**Earth Follies** Joni Seager, 2019-03-21 First published in 1993 The question of agency is essential to our understanding of environmental problems who is responsible and why Threats such as ozone depletion global warming and overconsumption are all precipitated by the powerful institutions which shape modern life institutions which are overwhelmingly controlled by men and dominated by masculine presumptions Joni Seager argues that the gender bias inherent in western culture is inextricably linked to our environmental crisis She analyses the traditional institutes of power governments the military and transnational corporations and also takes a critical look at the equally patriarchal environmental establishment comparing the work of the official environmental movement grounded in masculine thought with the smaller scale direct actions taken by women driven to protect their homes and communities Earth Follies represents an incisive and utterly convincing feminist critique of our environmental crises and offers radical and productive priorities for the environmental agenda *Theology*

**Frontier** Matthew Wilhelm Kapell, 2016-02-19 The 1960s and early 70s saw the evolution of Frontier Myths even as scholars were renouncing the interpretive value of myths themselves Works like Joe Haldeman's The Forever War exemplified that rejection using his experiences during the Vietnam War to illustrate the problematic consequences of simple mythic idealism Simultaneously Americans were playing with expanded and revised versions of familiar Frontier Myths though in a contemporary context through NASA's lunar missions Star Trek and Gerard K O'Neill's High Frontier This book examines the reasons behind the exclusion of Frontier Myths to the periphery of scholarly discourse and endeavors to build a new model for understanding their enduring significance This model connects NASA's failed attempts to recycle earlier myths wholesale to Star Trek's revision of those myths and rejection of the idea of a frontier paradise to O'Neill's desire to realize such a paradise in Earth's orbit This new synthesis defies the negative connotations of Frontier Myths during the 1960s and 70s and attempts to resuscitate them for relevance in the modern academic context The Cambridge Companion to F. **Literary Subterfuge and Contemporary Persian Fiction** Mohammad Khorrami, 2014-09-25. The main focus of *Literary Subterfuge and Contemporary Persian Fiction* is to identify components and elements which define Persian modernist fiction, placing an emphasis on literary concepts and devices which provide the dynamics of the evolutionary trajectory of this modernism. The question of who writes Iran refers to a contested area which goes beyond the discipline of literary criticism. Non-literary discourses have made every effort to impose their committed readings on literary texts; they have even managed to exert influence on the process of literary creation. In this process, inevitably, many works or segments of them and many concepts which do not lend themselves to such readings have been ignored. At the same time, many of them have been appropriated by these discourses. Yet components and elements of Persian literary tradition have persistently engaged in this discursive confrontation, mainly by insisting on literature's relative autonomy, so that at least concepts such as conformity and subterfuge, essential in terms of defining modern and modernist Persian fiction, could be defined in a literary manner. Proffering an alternative in terms of literary historiography, this book supports a methodological approach that considers literary narratives which occur in the margins of dominant discourses and indeed promote non-discursivity as the main writers of Persian modernist fiction. It is an essential resource for scholars and researchers interested in Persian and comparative literature, as well as Middle Eastern Studies more broadly.

[The Majesty of Islamic Art and Architecture](#) Sharmin Khan, Kheir Al-Kodmany, Mohd Khalid Hassan, M. Farhan Fazli, 2024-08-22. The book systematically delves into the complex intersection of Islam with art and architecture, unraveling the profound philosophical and aesthetic foundations that serve as the bedrock for Islamic artistic expressions. Commencing with comparative analyses of geometric patterns in traditional and contemporary Indo-Islamic architecture, it unveils the enduring significance of these patterns in India's architectural legacy. Moving through the pages, the narrative unfolds the intricacies of the Mughal era, thoroughly examining the role of geometric ornamentation in Mughal buildings and its transformative impact on the grandeur of Mughal architecture. Additionally, the discourse navigates the spiritual and metaphysical dimensions inherent in Islamic gardens, dissecting their elements through Quranic references and elucidating their sacred connections.
