**Paradigms in Conflict** David J. Hesselgrave, 2018 Drawing from Scripture social sciences and history David J Hesselgrave tackles the most pressing issues facing missionaries today The author and contributors show how theological issues have real impact on missions and they present arguments on both sides of the fifteen subjects of debate while also offering their own biblically informed perspectives on the subjects Despite rapid global changes Hesselgrave holds that much of traditional theory practice and theology is still valid if not essential for the future of Christian missions Current and prospective missionaries pastors seminary students missions committee members and laypeople interested in world Christianity will all benefit from the discussions covered in this book including Sovereignty and free will An impossible mix or a perfect match Common ground and enemy territory How should we approach adherents of other faiths Business as mission When is it mission and when is it not Harvest missions and pioneer missions Discipling the masses or reaching to the margins This updated and expanded edition includes five more questions along with new applications and reflections on the ten questions presented in the first edition

**Paradigms in Conflict** David J. Hesselgrave, 2005 A prominent missiologist provides insight and guidance on the hot topics within Christian mission circles in this unique and timely discussion Through the authoritative use of Scripture and drawing from the social sciences and history David J Hesselgrave tackles ten of the most pressing issues facing missionaries and students of missions today In spite of the rapid changes taking place Hesselgrave determines that much of traditional theory practice and theology is still valid if not essential for the future of Christian missions

**Victor Turner and Contemporary Cultural Performance** Graham St. John, 2008 In the twenty years following Victor Turner's death

interventions on the interconnected performance modes of play drama and community dimensions of which Turner deemed the limen and experimental and analytical forays into the anthropologies of experience and consciousness have complemented and extended Turnerian readings on the moments and sites of culture's becoming. Examining Turner's continued relevance in performance and popular culture pilgrimage and *communitas* as well as Edith Turner's role the contributors reflect on the wide application of Victor Turner's thought to cultural performance in the early twenty-first century and explore how Turner's ideas have been re-engaged, renovated and repurposed in studies of contemporary cultural performance.

**Peacebuilding Paradigms** Henry F. Carey, 2020-12-17 Peacebuilding is explained by combining interpretive frameworks paradigms that have evolved from the subfields of international relations and comparative politics

*Paradigms, Poetics, and Politics of Conversion* Jan N. Bremmer, Wout Jac. van Bekkum, Arie L. Molendijk, 2006 In the terms of Durheimian sociology conversion is a *fait social*. Although they are rarely treated as a cultural phenomenon conversions can obviously be examined for the norms, values and presuppositions of the cultures in which they take place. Thus conversion can help us to shed light on a particular culture. At the same time the term evokes a dramatic appeal that suggests a kind of suddenness although in most cases conversion implies a more gradual process of establishing and defining a new religious identity. From 21-24 May 2003 the University of Groningen hosted an international conference on Cultures of Conversion. The contributions have been edited in two volumes which pay special attention to the modes of language and idiom in conversion literature, the meaning and sense of religious ideological discourse, the variety of rhetorical tropes and the effects of the conversion narrative with allusions to religious or political conventions and idealizations. The present volume contains theoretical contributions on the theory of conversion with special attention to the rational choice theory and on the history of research into conversion. It also offers stimulating case studies ranging from the late Middle Ages to present times and taken from Germany, Great Britain and The Netherlands. The other volume *Cultures of Conversion* offers in-depth studies of conversion that are mainly taken from the history of India, Islam and Judaism ranging from the Byzantine period to the new Muslimas of the West.

*The Paradigms of Conflict in the Works of H.W. Sten*, 2024 *A Critique of Adjudication [fin de Siècle]* Duncan Kennedy, 2009-06-01 A major statement from one of the foremost legal theorists of our day, this book offers a penetrating look into the political nature of legal and especially judicial decision making. It is also the first sustained attempt to integrate the American approach to law, an uneasy balance of deep commitment and intense skepticism with the Continental tradition in social theory, philosophy and psychology. At the center of this work is the question of how politics affects judicial activity and how in turn lawmaking by judges affects American politics. Duncan Kennedy considers opposing views about whether law is political in character and if so how. He puts forward an original, distinctive and remarkably lucid theory of adjudication that includes accounts of both judicial rhetoric and the experience of judging. With an eye to the current state of theory, legal or otherwise, he also includes a provocative discussion of postmodernism. Ultimately concerned

with the practical consequences of ideas about the law A Critique of Adjudication explores the aspects and implications of adjudication as few books have in this century As a comprehensive and powerfully argued statement of a critical position in modern American legal thought it will be essential to any balanced picture of the legal political and cultural life of our nation
