Beverly Irby, Genevieve H. Brown, Rafael Lara-Alecio, Dr. Shirley A. Jackson, 2013-03-01 Although educational theories are presented in a variety of textbooks and in some discipline specific handbooks and encyclopedias no publication exists which serves as a comprehensive consolidated collection of the most influential and most frequently quoted and consulted theories. There is a need to put such theories into a single easily accessible volume. A unique feature of the Handbook is the way in which it conveys the theories. The organization of the chapters within each section makes the volume an easy to use and understandable reference tool as researchers and practitioners seek theories to guide their research and practice and as they develop theoretical frameworks. In addition to the traditional theories presented the Handbook includes emerging theories for the 21st Century as well as presenting practical examples of the use of these theories in research from dissertations and published articles. An appendix which indicates which theories have instruments associated with them and where those instruments can be found is also included. The Handbook consists of 12 sections. Section I provides the introduction with a focus on what constitutes good theory as well as how theory guides research and practice. The remaining sections address Philosophical Educational Constructs Learning Theory Instructional Theory Curriculum theory Literacy and Language Acquisition Theory Counseling Theory Moral Development Theory Classroom Management Theory Assessment Theory Organizational Theory and Leadership Management Theory. Each section consists of an overview written by the section editor of the general theoretical concepts to be addressed by the chapter authors. Each chapter within the section will include: a description of the theory with goals, assumptions, and aspects particular to the theory; b) the original development of and interactions of the theory; c) validation of the theory; d) generalizability of the theory across cultures, ethnicities, and genders; e) the use and application of the theory; f) critiques of the theory; g) any instruments associated with the theory; and h) two to five particular studies exemplifying particular theories as individuals have used them in theoretical framework of dissertations or published articles and be written by the original theorist or prominent contributors to the theory. The Handbook is intended for graduate students enrolled in research courses or completing theses and dissertations. Additionally, professors of all educational disciplines in the social sciences would be an interested audience. There is also potential use of the text as administrators, counselors, and teachers in schools use theory to guide practice. As more inquiry is being promoted among school leaders, this book has more meaning for practitioners. *Quandaries of the Small-District Superintendency*. G. Ivory, A. Hyle, R. McClellan, M. Acker-Hocevar, 2016-04-30 Focused on the particular needs of superintendents of districts of fewer than ten thousand students, the chapters teach students critical frameworks for thinking through and addressing the problems and practices superintendents encounter daily, allowing them to form a detailed and practical understanding of administration and leadership. **Gender, Equity, and Schooling** Barbara J. Bank, Peter M. Hall, 1997 First Published in 1997 Routledge is an imprint of Taylor & Francis, an informal company. *Jsl Vol 5-N6 JOURNAL OF SCHOOL LEADERSHIP*, 1995-11-01 The Journal of School Leadership is broadening the conversation about schools and leadership and

is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to practitioners around the world Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement
