What Causes Human Behavior Stephen F. Ledoux,2017-09-27 What experts are saying about What Causes Human Behavior Stephen Ledoux s book is a strong non compromising theoretical and philosophical argument that the answers come from behaviorology the natural science of behavior that the answers do not come from astrology theology etc or from psychology the mentalistic unnatural science of the mind And he supports his argument with examples of effective science based applications of applied behaviorology applied behavior analysis and with analyses of human behavior in everyday life going from simple behaviors to complex verbal behavior with suggestions that behaviorology is crucial to the solutions of the world problems of overpopulation sustainability and global warming But also he s not afraid to make these complex topics more readable by using an occasional contraction an informed expression and even a little humor i e he s way cool Richard

Malott Ph D Professor Western Michigan University Professor Ledoux has written a primer on a newly emerging discipline behaviorology It is the natural science of environment behavior relations and an intellectually challenging subject one that variously intersects with astrology psychology philosophy education and physiology plus other biological and behavioral sciences Ledoux s discussion of explanatory fictions and a variety of other explanatory fallacies alone however is worth the price of admission And there is so much more John Stone Ph D Professor East Tennessee State University Johnson City and President Education Consumers Foundation at www.educationconsumers.org
