Paradise Of God Renewing Religion In An Ecological Age:

The Paradise of God Norman Wirzba, 2003-09-11 And God said Let us make man in our image after our likeness and let them have dominion over the fish of the sea and over the fowl of the air and over the cattle and over all the earth and over every creeping thing that creepeth upon the earth Gen 1 26 It has become a commonplace that Biblical religion bears a heavy share of responsibility for our destruction of the environment and this passage from the King James version of the Bible exemplifies what is generally believed to be the Biblical attitude toward the earth In this provocative book however Norman Wirzba argues that the doctrine of creation when understood as a statement about the moral and spiritual meaning of the world actually holds the key to a true understanding of our place in the environment and our responsibility toward it Wirzba contends that an adequate response to environmental destruction depends on a new formulation of ourselves as part of a created whole rather than as autonomous unencumbered individuals Drawing on the work of biblical scholars ecologists agrarians philosophers theologians and cultural critics Wirzba develops a comprehensive worldview that grows out of the idea that the world is God's creation While the text of Genesis has historically encouraged a vision of persons as masters of creation a more theologically and ecologically sensitive rendering he says would be to say that we are servants of creation Our present culture Wirzba believes results from a denial of creation that has caused modern problems as diverse as rootlessness individualism careerism boredom and consumerism The recovery of the meaning of creation can lead to a renewed sense of human identity and vocation and happier more peaceful lives He concludes by offering practical advice for individuals who wish to begin the work of transformation and renewal Moving beyond the usual political debates The Paradise of God Norman Wirzba, 2003

Scripture, Culture, and Agriculture Ellen F. Davis, 2008-10-13 This book examines the theology and ethics of land use especially the practices of modern industrialized agriculture in light of critical biblical exegesis Nine interrelated essays explore the biblical writers pervasive concern for the care of arable land against the background of the geography social structures and religious thought of ancient Israel This approach consistently brings out neglected aspects of texts both poetry and prose that are central to Jewish and Christian traditions Rather than seeking solutions from the past Davis creates a conversation between ancient texts and contemporary agrarian writers thus she provides a fresh perspective from which to view the destructive practices and assumptions that now dominate the global food economy The biblical exegesis is wide ranging and sophisticated the language is literate and accessible to a broad audience

Coming Home to Earth Mark S. Bocker, 2016-09-13 As a young Norwegian Lutheran teenager in rural Wisconsin Bocker lay awake one night worrying whether he believed in Jesus enough to get to heaven This getting to heaven anxiety reflected an excessive focus on individual salvation and a loss of concern for the well being of the Earth community A faith journey that leaves Earth behind is misguided Ever since those early teen years Bocker has been on a journey to come home to Earth Coming Home to Earth

makes the case that there is no salvation apart from Earth and that Earth care is at the core of our identity and mission as followers of Jesus. The ecological consequences of a loss of concern for the well being of Earth have been devastating. Brocker is especially concerned to determine what will motivate followers of Jesus to make radical changes in our way of life so that we can participate in the healing of wounded Earth and all of its inhabitants both human and nonhuman. We are far more likely to make needed sacrifices for our fellow creatures if we share God's delight in and affection for them and cherish Earth as our home.

Oikos: God's Big Word for a Small Planet Andrew Francis, 2017-04-25. How you spend your time and money controls what happens on this planet. Planet Earth and its people are in danger. We face ongoing economic and ecological crises. These will deepen unless all of God's people begin to act as one global community. Natural resources are diminishing and the economic world order is changing. We cannot go on living as though we can call up another planet. Change is needed now and this book addresses that. The biblical vision of the world as oikos meaning household is God's challenge to all people about the way we live now and in the future. Oikos affirms the need for reconciliation and peace between faiths and nations and should determine our economic practices and how we care for the planet. In this timely and challenging book is a renewed call to follow the Maker's instructions. Whether it is 9/11, Chernobyl or the 2008 financial crash that call for change is repeating itself. This book not only explains why we need to change but also provides practical advocacy of how you can help to achieve it.

