## Paradise Contained:

The Greek Life of Adam and Eve John R. Levison, 2022-12-05 For the first time Jack Levison offers the English speaking world a comprehensive commentary on the Greek Life of Adam and Eve an epic of pain death and hope An exhaustive introduction clarifies issues of literary character manuscripts and versions and provenance the commentary itself provides rich discussions of the Greek text illuminated by Jewish scripture and ancient Greek and Hebrew literature Fresh translation and bibliography

*Soma* David L. Spess, 2000-08-01 The definitive work on the ancient Hindu soma rituals mentioned in the Vedas and debated by scholars for decades The first book to identify the mysterious soma plant A breakthrough book that reenvisions the role of psychoactive plants in religion Soma has been shrouded in mystery for centuries It is simultaneously a sacred hallucinogenic plant used in secret rituals a personified God and an important cosmological principle Summarizing all previous research on the subject David Spess goes far beyond his predecessors and shows that soma provides an important key to the understanding of the earliest systemized methods of medicine psychology magic rejuvenation longevity and alchemy Most significant is that his intensive research provides the most compelling case yet for actual identification of the plants that served as the basis for the divine hallucinogen *Nelumbo nucifera* the sacred lotus of India as well as some members of the *Nymphaea* genus With the renewed interest in the ritual use of psychoactive substances shamanism psychic phenomena and alternative modalities of healing Soma provides a much needed bridge between Eastern and Western esoteric traditions Contained within the enigmatic verses about soma in the Rig Veda is a secret about ourselves and the nature of our relationship to the world and cosmos Soma makes this knowledge available to us once again

The British Plutarch, Containing the Lives of the Most

Eminent Statesmen, Patriots ... and Artists of Great Britain and Ireland, from the Accession of Henry VIII. to the Present Time, Etc. The Third Edition Revised ... and Enlarged, Etc. [Edited by T. Mortimer.] ,1791 Teaching and Christian Imagination David I. Smith,Susan M. Felch,2016 This book offers an energizing Christian vision for the art of teaching The authors experienced teachers themselves encourage teacher readers to reanimate their work by imagining it differently David Smith and Susan Felch along with Barbara Carvill Kurt Schaefer Timothy Steele and John Witvliet creatively use three metaphors journeys and pilgrimages gardens and wilderness buildings and walls to illuminate a fresh vision of teaching and learning Stretching beyond familiar clichés they infuse these metaphors with rich biblical echoes and theological resonances that will inform and inspire Christian teachers everywhere Cervantes' Epic Novel Michael Armstrong-Roche,2009-05-08 Miguel de Cervantes conceived his final work The Labours of Persiles and Sigismunda A Northern Story 1617 as a great prose epic that would accomplish for its age what Homer and Virgil had done for theirs And yet by the eighteenth century Don Quixote had eclipsed Persiles in the favour of readers and writers alike and the later novel is now virtually forgotten except by specialists This study sets out to help restore Persiles to pride of place within Cervantes's corpus by reading it as the author's summa as a boldly new kind of prose epic that casts an original light on the major political religious social and literary debates of its era At the same time it seeks to illuminate how such a lofty and solemn ambition could coexist with Cervantes evident urge to delight Grounded in the novel's multiple contexts literature history and politics philosophy and theology and in close reading of the text Michael Armstrong Roche aims to reshape our understanding of Persiles within the history of prose fiction and to take part in the ongoing conversation about the relationship between literary and non literary cultural forms Ultimately he reveals how Cervantes recast the prose epic expanding it in new directions to accommodate the great epic themes politics love and religion to the most urgent concerns of his day Christianity, Education and Modern Society William Jaynes,Enedina Martinez,2007-10-01 The issues that these authors address in this book are some of the most salient in American society It is imperative that Americans today address these issues and establish an appropriate world view There is little question that how people resolve these issues will have a long lasting impact on the future of civilization

**Language Parasites: Of Phorontology** Sean Braune,2017 What we call Being infects us and speaks through us it treats us as a host to a linguistic and experiential parasite Ontology the study of Being has primarily dealt with human questions regarding Being at the expense of the non human inhuman and posthuman Language Parasites works against this tendency by offering a phorontology a theory of Being inspired by phoronts which are tiny organisms that engage in parasitic migration lice mites ticks fleas etc What is the Being of a parasite and how can that complicated non human ontology influence human definitions of Being Gradually the anthropocentric distinction of subject and object fades away in favor of the emergence of a strange new philosophical entity called the transject a being that is thrown far afield from the more normative notions of the subject that can be found in Hegel Kant Lacan or even Foucault Nietzsche and Deleuze A

pataphysical excursion into the intricate world of philosophical ontology Language Parasites presents the initial discoveries of a much larger project that seeks to redefine the boundaries of Being This book is the result of a parasitic infection of continental philosophy in which the various parasites of German and French philosophy all meet at one locale for one express purpose to eat together feed together and think together Back cover      Resurrection And The Hereafter Bediuzzaman Said Nursi, 2010-02-16 This book is a collection of letters and treatises by Bediuzzaman about resurrection and its basis in Islam It includes the famous 10th Word from the book The Words      *The Oxford Encyclopædia* W. Harris, 1828      **The Worlds of Christopher Columbus** William D. Phillips, Carla Rahn Phillips, 1992 When Columbus was born in the mid fifteenth century Europe was largely isolated from the rest of the Old World Africa and Asia and ignorant of the existence of the world of the Western Hemisphere The voyages of Christopher Columbus opened a period of European exploration and empire building that breached the boundaries of those isolated worlds and changed the course of human history This book describes the life and times of Christopher Columbus on the 500th anniversary of his first voyage across the Atlantic Ocean in 1492 Since ancient times Europeans had dreamed of discovering new routes to the untold riches of Asia and the Far East what set Columbus apart from these explorers was his single minded dedication to finding official support to make that dream a reality More than a simple description of the man this new book places Columbus in a very broad context of European and world history Columbus s story is not just the story of one man s rise and fall Seen in its broader context his life becomes a prism reflecting the broad range of human experience for the past five hundred years Respected historians of medieval Spain and early America the authors examine Columbus s quest for funds first in Portugal and then in Spain where he finally won royal backing for his scheme Through his successful voyage in 1492 and three subsequent journeys to the new world Columbus reached the pinnacle of fame and wealth and yet he eventually lost royal support through his own failings William and Carla Rahn Phillips discuss the reasons for this fall and describe the empire created by the Spaniards in the lands across the ocean even though neither they nor anyone else in Europe know precisely where or what those lands were In examining the birth of a new world this book reveals much about the times that produced these intrepid explorers      **The Preceptor, Or Counsellor of Human Life** John Ryland, 1776
