Jeffrey Janssen,2019-08-06 There are well over one hundred different views of the nature of human existence though the Bible may rule out many of these there still remains a large number that are all compatible with Scripture The Bible never explicitly defines the nature of the soul or spirit which is actually quite puzzling or even ironic given that one major aim of Scripture is spiritual development and ultimate questions about the soul In fact Judeo Christian thinking on those questions has been evolving over the course of four thousand years This book documents that evolution as a man named Abram left Babylon four thousand years ago journeying through the lands and the philosophies of civilizations preceding him by many more thousands of years while he and his descendants both physical and spiritual unpacked their understanding of our inner being the human soul and the afterlife That journey is followed to the present day and examines how a critically thinking Christian can embrace a theology of the human soul that is fully compatible with modern scientific findings including explanations for consciousness mind and soul *T&T Clark Encyclopedia of Second Temple Judaism Volume Two* Loren T. A Study of the Geography of 1 Enoch 17-19 Coblentz Baultch, 2003-11-01 A Study of the Geography of 1 Enoch 17-19 examines the travels of the patriarch Enoch who is given a guided tour of extraordinary and at times terrifying places located throughout the cosmos Coblentz Baultch clarifies the text of 1 Enoch 17-19 by explaining how the sites described relate to one another geographically and by reconstructing the mental map of the geography that lies behind the textual descriptions Especially provocative is the consideration of sources from the ancient Near East Hebrew Bible and the world of Hellenistic Judaism that may have informed the world view of 1 Enoch 17-19 and parallel traditions Through this study an important facet of apocalypses is illumined their portrayal of geography and sacred space

Reading with an "I" to the Heavens Angela Kim Harkins, 2012-07-04 This book examines the collection of prayers known as the Qumran Hodayot Thanksgiving Hymns in light of ancient visionary traditions new developments in neuropsychology and post structuralist understandings of the embodied subject The thesis of this book is that the ritualized reading of reports describing visionary experiences written in the first person I had the potential to create within the ancient reader the subjectivity of a visionary which can then predispose him to have a religious experience This study examines how references to the body and the strategic arousal of emotions could have functioned within a practice of performative reading to engender a religious experience of ascent In so doing this book offers new interdisciplinary insights into meditative ritual reading as a religious practice for transformation in antiquity

Gardens Robert Pogue Harrison, 2010-10 Humans have long turned to gardens both real and imaginary for sanctuary from the frenzy and tumult that surrounds them Those gardens may be as far away from everyday reality as Gilgamesh's garden of the gods or as near as our own backyard but in their very conception and the marks they bear of human care and cultivation gardens stand as restorative nourishing necessary havens With Gardens Robert Pogue Harrison graces readers with a thoughtful wide ranging examination of the many ways gardens evoke the human condition Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York he shows how again and again the garden has served as a check against the destruction and losses

of history The ancients explains Harrison viewed gardens as both a model and a location for the laborious self cultivation and self improvement that are essential to serenity and enlightenment an association that has continued throughout the ages The Bible and Qur an Plato s Academy and Epicurus s Garden School Zen rock and Islamic carpet gardens Boccaccio Rihaku Capek Cao Xueqin Italo Calvino Ariosto Michel Tournier and Hannah Arendt all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality order and power Alive with the echoes and arguments of Western thought Gardens is a fitting continuation of the intellectual journeys of Harrison s earlier classics Forests and The Dominion of the Dead Voltaire famously urged us to cultivate our gardens with this compelling volume Robert Pogue Harrison reminds us of the nature of that responsibility and its enduring importance to humanity
