Papal Power A Study Of Vatican Control Over Lay Catholic Elites

William Bruce Johnson

Papal Power A Study Of Vatican Control Over Lay Catholic Elites:

Papal Power Jean-Guy Vaillancourt, 1980 **The Frontiers of Catholicism** Gene Burns, 1994-08-17 Why does the Catholic Church take a politically conservative stance on some issues such as abortion and birth control while on others such as social programs and nuclear policy it resembles the left Why do some Catholic groups reject the legitimacy of Church hierarchy and yet choose to remain within its fold To explain these apparent contradictions Gene Burns examines the origins of contemporary diversity and conflict in the Catholic Church as well as the processes of ideological change With valuable insights into the American Catholic Church the modern papacy and the Latin American Church **The Frontiers of Catholicism** is as much a political study of ideological dynamics as it is an institutional study of religious change **The Vatican and Catholic Activism in Mexico and Chile** Stephen J. C. Andes, 2014 A religious and political history of transnational Catholic activism in Latin America during the 1920s and 1930s Italy's Christian Democracy Rosario Forlenza, Bjørn Thomassen, 2024 Italy's Christian Democracy the first comprehensive study of Italian Christian Democracy in English unravels the encounter between Catholicism and democracy from pre unification Italy in the eighteenth century to the near present Amid the triumphant emergence of the Christian Democratic political party that ruled Italy from 1948 to 1994 Forlenza Thomassen demonstrate how the Catholic embrace of political modernity and democracy emerged as a political spirituality and a historically significant alternative to the reigning political ideologies of the time fascism socialism liberalism and conservatism With a focus on critical moment of modern Italian history the Enlightenment and French Revolution the Risorgimento World War I the fascist period World War II the post war Republic the authors demonstrate the often dramatic ways in which Catholic thinkers from laymen to priests and bishops sought to interpret and direct democratic thought and practice in line with Catholic ethics The Pontiff in Winter John Cornwell, 2007-12-18 Over more than a quarter of a century John Paul II has firmly set his stamp on the billion member strong Catholic Church for future generations and he has become one of the most influential political figures in the world His key role in the downfall of communism in Europe as well as his apologies for the Catholic Church's treatment of Jews and to victims of the Inquisition racism and religious wars won him worldwide admiration Yet his papacy has also been marked by what many perceive as misogyny homophobia and ecclesiastical tyranny Some critics suggest that his perpetuation of the Church's traditional hierarchical paternalism contributed to pedophilic behavior in the priesthood and encouraged superiors to sweep the crimes under the carpet **The Pontiff in Winter** brings John Paul's complex contradictory character into sharp focus In a bold highly original work John Cornwell argues that John Paul's mystical view of history and conviction that his mission has been divinely established are central to understanding his pontificate Focusing on the period from the eve of the millennium to the present Cornwell shows how John Paul's increasing sense of providential rightness profoundly influenced his reactions to turbulence in the secular world and within the Church including the 9 11 attacks the pedophilia scandals in the United States the clash between Islam

and Christianity the ongoing debates over the Church's policies regarding women homosexuals abortion AIDS and other social issues and much more A close trusted observer of the Vatican Cornwell combines eyewitness reporting with information from the best sources in and outside the pope's inner circle Always respectful of John Paul's prodigious spirit and unrelenting battles for human rights and religious freedom Cornwell raises serious questions about a system that grants lifetime power to an individual vulnerable to the vicissitudes of aging and illness The result is a moving elegiac portrait of John Paul in the winter of his life and a thoughtful incisive assessment of his legacy to the Church **Crusade Or**

Conspiracy? Catholics and the Anti-Communist Struggle in Australia Bruce Duncan, 2001 Bitterness over the 1950s split between Catholics and anti Communists has never gone away The importance of this book in defining Labor politics for the last 50 years is crucial and all those interested in either Labor history or history of organised religion in Australia will find it useful A Theology of the Church for the Third Millennium Kenan Osborne, 2009-11-01 At the beginning of the new millennium the Christian Churches are in a process of renewal The Roman Catholic Church since Vatican II has been in a major stage of renewal Contemporary globalization multi cultural interrelationships and inter religious dialogues have presented serious challenges to these renewal efforts In this volume I want to offer to the Catholic Renewal and from there to other denominational renewals a view of the church from the rich tradition of Franciscan philosophy and theology To date there are only a few books which include small essays on this theme This volume presents an in depth Franciscan approach to ecclesiology Promised Land Madeleine Cousineau Adriance, 1995-08-23 Using information gathered from more than one hundred interviews with farmers activists and church people in northern Brazil the author shows how the present conflicts over land in the Amazon as well as the destruction of the rainforest are rooted in specific policies of the Military Government that ruled Brazil from 1964 to 1985 and how the effects of those policies continue to be felt Presented here are six present day case studies that not only give evidence of the direct links between peasant farmers participation in grassroots church groups and their activism for land reform but also through rich local detail and quotes from the interviews give a human face to sociological data **Wolves Within the Fold** Anson D. Shupe, 1998 Wolves within the Fold is the first collection of new articles dealing with abuse of authority by religious leaders and the victimization of their parishioners The power of religion as a symbolic salvation promising enterprise resides in its authority to create and shape reality for believers and command their obedience This power can inspire tremendous acts of human kindness charity compassion and hope But witch hunts inquisitions crusades and pogroms show us how religious authority can be used for far darker purposes This abuse of power by religious authorities at the expense of their followers is termed clergy malfeasance by editor Anson Shupe and examined by the contributors to Wolves within the Fold The essays provide an innovative examination of behavior that is sometimes illegal and always unethical sometimes punished but often not Topics range from a cultural study of Aum Shinrikyo the Japanese apocalyptic group now infamous for releasing lethal gas into the Tokyo subway system to a

