Pantaloon Power Nineteenth Century Y:

Pantaloon & Power Gayle V. Fischer, 2001 Clothing is often an indication of an individual's status and gender. By the early nineteenth century, clear definitions had developed regarding how American women and men were supposed to appear in public and how they were meant to lead their lives. As men's style of dress moved from the ornate to the moderate, women's fashions continued to be decorative and physically restrictive. This visible separation of the sexes was paralleled in other arenas: social, cultural, and religious. Some women defied this convention and cut their skirts short, abandoned their corsets, and put on trousers. In *Pantaloon and Power*, Gayle V. Fisher shows how the reformers' denouncement of conventional dress highlighted the role of clothing in the struggle of power relations between the sexes. [Gender and Pentecostal Revivalism](#)

Leah Payne, 2015-02-11 This innovative volume provides an interdisciplinary, theoretically innovative answer to an enduring question for Pentecostal charismatic Christianities: how do women lead churches? This study fills this lacuna by examining the leadership and legacy of two architects of the Pentecostal movement: Maria Woodworth Etter and Aimee Semple McPherson.

[Gender in American Literature and Culture](#) Jean M. Lutes, Jennifer Travis, 2021-04-15 *Gender in American Literature and Culture* introduces readers to key developments in gender studies and American literary criticism. It offers nuanced readings of literary conventions and genres from early American writings to the present and moves beyond inflexible categories of masculinity and femininity that have reinforced misleading assumptions about public and private spaces, domesticity, individualism, and community. The book also demonstrates how rigid inscriptions of gender have perpetuated a legacy of violence and exclusion in the United States. Responding to a sense of 21st-century cultural and political crisis, it illuminates the literary histories and cultural imaginaries that have set the stage for urgent contemporary debates. **The Dialects of**

Spanish Travis D. Sorenson, 2021-04-08 Spanish is one of the most widely spoken languages in the world, and there is extensive lexical variation between its numerous dialects. This book, the first of its kind, focuses uniquely on the origin, diversity, and geographic distribution of portions of the lexicon. The hundreds of words analysed, related to food, clothing, vehicles, and certain miscellaneous items, provide a representative study not only of the many etymological routes by which they have entered the Spanish language over time, but of the considerable diatopic variety which they display across the different Spanish-speaking nations and regions. Representative maps are provided to illustrate several instances of these astounding dialectal differences. This variation is also discussed in terms of its evident link to the historical developments of Spanish. Providing a compelling overview of lexical variety in the Spanish-speaking world, this book will interest anyone who wants to delve into the richness of this fascinating language. **Latina Histories and Cultures** Montse Feu, Yolanda Padilla, 2023-04-30 This collection of academic essays introduces new research on Latina histories and cultures from the mid-nineteenth century to 1980. Examining a wide range of source materials, including personal and institutional archives, literature, and oral history, the authors of the fifteen articles use transnational approaches and Latina feminist theory to

remind us of a principle that is still too often forgotten that sex and gender should be centered as crucial problematics in the study of the long history of Latina o x literature and culture Applying an intersectional methodology that analyzes gender in relation to numerous identities race class sexuality language and nationality the scholars explore diverse subjects such as the literary work of historical Latina authors Maria Amparo Ruiz de Burton and Maria Cristina Mena the travails of Basque women in the United States in the nineteenth and twentieth centuries and Chicana activism in Wyoming in the 1970s and 1980s The book is divided into four sections Feminist Readings of Latina Authors Gender Politics and Power in the Spanish Language Press Radical Latinas Politics and Reclaiming Community Reclaiming Knowledge In their introduction editors Montse Feu and Yolanda Padilla map significant elements in the practice of Latina feminist recovery and suggest the importance of using queer studies frameworks and speculative approaches to archives in order to amplify queer Afro Latina o and indigenous voices Published as part of the Recovering the US Hispanic Literary Heritage Series Latina Histories and Cultures continues the efforts to rescue the written legacy of the Hispanic population in what has become the United States and will be required reading for academics and students in a variety of disciplines **Bodies in Crisis** Barbara

Sutton,2010-02-18 Born and raised in Argentina and still maintaining significant ties to the area Barbara Sutton examines the complex and often hidden bodily worlds of diverse women in that country during a period of profound social upheaval Based primarily on women s experiential narratives and set against the backdrop of a severe economic crisis and intensified social movement activism post 2001 Bodies in Crisis illuminates how multiple forms of injustice converge in and are contested through women s bodies Sutton reveals the bodily scars of neoliberal globalization women s negotiation of cultural norms of femininity and beauty experiences with clandestine illegal and unsafe abortions exposure to and resistance against interpersonal and structural violence and the role of bodies as tools and vehicles of political action Through the lens of women s body consciousness in a Global South country and drawing on multifaceted stories and a politically embedded approach Bodies in Crisis suggests that social policy economic systems cultural ideologies and political resistance are ultimately fleshly matters "A Strange Sort of Being" Bambi L.
