Poetics and Praxis, Understanding and Imagination O. B. Hardison, 1997-01-01 Whether O B Hardison Jr 1929 1990 wrote about government s responsibility to the arts and humanities film adaptations of Shakespeare s play Dadaist poetry or modern and postmodern design and architecture his chosen form was the essay Showcasing Hardison s mastery of the essay s power to instruct persuade and provoke the twenty five selections in this volume range from his earliest works to those completed but still unpublished at the time of his death As Arthur F Kinney notes in his preface they all bear hallmarks of Hardison s style his intensity and acuity of thought his concreteness his grounding of the present and future in the past his easy melding of analytic and expository conventions and his intercultural perspective *The Science Fiction of Poetics and the Avant-Garde Imagination* Michael Golston, 2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston s project is a throwaway line in Robert Smithson s Entropy and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston s critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn s long poem Gunslinger the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston s restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form *The Poetics of Information Overload* Paul Stephens, 2015-07-30 Information overload is a subject of vital ubiquitous concern in our time The Poetics of Information Overload reveals a fascinating genealogy of information saturation through the literary lens of American modernism

Although technology has typically been viewed as hostile or foreign to poetry Paul Stephens outlines a countertradition within twentieth and twenty first century literature in which avant garde poets are centrally involved with technologies of communication data storage and bureaucratic control Beginning with Gertrude Stein and Bob Brown Stephens explores how writers have been preoccupied with the effects of new media since the advent of modernism He continues with the postwar writing of Charles Olson John Cage Bern Porter Hannah Weiner Bernadette Mayer Lyn Hejinian and Bruce Andrews and concludes with a discussion of conceptual writing produced in the past decade By reading these works in the context of information systems Stephens shows how the poetry of the past century has had as a primary focus the role of data in human life

A Guide to Poetics Journal Lyn Hejinian,Barrett Watten,2013-10-21 Lyn Hejinian and Barrett Watten are internationally recognized poet critics Together they edited the highly influential Poetics Journal whose ten issues published between 1982 and 1998 contributed to the surge of interest in the practice of poetics A Guide to Poetics Journal presents the major conversations and debates from the journal and invites readers to expand on the critical and creative engagements they represent In making their selections for the guide the editors have sought to showcase a range of innovative poetics and to indicate the diversity of fields and activities with which they might be engaged The introduction and headnotes by the editors provide historical and thematic context for the articles The Guide is intended to be of sustained creative and classroom use while the companion Archive of all ten issues of Poetics Journal allows users to remix remaster and extend its practices and debates See <http://www.upne.com/0819571236.html> for more information on the digital archive

The Point Is To Change It Jerome McGann,2007-04-06 In this book Jerome McGann argues that contemporary language oriented writing implies a marked change in the way we think about our poetic tradition on one hand and in the future of criticism on the other

Poetic Culture Christopher Beach,1999 In Poetic Culture Christopher Beach questions the cultural significance of poetry both as a canonical system and as a contemporary practice By analyzing issues such as poetry's loss of audience the anthology wars of the 1950s and early 1960s the academic and institutional orientation of current poetry the poetry slam scene and the efforts to use television as a medium for presenting poetry to a wider audience Beach presents a sociocultural framework that is fundamental to an understanding of the poetic medium While calling for new critical methods that allow us to examine poetry beyond the limits of the accepted contemporary canon and beyond the terms in which canonical poetry is generally discussed and evaluated Beach also makes a compelling case for poetry and its continued vitality both as an aesthetic form and as a site for the creation of community and value

