DARE to Say No Max Felker-Kantor,2024-02-14 With its signature DARE to keep kids off drugs slogan and iconic t shirts DARE Drug Abuse Resistance Education was the most popular drug education program of the 1980s and 1990s But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing Max Felker Kantor has assembled the first history of DARE which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district By the mid 90s it was taught in 75 percent of school districts across the United States DARE received near universal praise from parents educators police officers and politicians and left an indelible stamp on many millennial memories But the program had more nefarious ends and Felker Kantor complicates simplistic narratives of the War on Drugs He shows how policing entered US schools and framed drug use as the result of personal responsibility moral failure and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment the abandonment of social service provisions and structures of social and economic inequality

 Study **Brain, Decision Making and Mental Health** Nima Rezaei,2023-01-01 Brain Decision Making and Mental Health
 acknowledges that thinking is not a constant phenomenon but varies considerably across cultures Critical thinking is
 particularly important in bridging thinking divisions and its applicability across sciences particularly medical sciences We see
 critical thinking as educable and the arts as means to achieve this purpose We address the multidimensional relationship
 between thinking and health and related mechanisms Thinking mainly affects emotion regulation and executive function in
 other words both mental and physical health are related as a function of thoughts Considering the thinking feeling emotion
 regulation executive function pathway it would be reasonable to propose thinking capacities based interventions to impact
 emotion regulation and executive function such as mindfulness and psychotherapy We review decision making taking place in
 integrated and social contexts and discuss the decision making styles decision outcomes relation Finally artificial thinking
 and intelligence prepare us for decision making outside the human mind *Ideal Power* ,1907 **Record of the Great
 Council of the United States of the Improved Order of Red Men** Improved Order of Red Men. Great Council of the
 United States,1902 *Broadcast Hysteria* A. Brad Schwartz,2025-09-23 On the evening of October 30 1938 radio listeners
 across the United States heard a startling report of a meteor strike in the New Jersey countryside With sirens blaring in the

background announcers in the field described mysterious creatures terrifying war machines and thick clouds of poison gas moving toward New York City As the invading force approached Manhattan some listeners sat transfixed while others ran to alert neighbors or to call the police Some even fled their homes But the hair raising broadcast was not a real news bulletin it was Orson Welles s adaptation of the H G Wells classic The War of the Worlds In Broadcast Hysteria A Brad Schwartz boldly retells the story of Welles s famed radio play and its impact Did it really spawn a wave of mass hysteria as The New York Times reported Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast and his findings challenge the conventional wisdom Few listeners believed an actual attack was under way But even so Schwartz shows that Welles s broadcast became a major scandal prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country s vulnerability in a time of crisis When the debate was over American broadcasting had changed for good but not for the better As Schwartz tells this story we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the first time We follow Orson Welles s rise to fame and watch his manic energy and artistic genius at work in the play s hurried yet innovative production And we trace the present day popularity of fake news back to its source in Welles s show and its many imitators Schwartz s original research gifted storytelling and thoughtful analysis make Broadcast Hysteria a groundbreaking new look at a crucial but little understood episode in American history
