Daniel Tobin

Parable Island:

Passage to the Center Daniel Tobin, 2021-10-21 Nobel Laureate Seamus Heaney author of nine collections of poetry and three volumes of influential essays is regarded by many as the greatest Irish poet since Yeats *Passage to the Center* is the most comprehensive critical treatment to date on Heaney's poetry and the first to study Heaney's body of work up to *Seeing Things* and *The Spirit Level*. It is also the first to examine the poems from the perspective of religion one of Heaney's guiding preoccupations. According to Tobin the growth of Heaney's poetry may be charted through the recurrent figure of the center a key image in the relationship that evolved over time between the poet and his inherited place an evolution that involved the continual re-evaluation and re-vision of imaginative boundaries. In a way that previous studies have not Tobin's work examines Heaney's poetry in the context of modernist and postmodernist concerns about the desacralizing of civilization and provides a challenging engagement with the work of a living master. **Governing the Tongue in Northern Ireland** Shane Alcobia-Murphy, 2008-12-11 How free is the Northern Irish writer to produce even a short poem when every word will be scrutinised for its political subtext? Is the visual artist compelled to react to the latest atrocity? Must the creative artist be aware of his or her own inculcated prejudices and political affiliations and must these be revealed overtly in the artwork? Because of these and other related questions the recent work by Northern Irish writers and visual artists has been characterised by an inward looking self-consciousness. It is an art that relays its personal responses in guarded often coded ways. Characterised by obliquity and self-reflexivity the art does not simply re-present events and the artist's emotive response towards them rather it calls attention to the manner of its presentation. It is an art about art and its role and place in society. *Governing the Tongue* examines how the creation of art in a time of violence brings about an anxiety in the Northern Irish artist regarding his or her artistic role and how it calls into question the ability to represent events. The series of essays is interdisciplinary in its approach exploring the place of art its role and location in the work of key Northern Irish writers Ciaran Carson Seamus Deane Brian Friel Seamus Heaney Michael Longley Medbh McGuckian Eoin McNamee Glenn Patterson and visual artists Willie Doherty Rita Donagh Paul Seawright Victor Sloan. **Poetry and Islands** Rajeev S. Patke, 2018-03-01 In all cultures and times the poetic imagination has fed on the natural attributes of islands. An island is either a destination or a home or a place of exile and imprisonment or simply a place to sojourn. It is an ideal vehicle for journeys treated as allegories or for acts of finding that turn into acts of losing or the reverse transformation. An island is not a continent yet it can be an archipelago. An island is both a place in itself and a pretext for imaginings that need a local habitation and a name. It can give relief and pleasure or it can frustrate isolate and negate. Above all it both invites and resists or contains or constrains the imagination. *Poetry and Islands* explores how islands become repositories of human longings and desires a locus for some of our deepest fears and fantasies. It balances historical and geographical reference with a selective approach to poems and poets in English and in translations into English. The study of particular poems in which

islands figure in exemplary ways is balanced by a more detailed discussion of the poets who have played a major role in shaping human responses to islands on a global scale

Seamus Heaney Helen Vendler, 1998 The most astute and eloquent critic of poetry at work today Michiko Kakutani New York Times A renowned American critic charts the creative evolution of the greatest Irish poet since Yeats If other books on Nobel laureate Seamus Heaney have dwelled on the biographical geographical and political aspects of his writing Helen Vendler looks squarely and deeply at his poetic art Tracing the eminent poet's development from his beginnings in *Death of a Naturalist* 1966 through *The Spirit Level* 1996 Seamus Heaney is an inspired and nuanced portrait of an Irish chronicler of public as well as private life whose work has given voice to his troubled times With characteristic discernment and eloquence Vendler considers an often neglected but crucial part of Heaney's evolving talent self revision Here we see how later poems return to the themes or genres of the earlier works and reconceive them in light of the poet's later attitudes or techniques Vendler surveys all of Heaney's efforts in the classical forms genre scene elegy sonnet parable confessional poem poem of perception and brings to light his aesthetic and moral attitudes Seamus Heaney's development as a poet is inextricably connected to the violent struggle that racked Northern Ireland during his lifetime Vendler shows how in each volume Heaney strived to find a precise language for the turbulence he was living through symbols adequate for our predicament as he once said The worldwide response to those discovered symbols suggests that their relevance extends far beyond their original context