Poetic Machinations Michael

Golston,2015-09-01 The shape lineation and prosody of postmodern poems are extravagantly inventive imbuing both form and content with meaning Through a survey of American poetry and poetics from the end of World War II to the present Michael Golston traces the proliferation of these experiments to a growing fascination with allegory in philosophy linguistics critical theory and aesthetics introducing new strategies for reading American poetry while embedding its formal innovations within the history of intellectual thought Beginning with Walter Benjamin s explicit understanding of Surrealism as an allegorical art Golston defines a distinct engagement with allegory among philosophers theorists and critics from 1950 to today Reading Fredric Jameson Angus Fletcher Roland Barthes and Craig Owens and working with the semiotics of Charles Sanders Pierce Golston develops a theory of allegory he then applies to the poems of Louis Zukofsky and Lorine Niedecker who he argues wrote in response to the Surrealists the poems of John Ashbery and Clark Coolidge who incorporated formal aspects of filmmaking and photography into their work the groundbreaking configurations of P Inman Lyn Hejinian Myung Mi Kim and the Language poets Susan Howe s Pierce Arrow which he submits to semiotic analysis and the innovations of Craig Dworkin and the conceptualists Revitalizing what many consider to be a staid rhetorical trope Golston positions allegory as a creative catalyst behind American poetry s postwar avant garde achievements *Questions of Poetics* Barrett Watten,2016-07 Object Lessons Subject Formations Notes Bibliography Index **The Cambridge Companion to American Poetry Since 1945** Jennifer Ashton,2013-02-08 Explores the ways in which American poetry has documented and sometimes helped propel the literary and cultural revolutions of the past sixty five years **The Objectivist Nexus** Peter Quartermain,Rachel Blau DuPlessis,1999-07-02 Outstanding poets and critics present cultural readings of the Objectivist poets a group whose works have been largely unexamined **The Cambridge Introduction to American Poetry since 1945** Andrew Epstein,2022-12-15 Contemporary American poetry can often seem intimidating and daunting in its variety and complexity This engaging and accessible book provides the first comprehensive introduction to the rich body of American poetry that has flourished since 1945 and offers a useful map to its current landscape By exploring the major poets movements and landmark poems at the heart of this era this book presents a compelling new version of the history of American poetry that takes into account its variety and breadth its recent evolution in the new millennium its ever increasing diversity and its ongoing engagement with politics and culture Combining illuminating close readings of a wide range of representative poems with detailed discussion of historical political and aesthetic contexts this book examines how poets have tirelessly invented new forms and styles to respond to the complex realities of American life and culture *Literary and Cultural Responses to Mnemonic Landscapes* Lourdes López-Ropero,Marzena Sokołowska-Paryż,2025-07-23 This book offers a profound exploration of spaces in transit a concept that bridges urban spaces natural environments and the archival and architectural echoes of the past with their representations in literature art and commemorative practices Through 14 meticulously crafted essays this volume delves into the intricate interplay between spatial and cultural memory framed by

theories of geocriticism feminism race postcolonialism and more Key concepts such as deep spaces implicative spaces and landmark poetic spaces are introduced inviting readers to consider the fluidity and mutability of memory laden sites The essays critically examine how these spaces are continually reinterpreted and renegotiated challenging ideologically rigid narratives The volume is organized into three thematic parts Historyscapes Artsapes and Mythic Urbanscapes and Naturescapes each offering unique insights into the mnemonic appropriations of physical and literary spaces This collection is essential for scholars and students in urban studies environmental studies memory and literary studies providing a comprehensive study of contemporary cultural and theoretical trends It invites readers to rethink the sedentary nomadic continuum of memory and space offering a fresh perspective on the dynamic nature of cultural and collective memory

