**Breaking Ground** Sara Dickinson, 2006-01-01 Breaking Ground examines travel writing's contribution to the development of a Russian national culture from roughly 1700 to 1850 as Russia struggled to define itself against Western Europe Russian examples of literary travel writing began with imitative descriptions of grand tours abroad but progressive familiarity with the West and with its literary forms gradually enabled writers to find other ways of describing the experiences of Russians en route Blending foreign and native cultural influences writers responded to the pressures of the age to Catherine II Napoleon and Nicholas I for example both by turning inward to focus on domestic touring and by rewriting their relationship to the West This book tracks the evolution of literary travel writing in this period of its

unprecedented popularity and demonstrates how the expression of national identity the discovery of a national culture and conceptions of place both Russian and Western European were among its primary achievements These elements also constitute travel writing s chief legacy to prose fiction breaking ground for the later masterpieces of writers such as Turgenev Dostoevsky and Tolstoy For literary scholars historians and other educated readers with interests in Russian culture travel writing comparative literature and national identity

*Iuzovka and Revolution, Volume II* Theodore H. Friedgut,2017-03-14 In 1870 the Welsh ironmaster John James Hughes left his successful career in England and settled in the barren and underpopulated Donbass region of the Ukrainian steppe to found the town of Iuzovka and build a large steel plant and coal mine Theodore Friedgut tells the remarkable story of the subsequent economic and social development of the Donbass an area that grew to supply seventy percent of the Russian Empire s coal and iron by World War I The first volume of this two volume study focused on the social and economic development of the Donbass while the second volume is devoted to political analysis While revealing the grand and tragic sweep of revolutionary events in this region Friedgut also offers a fascinating picture of the heterogeneous population of these frontier settlements He analyzes the instability of the revolutionary movement and in particular the absence of a significant stratum of worker intelligentsia and the inhibiting effect that this had on the development of an indigenous workers movement In addition he reinforces the theory that World War I intensified existing social tensions in the Russian Empire cutting short the slow but steady modernization of Russia s society and politics and creating the social crisis that led to the collapse of the old regime Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

change between 1700 and 1935 through the experiences of Orthodox convents in Nizhnii Novgorod diocese Focusing primarily on the Convent of the Exaltation of the Cross William G Wagner places the women s experiences in the broader context of developments in female monasticism and religious life in Russia as well as in Europe and North America over the same period This is the first comprehensive study that follows a Russian convent through all the stages of its life from its origins in the eighteenth century to its flourishing at the turn of the twentieth century to its resistance to Soviet assault and finally to its rebirth in the 1920s By the late nineteenth century the Convent of the Exaltation of the Cross and the other convents and women s religious communities in Nizhnii Novgorod diocese constituted a reimagined form of a traditional Orthodox monastic community Wagner shows how these nuns and novices adapted to the conditions of emergent modernity in a distinctively Orthodox way When almost everything but their communal life work and worship and their sacred spaces had been stripped away and they were subject to the socialist state s efforts at subversion the sisters of the Convent of the Exaltation of the Cross and the other convents in the diocese created an authentic Christian community that gave their lives a collective meaning In this way they were able to lead a rewarding life and survive the early years of Soviet Russia *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Autocracy in the Provinces** Valerie Ann Kivelson, 1996 This book explores the possibilities for rich and varied social cultural and political development under the rule of an autocratic state The author situates Muscovite history within a comparative framework demonstrating that seventeenth century Russia was neither backward nor peculiar but developed its own variant of the concurrent state building processes of Western European monarchies
