## **Paradigms And Fairy Tales An Introduction To The Science Of Meanings:**

Paradigms and Fairy Tales Julianne Ford, *Paradigms and Fairy Tales* Julianne Ford, 2006 **Paradigms and Fairy Tales** Julianne Ford, 1975 Exploring Existential Meaning Gary T. Reker, Kerry Chamberlain, 2000 Both implicit and existential meaning are important constructs in fully understanding human experience The editors of this volume present a forum for an array of viewpoints and recent research that address the notion of optimal human growth **Critical Theory and Methodology** Raymond A. Morrow, Raymond Allen Morrow, David D. Brown, 1994-06-24 Critical Theory traces its roots from Marxism through the renowned Frankfurt School to a wide array of national and cultural traditions Raymond Morrow's book traces the history and outlines the major tenets of critical theory for an undergraduate audience He exemplifies the theory through an analysis of two leading social theorists Jürgen Habermas and Anthony Giddens Unique to this volume is the emphasis on the link between Critical Theory and empirical research and social science methodology often thought to be incompatible Frontiers of Management (Routledge Revivals) Roger Mansfield, 2014-01-02 This edited collection first published in 1989 stems from the second annual meeting of the British Academy of Management held at Cardiff Business School in 1988 With the focus on important areas of change affecting management practice and theory in markets technology and organizational structure this volume contains a selection of material presented at the conference by leading scholars in the field Their contributions provide multi disciplinary views of organizational strategy across a wide spectrum of business and industry which will be of significant interest to any students of business structure and management **Deciphering Sociological Research** Gerry Rose, 1982-06-10 Sociological research methods are a key component of teaching and courses at all levels yet courses often fail to catch light for lack of effective student books or provoke smouldering resentment from students at misplaced enthusiasm for recondite statistics Gerry Rose's new book should go a long way to remedy these problems It is a complete teaching course with a clear rationale and a distinctive approach to the topic unblemished by epistemological or prescriptive polemic Its method is to present through the analysis of twelve pieces of published research reprinted in the book the systematic deciphering of research in relation to the key issues of methodology The first nine discursive chapters discuss the main research methods topics including concepts and indicators sampling data analysis and the relationship of theory to evidence balancing the problems of quantitative data with the treatment of qualitative data and fieldwork studies The papers shortened articles from British US and Australian journals are put through the methodological hoops and systematically compared and assessed Additionally each chapter is provided with a full set of exercises and the book also includes a glossary of terms This straightforward and business like book will be welcomed by all teachers and professional sociologists and also by social researchers who are concerned with examining or preparing research reports Even authors and journal editors will find it provoking and useful **Neuro-Linguistic Programming** P. Tosey, J. Mathison, 2009-11-12 Addressing the need for a discerning research based discussion of NLP this book seeks to answer the

many questions that clients potential users and practitioners ask including what is NLP and what can it best be used for This book looks at the research and theory behind NLP also exploring claims that it is a pseudoscience     The Spectacle of Violence Gail Mason,2003-09-02 Drawing on in depth interviews with women reflecting a range of experiences of verbal hostility physical violence and sexual violence Spectacle of Violence explores the issues surrounding violence and hostility towards lesbians and gay men Challenging current thinking Gail Mason highlights the ways in which different identities bodes and systems of through interact and asks fundamental questions Where does violence come from What effects does it have How do lesbians and gay men manage the risk of violence What is the relationship between violence and power She argues for the importance of thinking about homophobic violence in the context of other core issues such as gender and race Focusing on real life experiences of violence The Spectacle of Violence is an important contribution to current thought about violence Moving beyond issues of causation and prevention it offers new ways of theorizing the relationship between identity knowledge and power     *Research Methods in Information* Alison Jane Pickard,2013-01-23 The long awaited 2nd edition of this best selling research methods handbook is fully updated and includes brand new coverage of online research methods and techniques mixed methodology and qualitative analysis This edition includes two new contributed chapters Professor Julie McLeod Sue Childs and Elizabeth Lomas focus on research data management applying evidence from the recent JISC funded DATUM project Dr Andrew Shenton examines strategies for analysing existing documents The first to focus entirely on the needs of the information and communications community this handbook guides the would be researcher through the variety of possibilities open to them under the heading research and provides students with the confidence to embark on their dissertations The focus here is on the doing and although the philosophy and theory of research is explored to provide context this is essentially a practical exploration of the whole research process with each chapter fully supported by examples and exercises tried and tested over a whole teaching career Readership Students of information and communications studies and archives and records management and practitioners beginning a piece of research