Contemporary Poetics Louis Armand, 2007 Exploring the boundaries of one of the most contested fields of literary study a field that in fact shares territory with philology aesthetics cultural theory philosophy and even cybernetics this volume gathers a body of critical writings that taken together broadly delineate a possible poetics of the contemporary In these essays the most interesting and distinguished theorists in the field renegotiate the contours of what might constitute contemporary poetics ranging from the historical advent of concrete poetry to the current technopoetics of cyberspace Concerned with a poetics that extends beyond our own time as a mere marker of present day literary activity their work addresses the limits of a writing practice beginning with Stéphane Mallarmé in the late nineteenth century that engages concretely with what it means to be contemporary Charles Bernstein's Swiftian satire of generative poetics and the textual apparatus together with Marjorie Perloff's critical historical treatment of writing after Bernstein and other proponents of language poetry provides an itinerary of contemporary poetics in terms of both theory and practice The other essays consider precursors recognizable figures within the histories or prehistories of contemporary poetics from Kafka and Joyce to Wallace Stevens and Kathy Acker conjunctions in which more strictly theoretical and poetical texts enact a concerted engagement with rhetoric prosody and the vicissitudes of intelligibility cursors which points to the open possibilities of invention from Augusto de Campos's concrete poetics to the codework of Alan Sondheim and transpositions defining the limits of poetic invention by way of technology

Ethics and Politics in Modern American Poetry John Wrighton, 2012-06-25 From the Objectivists to the poetry this thoughtful and innovative book explores the dynamic relationship between the ethical imperative and poetic practice revitalizing the study of the most prominent post war American poets in a fresh provocative way Contributing to the turn to ethics in literary studies the book begins with Emmanuel Levinas philosophy proposing that his reorientation of ontology and ethics demands a social responsibility In poetic practice this responsibility for the other it is argued is both responsive to the traumatized semiotics of our shared language and directed towards an emancipatory social activism Individual chapters deal with Charles Olson's The Maximus Poems including reproductions of previously unpublished archive material Gary Snyder's environmental poetry Allen Ginsberg's Beat poetics Jerome Rothenberg's

ethnopoetics and Bruce Andrew's *Language poetry* Following the book's chronological and contextual approach their work is situated within a constellation of poetic schools and movements and in relation to the shifting socio-political conditions of post-war America In its redefinition and extension of the key notion of poethics and as guide to the development of experimental work in modern American poetry this book will interest and appeal to a wide audience *Poetic Obligation* Matthew G. Jenkins, 2008-04 Since at least the time of Plato's *Republic* the relationship between poetry and ethics has been troubled Through the prism of what has been called the new ethical criticism inspired by the work of Emmanuel Levinas G. Matthew Jenkins considers the works of Objectivists Black Mountain poets and Language poets in light of their full potential to reshape this ancient relationship American experimental poetry is usually read in either political or moral terms *Poetic Obligation* by contrast considers the poems of Louis Zukofsky Charles Reznikoff George Oppen Edward Dorn Robert Duncan Susan Howe and Lyn Hejinian in terms of the philosophical notion of ethical obligation to the Other in language Jenkins's historical trajectory enables him to consider the full breadth of ethical topics that have driven theoretical debate since the end of World War II This original approach establishes an ethical lineage in the works of twentieth-century experimental poets creating a way to reconcile the breach between poetry and the issue of ethics in literature at large With implications for a host of social issues including ethnicity and immigration economic inequities and human rights Jenkins's imaginative reconciliation of poetry and ethics will provide stimulating reading for teachers and scholars of American literature as well as advocates and devotees of poetry in general *Poetic Obligation* marshals ample evidence that poetry matters and continues to speak to the important issues of our day *Assembling Alternatives* Romana Huk, 2003-04-29 First anthology to examine the national borders of postmodern poetry *A Revolution in Rhyme* Fatemeh Shams, 2021 *A Revolution in Rhyme* Poetic Co-option under the Islamic Republic tells the story of the lives and works of Iranian poets whose personal and literary careers were shaped by the Iranian revolution in 1979 By drawing on similar examples such as Soviet Russia the book tries to tackle some key questions how did these poets come to be known in the literary scene What did they write about and what were their ideas styles and literary techniques And last but not least what kind of relationship have they established with the ruling power on the course of the past four decades In a detailed study Shams tackles the life and work of ten Iranian poets whose personal and literary lives transformed and were transformed by the 1979 Revolution and the rise of the Islamic Republic shedding light on ways in which the current ruling state in Iran uses literature and particularly poetry as a tool for ideological dissemination