sociological analysis of financial scandals among evangelical religious groups Groups analyzed include the Roman Catholic Church Protestant denominations televangelists and the Hare Krishnas

An Introduction to International Relations and Religion Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics

Religion, Politics and International Relations Jeff Haynes, 2011-04-07 A leading authority in the discipline Jeffrey Haynes has contributed to many of the most significant debates in the fields of religion politics and religion international relations in the last twenty years This book brings together many of his most influential essays offering a comprehensive analysis of religious actors and their political goals In recent years scholars have identified a range of religious actors with a variety of political goals The aim of this collection is to identify and examine political activities of selected religious actors in both domestic and international contexts The introductory chapter sets the scene for the collection providing a clear understanding of why how and when religious actors act politically both within and between countries Over the course of 15 essays Jeffrey Haynes presents a survey of the interaction of religion and politics both domestically and internationally in relation to a variety of issues and draws the findings together in a new conclusion written for the volume This work will be of great interest to the growing number of scholars and students and practitioners internationally who work on religion and politics in both domestic and international contexts

Modern Italy's Founding Fathers Steven F. White, 2020-05-28 Modern Italy's Founding Fathers offers a fresh perspective on the genesis of the Italian republic as viewed through the efforts of its three most influential leaders Christian Democrat Alcide De Gasperi Socialist Pietro Nenni and Communist Palmiro Togliatti In concise accessible prose this work demonstrates how De Gasperi the Republic's inaugural prime minister from 1945 to 1953 and his fellow statesmen's shared experience of Fascist oppression belief in popular sovereignty and ability to compromise despite deep ideological differences enabled the creation of Italy's post war republic This path breaking collective biography traces the genesis of the Italian republic commencing with the overthrow of Mussolini in 1943 and concluding with the death of De Gasperi in 1954 Drawing on the speeches writings and

personal papers of the three protagonists on Italian and U S archives on contemporary memoirs and on secondary scholarship Steven F White demonstrates how these leaders forged political practices and customs which continue to define Italian parliamentary life to the present day Examining the interplay of personalities leadership styles ideas and political context this study is a vital text for any student of modern Italy and more broadly of Cold War Europe *Word and Image in Arthurian Literature* Keith Busby,2014-08-13 Originally published in 1996 the articles in this book are revised expanded papers from a session at the 17th International Congress of the Arthurian Society held in 1993 The chapters cover Arthurian studies directions at the time showcasing analysis of varied aspects of visual representation and relation to literary themes Close attention to the historical context is a key feature of this work investigating the linkage between texts and images in the Middle Ages and beyond *History and Polemics in the French Reformation* Barbara Sher Tinsley,1992 Raemond s significance in European historiography a study that is attracting renewed attention among scholars is explored by comparing his views with those of other historians and public figures of his century both Protestant and Catholic The first three chapters deal with Raemond s life and literary associations the fourth with his expose of Pope Joan Next follows a consideration of his book on the Antichrist which together with the chapter on Joan offers a survey of many centuries of information and misinformation concerning church history especially the nature of papal primacy apostolic purity and the apocalyptic fears of a variety of writers and theologians These included Luther Calvin Melanchthon and John Bale who thought that the pope or the Turk was the Beast of the Book of Daniel **Miracles and Sacrilege** William Bruce Johnson,2008-01-05 Miracles and Sacrilege is the story of the epochal conflict between censorship and freedom in film recounted through an in depth analysis of the U S Supreme Court s decision striking down a government ban on Roberto Rossellini s film *The Miracle* 1950 In this extraordinary case the Court ultimately chose to abandon its own longstanding determination that film comprised a mere business unworthy of free speech rights declaring for the first time that the First Amendment barred government from banning any film as sacreligious Using legal briefs affidavits and other court records as well as letters memoranda and other archival materials to elucidate what was at issue in the case William Bruce Johnson also analyzes the social cultural and religious elements that form the background of this complex and hard fought controversy focusing particularly on the fundamental role played by the Catholic Church in the history of film censorship Tracing the development of the Church in the United States Johnson discusses the reasons it found *The Miracle* sacrilegious and how it attained the power to persuade civil authorities to ban it The Court s decision was not only a milestone in the law of church state relations but it paved the way for a succession of later decisions which gradually established a firm legal basis for freedom of expression in the arts *Confessions of an Interest Group* Carolyn M. Warner,2000-03-27 Following World War II the Catholic Church in Europe faced the challenge of establishing political influence with newly emerging democratic governments The Church became as Carolyn Warner pointedly argues an interest group like any other seeking to attain and

