Ideas Across Borders Gaby Mahlberg, Thomas Munck, 2024-02-20 Building on the historical study of cultural translation this volume brings together a range of case studies and fresh approaches to early modern intellectual history by scholars from across Europe reflecting on ideological and political change from c 1600 to 1840 Translations played a crucial role in the transmission of political ideas across linguistic and cultural borders in early modern Europe Yet intellectual historians have been slow to adopt the study of translations as an analytical tool for the understanding of such cultural transfers Recently a number of different approaches to transnational intellectual history have emerged allowing historians of early modern Europe to draw on work not just in translation studies literary studies conceptual history the history of political thought and the history of scholarship but also in the history of print and its significance for cultural transfer Thorough qualitative and quantitative analysis of texts in translation can place them more accurately in time and space This book provides a better understanding of the extent to which ideas crossed linguistic and cultural divides and how they were re shaped in the process Written in an accessible style this volume is aimed at scholars in cognate disciplines as well as at postgraduate students

Eight years before the French Revolution the paper mill at Vidalon le Haut was the setting for a bitter strike and successful lockout This labor dispute resulting from conflicts between master papermakers and skilled journeymen ultimately benefitted the mill s owners and administrators the Montgolfier family They converted the 1781 lockout into an opportunity to train a new kind of worker a malleable employee and to fashion a new sort of workplace a theater of technological experiment Papermaking in Eighteenth Century France Management Labor and Revolution at the Montgolfier Mill 1761 1805 gives us history from the workshop up offering the most comprehensive exploration available of the historical experience of papermaking Leonard N Rosenband explains how paper was made depicting the tools techniques raw materials and seasonable flows of the craft and explores the many conflicts and compromises between masters and men Rosenband provides a compelling account of how technological change affected the papermaking industry transforming an elaborate established system of production The Montgolfier archives are a rich source of information providing records of daily output and procedures including complex rules ranging from the precise hours of meals and prayer to matters of propriety and personal sanitation They also provide insight into the attitudes of the Montgolfier family and their workers what they made of their trade their labor and one another This case study of the Montgolfier mill adding details about technological innovation and shopfloor relations during a time of social unrest enriches the current debate about the nature and impact of capitalism in France during the years leading up to the French Revolution *The Appearance of Print in Eighteenth-Century Fiction* Christopher Flint,2011-09-08

Eighteenth century fiction holds an unusual place in the history of modern print culture The novel gained prominence largely because of advances in publishing but as a popular genre it also helped shape those very developments Authors in the period manipulated the appearance of the page and print technology more deliberately than has been supposed prompting new forms of reception among readers Christopher Flint s book explores works by both obscure scribblers and canonical figures such as Swift Haywood Defoe Richardson Sterne and Austen that interrogated the complex interactions between the book s material aspects and its producers and consumers Flint links historical shifts in how authors addressed their profession to how books were manufactured and how readers consumed texts He argues that writers exploited typographic media to augment other crucial developments in prose fiction from formal realism and free indirect discourse to accounts of how the novel defined itself as a genre Religion and the Book Trade Caroline Archer,Lisa Peters,2015-09-18

This volume brings together a selection of the papers presented at the Print Networks conference at the National Library of Wales Aberystwyth in July 2011 The conference theme Religion and the book trade was chosen to mark the four hundredth anniversary of the publication of the King James Bible Numerous events throughout the United Kingdom and the English speaking world took place to commemorate this historic event the Print Networks conference being one of

many Religious books be they tracts sermons homilies hymn books or Bibles were primarily used by all denominations to spread their version of Christianity to attract people to their cause and to retain the loyalty of supporters But these publications are also credited with the survival of indigenous languages and naturally the printers and distributors of these religious works were crucial to the process of spreading both religion and literacy among the population The contributions to this book cover a wide gamut of religion and the book trade from the sixteenth to the twentieth centuries Most of the chapters are concerned with the European book trade and concentrate on Christian religions and cover both Catholic and Protestant particularly Nonconformist Dissenter experiences Most of the chapters relate to the British and Irish book trade but there are also contributions discussing Italy and the Netherlands There are chapters relating to the printers and publishers of religious works authorship the issue and production of religious periodicals the promoters of religious libraries and clandestine elements of the trade This volume emphasises the pivotal role played by those in the book trade printers publishers or booksellers in the distribution of religious works and demonstrates that spreading the ideas of their authors creators or translators would have been far more difficult without their involvement This book will be of interest to academics independent scholars heritage professionals and research students in the fields of book trade history book arts bibliography bookbinding printing and typographic history publishing social and industrial history and religious history