Beyond Homelessness Steven Bouma-Prediger, Brain J. Walsh, 2008-06-03. This book is a brilliant use of metaphor that makes clear why the world leaves us feeling so uneasy.

Preaching Creation John C. Holbert, 2012-01-06. The human race along with the animals and plants that make up the creation of God face a difficult future due to the multiple ways that the ecosystem on which they all depend is currently under stress. Temperatures are rising along with the oceans. Rain forests are falling along with the polar ice caps. Questions of the environment are now front and center in any catalog of concerns. Those who are called to preach need to include in the subjects of their sermons these environmental issues. Our Bible contains significant resources often overlooked as bases on which powerful environmental sermons can be preached. This book introduces the subject of preaching and the environment offering close looks at important biblical passages that address the cosmos of God and presenting sample sermons founded on those passages. The book calls for preachers both to name the vast problems we face and to offer the hope of the gospel of God to address them.

A Primer in Ecotheology Celia E. Deane-Drummond, 2017-09-22. This book serves as an introduction to the burgeoning field of ecotheology illustrating both its variety and its commonality across different Christian theological divides. Some of the questions addressed in this short book include the following: How can the Bible still make sense in the context of climate change and biodiversity loss? Who on earth is Jesus Christ and what does he mean for us in today's world? How can Christians be faithful to their traditions while responding to pressing calls to be engaged in environmental activism? What is the relationship between theory and practice and local as well as global demands and how is this relationship expressed in different ecclesial settings? How can we

encourage each other to develop a sense of the earth as divine gift Written in clear accessible style this book walks readers through difficult concepts and shows the way different sources in Christian theology have responded to one of the most significant cultural issues of our time

A Reenchanted World James William Gibson, 2009-04-14 A surprising and enlightening investigation of how modern society is making nature sacred once again For more than two centuries Western cultures as they became ever more industrialized increasingly regarded the natural world as little more than a collection of useful raw resources The folklore of powerful forest spirits and mountain demons was displaced by the practicalities of logging and strip mining the traditional rituals of hunting ceremonies gave way to the indiscriminate butchering of animals for meat markets In the famous lament of Max Weber our surroundings became disenchanted with nature s magic swept away by secularization and rationalization But now as acclaimed sociologist James William Gibson reveals in this insightful study the culture of enchantment is making an astonishing comeback From Greenpeace eco warriors to evangelical Christians preaching creation care and geneticists who speak of human animal kinship Gibson finds a remarkably broad yearning for a spiritual reconnection to nature As we grapple with increasingly dire environmental disasters he points to this cultural shift as the last utopian dream the final hope for protecting the world that all of us must live in

Beyond Homelessness, 15th Anniversary Edition Steven Bouma-Prediger, Brian J. Walsh, 2023-09-12 What would the world look like if everyone had a home The rise in homeless encampments The destruction of our planet The disconnection from place caused by capitalism and technology Beyond the unavailability of housing our culture is experiencing a devastating loss of home In *Beyond Homelessness* Steven Bouma Prediger and Brian Walsh explore the relationship between socioeconomic ecological and cultural homelessness Bouma Prediger and Walsh blend groundbreaking scholarship with stirring biblical meditations while enriching their discussion with literature music and art Offering practical solutions and a hope filled vision of home they show how to heal the deep dislocations in our society In this fifteenth anniversary edition the authors return to their work with a new postscript in which they discuss the evolution of their ideas and share true stories of home and community built anew This revitalized classic is a must read for any Christian committed to social justice and anyone longing for home

The Global Food System William D. Schanbacher, 2014-07-23 This detailed analysis of the global food system looks at the way food is produced distributed and consumed in an effort to create a more equitable and healthful system worldwide With large scale famine afflicting regions around the globe and overconsumption and unhealthy eating habits destroying others many are beginning to wonder if access to food is less of a class based social problem and more of an ethical issue affecting the lives and livelihoods of people all over the world This thoughtful text provides a thorough examination of the factors contributing to this global concern exploring the complexities of international food supply and demand as well as the efforts to bring about a more just global food system Through this groundbreaking volume author and educator Will Schanbacher sheds light on flaws in the current structure and suggests ways to achieve a more balanced approach He

considers the economics politics and activism behind and involved in the production distribution and consumption of the global food system In an effort to illuminate many problems associated with hunger inequality and injustice in the food system the book also offers many potential strategies and solutions for making a more healthy sustainable and equitable world Chapters contain both theoretical models and concrete practices for food security and offer strategies for creating an equitable system

