Public Accountability of Foundations and Charitable Trusts Eleanor Kendrick Taylor, 1953 **The Politics of Accountability in the Modern State** Matthew Flinders, 2017-10-05 This title was first published in 2001 In this compelling work Matthew Flinders examines how far alternative forms of accountability have evolved and the extent to which they remedy the current shortcomings of the parliamentary system Adopting a pluralistic perspective this exploration of the accountability of the core executive is clearly grounded in research methodology thus ensuring the book makes a valid incisive contribution to the literature Features include A detailed study of the location of power and mechanisms of accountability in modern government which challenges the largely prosaic existing literature Useful summaries of the key tensions and trends within constitutional infrastructure A new and refreshing approach to the study of central government Insightful critiques of major governmental policies This intriguing volume will be of interest to undergraduates post graduates and lecturers for courses on legislative studies central government reform public administration British politics and research methods *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986*, 1987 Partnerships and Foundations in Global Health Governance S. Rushton, O. Williams, 2011-02-01 This book argues that the new actors in global health constitute a private turn in global health governance and provides theoretical and practical grounds for viewing global health partnerships and philanthropic foundations as closely aligned in their ideational and material approaches to a range of important issues and crises **Public Services Inspection in the UK** Howard Davis, Steve Martin, 2008 This text provides a detailed account of the changing role of inspection in public services management It outlines the continuing debates about providing inspection that encourages not only accountability but also effective service provision and best practice **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954**, 2004 **In the Matter of Representative Charles B. Health Resources Administration, 1973 **The New Public Service** Janet V. Denhardt, Robert B. Denhardt, 2015-03-12 The New Public Service Serving not Steering provides a framework for the many voices calling for the reaffirmation of democratic values citizenship and service in the public interest It is organized around a set of seven core principles 1 serve citizens not customers 2 seek the public interest 3 value citizenship and public service above entrepreneurship 4 think strategically act democratically 5 recognize that accountability isn't simple 6 serve rather than steer and 7 value people not just productivity The New Public Service asks us to think carefully and critically about what public service is why it is important and what values ought to guide what we do and how we do it It celebrates what is distinctive important and meaningful about public service and considers how we might better live up to those ideals and values The revised fourth edition includes a new chapter that

examines how the role and significance of these New Public Service values have expanded in practice and research over the past 15 years Although the debate about governance will surely continue for many years this compact clearly written volume both provides an important framework for a public service based on citizen discourse and the public interest and demonstrates how these values have been put into practice It is essential reading for students and serious practitioners in public administration and public policy

The Constitutional Legitimacy of Law Officers in the United Kingdom Conor McCormick, 2022-07-14 This book provides a detailed account of each law officer's functions and draws on that account as the basis for a conceptual analysis of their constitutional legitimacy In recent years the constitutional legitimacy of law officers has been questioned repeatedly because of recurring controversies surrounding the discharge of their varied functions Indeed it has become increasingly clear that those functions enable law officers to play a highly influential part in the regulation and exercise of public power throughout the United Kingdom McCormick argues that the most persuasive framework for analysing the offices which make up this diverse regime involves concentrating on the constitutional values of independence accountability and trust which underpin it Both aspects of the book namely the explanation of individual functions and the conceptual analysis of collective legitimacy are written in a holistic way which encompasses critical analyses about the Attorney General and Solicitor General for England and Wales the Counsel General for Wales the Lord Advocate Solicitor General and Advocate General for Scotland as well as the Attorney General and Advocate General for Northern Ireland

Australian Constitutional Values

Rosalind Dixon, 2018-02-08 Vigorous debate exists among constitutional scholars as to the appropriate modalities of constitutional argument and their relative weight Many scholars however argue that one important modality of constitutional argument involves attention to

underlying constitutional purposes or values In Australia this kind of values oriented approach has been advocated by leading constitutional scholars and also finds support in the judgments of the High Court at various times particularly during the Mason Court era Much of the scholarly debate on constitutional values to date however focuses on whether the Court should in fact look to constitutional values in this way not the kinds of values the Court should consider given such an approach This book responds to this gap in the existing scholarly literature by inviting a range of leading Australian constitutional lawyers and scholars to address the relevance and scope of various substantive constitutional values and how they might affect the Court s approach to constitutional interpretation in various contexts It is essential reading for anyone seeking a deeper understanding of Australia s constitutional system **The Evaluation Enterprise** Jan-Eric Furubo,Nicoletta

Stame,2018-06-27 Today evaluation is part of governing systems and is supported by powerful institutions It is taken for granted that evaluation leads to betterment However evaluation itself is seldom analyzed from a critical perspective In this book Jan Eric Furubo and Nicoletta Stame have assembled an international line up of distinguished experts and emerging scholars to fill this void Examining evaluation from a critical or evaluative perspective each contribution in this book offers a systematic and critical insight into the broader relationship between evaluation and society Divided into three parts the various chapters ask questions such as What are the consequences of the institutionalization of evaluation Has the professionalization of evaluators favored their action in the public interest Is the money spent on evaluation worth it Is the market of evaluation allowing real competition for the best services The answers to these questions demonstrate that the constitutive effects of the social practice of evaluation can also be the suppression of other forms of knowledge and the favoring of certain notions about societal development and political and administrative processes **Clearinghouse**
