 Preface INTRODUCTION What Commercialization Means for Education James L Turk PART I WHAT IS AT STAKE What is at Stake Universities in Context Ursula Franklin Academic Freedom or C **The Politics of Educational Reform in Alberta** Alison Taylor,2001-01-01 A case study of educational restructuring in Alberta during the Klein revolution the period of dramatic political and economic change introduced by Premier Ralph Klein s Conservative government of the 1990s *New Contexts of Canadian Criticism* Ajay Heble,Donna Palmateer Pennee,J.R.