How To Do Christian Ethics Brian Brock, Nadine Hamilton, Daniel R. Patterson, 2025-05-29 Discover how pressing contemporary moral issues can be approached and discussed in a distinct and coherently theological fashion This book displays a more direct approach that has the distinct advantage of being approachable dramatic and contemporary It introduces the reader to the grammar of Christian moral reasoning and expands upon its intricate inner workings By demonstrating ways in which a Christian believer or congregation can think through specific moral issues the volume serves a church desiring to witness God's love in genuine and contextually truthful ways Each chapter approaches its subject matter by demonstrating how the sources of Christian moral reasoning Scripture and church doctrine can be imaginatively brought to bear on contemporary moral perplexities The form of teaching practices here makes tangible the ways in which the Christian gospel clearly and even penetratingly illumines our contemporary moral contexts

The Spirit of the Appalachian Trail Susan Power Bratton, 2013-08-30 Want to know what wilderness means to people who live it for over two thousand miles Then read this extremely interesting informative intelligent and thoughtful book Roger S Gottlieb author of Engaging Voices Tales of Morality and Meaning in an Age of Global Warming There is no doubt that Bratton's book will be of value to students and scholars of leisure studies recreation and religion Those who are familiar with the Appalachian Trail sense intuitively that a journey along its length kindles spiritual awakening this book provides the hard data to prove it's true David Brill author of As Far as the Eye Can See Reflections of an Appalachian Trail Hiker The Appalachian Trail covers 2 180 miles passing through fourteen states from Georgia to Maine Each year an estimated 2 3 million people visit the trail and almost two thousand attempt a thru hike walking the entire distance of the path For many the journey transcends a mere walk in the woods and becomes a modern day pilgrimage In The Spirit of the Appalachian Trail Community Environment and Belief Susan Power Bratton addresses the spiritual dimensions of hiking the Appalachian Trail AT Hikers often comment on how their experience as thru hikers changes them spiritually forever but this is the first study to evaluate these religious or quasireligious claims critically Rather than ask if wilderness and outdoor recreation have benefits for the soul this volume investigates specifically how long distance walking might enhance both body and mind Most who are familiar with the AT sense intuitively that a trek along its length kindles spiritual awakening Using both a quantitative and qualitative approach this book provides the hard data to support this notion Bratton bases her work on five sources an exhaustive survey of long distance AT hikers published trail diaries and memoirs hikers own logs and postings her own personal observations from many years on the trail and conversations with numerous members of the AT community including the trail angels residents

Landscapes of the Secular Nicolas Howe, 2016-09-05 What does it mean to see the American landscape in a secular way asks Nicolas Howe at the outset of this innovative ambitious and wide ranging book It s a surprising question because of what it implies we usually aren t seeing American landscapes through a non religious lens but rather as inflected by complicated little examined concepts of the sacred Fusing geography legal scholarship and religion in a potent analysis Howe shows how seemingly routine questions about how to look at a sunrise or a plateau or how to assess what a mountain is both physically and ideologically lead to complex arguments about the nature of religious experience and its implications for our lives as citizens In American society nominally secular but committed to permitting a diversity of religious beliefs and expressions such questions become all the more fraught and can lead to difficult often unsatisfying compromises regarding how to interpret and inhabit our public lands and spaces A serious commitment to secularism Howe shows forces us to confront the profound challenges of true religious diversity in ways that often will have their ultimate expression in our built environment This provocative exploration of some of the fundamental aspects of American life will help us see the land law and society anew

