Animality in Contemporary Italian Philosophy Felice Cimatti, Carlo Salzani, 2020-09-03 This volume provides an overview of contemporary Italian philosophy from the perspective of animality Its rationale rests on two main premises the great topicality of both Italian contemporary philosophy the so called Italian Theory and of the animal question the so called animal turn in the humanities and the social sciences in the contemporary philosophical panorama The volume not only intersects these two axes illuminating Italian Theory through the animal question but also proposes an original thesis that the animal question is a central and founding issue of contemporary Italian philosophy It combines historical descriptive chapters with analyses of the theme in several philosophical branches such as biopolitics Posthumanism Marxism Feminism Antispeciesism and Theology and with original contributions by renowned authors of contemporary Italian animal philosophy The volume is both historical descriptive and speculative and is intended for a broad academic audience embracing both Italian studies and Animal studies at all levels **Paola Pivi** Savannah College of Art and Design, 2018 **Mimetic Posthumanism**

, 2024-10-21 It is tempting to affirm that on and about November 2022 post human character changed The revolution in AI simulations certainly calls for an update of the ancient realization that humans are imitative animals or homo mimeticus But the mimetic turn in posthuman studies is not limited to AI from simulation to identification affective contagion to viral mimesis robotics to hypermimesis the essays collected in this volume articulate the multiple facets of homo mimeticus 20 Challenging rationalist accounts of autonomous originality internal to the history of Homo sapiens this volume argues from

different artistic philosophical technological perspectives that the all too human tendency to imitate is paradoxically central to our ongoing process of becoming posthuman