solidify its influence by forming alliances with political parties The author analyzes the Church's differing strategies in Italy France and Germany using microeconomic theories of the firm and historical institutionalism She demonstrates how only a strategic perspective can explain the choice and longevity of the alliances in each case In so doing the author challenges earlier work that ignores the costs to interest groups and parties of sustaining or breaking their reciprocal links Confessions of an Interest Group challenges the view of the Catholic Church as solely a moral force whose interests are seamlessly represented by the Christian Democratic parties Blending theory cultural narrative and archival research Warner demonstrates that the French Church's superficial and brief connection with a political party was directly related to its loss of political influence during the War The Italian Church's power on the other hand remained stable through the War so the Church and the Christian Democrats more easily found multiple grounds for long term cooperation The German Church chose yet another path reluctantly aligning itself with a new Catholic Protestant party This book is an important work that expands the growing literature on the economics of religion interest group behavior and the politics of the Catholic Church

Sociologies of Religion ,2015-07-14 Sociologies of Religion National Traditions presents fourteen histories of the sociological study of religion in a diverse set of nations Each of the histories is newly written by author who are uniquely situated to tell narrate the story of the field in their countries They give us the stories behind major personages theoretical traditions seminal works research institutes and professional associations The histories trace the various ways the field was established in different academic and religious contexts and the trajectories it took in emerging as a scientific specialty

Essays and Reviews Victor Shea,William Whitla,2000 Essays and Reviews is a collection of seven articles that appeared in 1860 sparking a Victorian culture war that lasted for at least a decade With pieces written by such prominent Oxford and Cambridge intellectuals as Benjamin Jowett Mark Pattison Baden Powell and Frederick Temple later archbishop of Canterbury the volume engaged the relations between religious faith and current topics of the day in education the classics theology science history literature biblical studies hermeneutics philology politics and philosophy Upon publication the church the university the press the government and the courts both ecclesiastical and secular joined in an intense dispute The book signaled an intellectual and religious crisis raised influential issues of free speech and questioned the authority and control of the Anglican Church in Victorian society The collection became a best seller and led to three sensational heresy trials Although many historians and literary critics have identified Essays and Reviews as a pivotal text of high Victorianism until now it has been almost inaccessible to modern readers This first critical edition edited by Victor Shea and William Whitla provides extensive annotation to map the various positions on the controversies that the book provoked The editors place the volume in its complex social context and supply commentary background materials composition and publishing history textual notes and a broad range of new supporting documents including material from the trials manifestos satires and contemporary illustrations Not only does such an annotated critical edition of Essays and Reviews indicate the impact

that the volume had on Victorian society it also sheds light on our own contemporary cultural institutions and controversies

Pastoral Misconduct Janelle M. Eliasson-Nannini, 2017-09-08 In the past clergy malfeasance was mentioned only in passing by group members or adherents The subject was invisible and those who studied it were often stigmatized as hostile to religion itself Today clergy misconduct is acknowledged as a social problem with growing conceptual and theoretical implications In *Pastoral Misconduct* Anson Shupe and Janelle M Eliasson Nannini argue that the history and traditions of black pastoral leadership coupled with the close identity of many black congregants with their pastor congregation and racial subculture creates opportunity structures that facilitate predatory behavior Familiarity and mutual identity frequently leads victims to drop their normal levels of wariness Major denominations and minor sects have been studied but this unique study by Shupe and Eliasson Nannini pursues nuances of pastoral bad behavior in a new context This book is not a tabloid treatment of the American black church In fact the black church becomes the vehicle for a major new sociological development a theory of clergy misconduct in any minority religion

Democracies and Dictatorships in Latin America Scott Mainwaring, Aníbal Pérez-Liñán, 2014-01-31 This book presents a new theory for why political regimes emerge and why they subsequently survive or break down It then analyzes the emergence survival and fall of democracies and dictatorships in Latin America since 1900 Scott Mainwaring and Anibal P rez Li n argue for a theoretical approach situated between long term structural and cultural explanations and short term explanations that look at the decisions of specific leaders They focus on the political preferences of powerful actors the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism to explain regime outcomes They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization Based on extensive research into the political histories of all twenty Latin American countries this book offers the first extended analysis of regime emergence survival and failure for all of Latin America over a long period of time

Decoding **Papal Power A Study Of Vatican Control Over Lay Catholic Elites**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