Nature and Time Dong In Baek, 2024-12-30 Unveil the intricate tapestry of faith and reason in Nature and Time Integrative Dialogues in History and Theology This insightful work bridges the gap between traditional Christian thought and contemporary scientific understanding Delving deep into the evolving role of natural theology it explores how human reason and empirical observation intertwine with divine revelation From the hierarchical dance between natural and revealed theology to the pressing political and ecological challenges of our time this book offers a fresh lens through which to view the divine in the modern world Journey through philosophical perspectives on time understand divine action in new dimensions and grapple with the global struggle against oppression all while discovering the enduring relevance of natural theology By weaving together insights from ecology cosmology and neuroscience it fosters a dynamic dialogue that enriches both science and spirituality Whether a theologian seeking depth a scientist exploring beyond the empirical or a curious mind yearning for meaning this book invites the reader to a transformative exploration Engage with a framework that not only addresses the complexities of the world but also fosters a deeper understanding of the divine in every aspect of life

Ethics Lost in Modernity Matthew Vest, 2023-07-21 Ethics Lost in Modernity Reflections on Wittgenstein and Bioethics turns to the philosopher Ludwig Wittgenstein as a guide to understand the immense success yet great danger of bioethics Matthew Vest

traces the story of bioethics since its inception in the late 1960s as a way to uncover a number of hidden assumptions within modern ethics that relies upon scientific theorizing as the fundamental way of thinking. Autonomy and utilitarianism in particular are two nearly unquestioned goals of scientific theorizing that are easily accessible but at what cost. Vest argues that such an ethics enacts a thin moral calculation that runs the risk of enslaving ethics to scientism. Far from the depth of religious ethos and practices of virtue, modern ethics is lost amidst thin ethical theories enacting a language game that instrumentalizes ethics in service of technological, bureaucratic, and professional end goals. He proposes that true moral living is far from anti-science but rather is envisioned best when ethics and science are balanced with keen insights from ancient sacred cosmology.

The Oxford Handbook of Postcolonial Biblical Criticism R. S. Sugirtharajah, 2023. The Oxford Handbook of Postcolonial Biblical Criticism is a comprehensive treatment of a relatively new form of scholarship. Generally speaking, postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought. This approach has inevitably engaged with the text and reception of the Bible, a scripture that Western colonizers introduced to and often imposed upon their colonial subjects. With a globally diverse list of contributors, the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism, resistance, decolonization, and nationalism.

Kicking at the Darkness Brian J. Walsh, 2011-12-01. For forty years, singer and songwriter Bruce Cockburn has been writing beautifully evocative music. Bestselling author and respected theologian Brian Walsh has followed Cockburn's work for years and has written and spoken often on his art. In this creative theological and cultural engagement, Walsh reveals the imaginative depth and uncompromising honesty of the artist's Christian spirituality. Cockburn offers hope in the midst of doubt, struggle, failure, and anger; indeed, the sentiment of kicking at the darkness is at the heart of his spirituality. This book engages the rich imagery of Cockburn's lyrics as a catalyst for shaping and igniting a renewed Christian imagination.

The Shape of Participation L. Roger Owens, 2010-03-01. The Shape of Participation is a work of constructive theology addressed to theologians, seminarians, and thoughtful pastors. Owens engages and deepens recent popular discussions of church practices by approaching practices from the church Fathers' understanding of the church's participation in God. Through a wide-ranging engagement with theologians both ancient and contemporary, including Cyril of Alexandria, Maximus the Confessor, Dietrich Bonhoeffer, and Herbert McCabe, Owens argues that the embodied practices of the church are the church's participation in the life of God, making the church Jesus' own continued peaceable embodiment in and for the world. This book is for theologians, pastors, and anyone who wants a deeper understanding of how the visible presence of God's church is extraordinarily good news in a violent world.

Everyday Spirituality S. MacKian, 2012-02-07. This book puts spirit back at the heart of spirituality. By exploring the everyday impacts of alternative spiritual beliefs and practices, the book examines contemporary spirituality and how critical social science can map and understand it.
