Kates Shulman, 1972 The ^A Claims of Experience Nolan Bennett, 2019-08-21 Autobiography from Frederick Douglass's Narrative of the Life to J D Vance's Hillbilly Elegy has long been a popular genre that both authors and readers have utilized to understand particular political moments As this book argues such narratives have also contributed to the development of American political thought despite the fact that the field has not taken autobiography seriously as political theory in its own right This book considers the political contexts in which Benjamin Franklin Frederick Douglass Henry Adams Emma Goldman and Whittaker Chambers wrote their autobiographies to better understand not only the political problems to which autobiographical works can be a solution but the broader appeal of such claims of experience to the everyday life of democratic politics *Reframing the Reclaiming of Urban Space* Megan E. Heim

LaFrombois, 2017-11-30 In Reframing the Reclaiming of Urban Space A Feminist Exploration into Do It Yourself Urbanism in Chicago Megan E Heim LaFrombois explores the concept of do it yourself DIY urbanism from an intersectional feminist analytical framework Interventions based on DIY urbanism are small scale and place specific and focus on urban spaces which can be reclaimed and repurposed often outside of formal urban planning institutions Heim LaFrombois examines the discourses and processes surrounding the institutionalized and embedded nature of DIY urbanism She weaves together sites

and sources to reveal the ways in which DIY urbanists make sense of their participation and experiences with DIY urbanism and with the broader political social and economic contexts and spaces in which these activities take place Her research findings contribute to and build on current research that illustrates the importance of gender race class and sexuality to cities local politics urban planning initiatives and the development of communities [Red Emma Speaks](#) Emma Goldman,1972 The controversial writings of Emma Goldman early 20th century anarchist and feminist **Transnational Radicals** Travis Tomchuk,2015-04-17 Italian anarchism emerged in the latter half of the nineteenth century during that country s long and bloody unification Often facing economic hardship and political persecution many of Italy s anarchists migrated to North America Wherever Italian anarchists settled they published journals engaged in labour and political activism and attempted to re create the radical culture of their homeland Transnational Radicals examines the transnational anarchist movement that existed in Canada and the United States between 1915 and 1940 Against a backdrop of brutal and open class war with governments calling upon militias to suppress strikes radicals thrown in jail for publicly speaking against capitalism and the church and those of foreign birth being deported and even executed for political activities Italian anarchism was successfully transplanted Transnationalism made it more difficult for states to destroy groups spread across wide geographical spaces In Italy and abroad the strong anarchist identity informed by class ethnicity and gender reinforced movement values promoted movement expansion and assisted mobilization during times of crisis In Transnational Radicals Tomchuk makes use of Italian government security files and Italian language anarchist newspapers to reconstruct a vibrant and little studied political movement during a tumultuous period of modern North American history *Social Problems and Inequality* John Alessio,2016-04-01 Social Problems and Inequality explores integrated and root cause based explanations of complex social problems Written in clear and understandable language allowing it to be used for classroom purposes it addresses the most fundamental principles of how humans acting through social units create and eventually can remedy social problems With a central focus on the problem of inequality and the manner in which this is manifested in crime social class and stratification this book examines the key theoretical perspectives relevant to the study and solution of social problems whilst drawing upon rich illustrations and case studies from the US and Europe to offer a thorough examination of the nature common root causes and social remedies of social problems Providing discussions of both theoretical approaches and concrete applications Social Problems and Inequality investigates the sources of various prejudices and attitudes that contribute to social problems and the associated issues of globalization economic greed and imperialism Accessible in style and comprehensive in its coverage this book will appeal to students and scholars of social problems across the social sciences **Comparative Just War Theory** Luis Cordeiro-Rodrigues,Danny Singh,2019-10-23 Widespread cross cultural and cross ideological agreement on the justifiable limits of war has become an increasingly complex yet vital element of global peace and conflict policies Lu s Cordeiro Rodrigues and Danny Singh bring together a truly international cohort of philosophers

Undomesticated Ground Stacy Alaimo, 2019-01-24 From Mother Earth to Mother Nature women have for centuries been associated with nature Feminists troubled by the way in which such representations show women controlled by powerful natural forces and confined to domestic space have sought to distance themselves from nature In *Undomesticated Ground* Stacy Alaimo issues a bold call to reclaim nature as feminist space Her analysis of a remarkable range of feminist writings as well as of popular journalism visual arts television and film powerfully demonstrates that nature has been and continues to be an essential concept for feminist theory and practice Alaimo urges feminist theorists to rethink the concept of nature by probing the vastly different meanings that it carries She discusses its significance for Americans engaged in social and political struggles from for example the Indian Wars of the early nineteenth century to the birth control movement in the 1920s to contemporary battles against racism and heterosexism Reading works by Catherine Sedgwick Mary Austin Emma Goldman Nella Larsen Donna Haraway Toni Morrison and others Alaimo finds that some of these writers strategically invoke nature for feminist purposes while others cast nature as a postmodern agent of resistance in the service of both environmentalism and the women's movement By examining the importance of nature within literary and political texts this book greatly expands the parameters of the nature writing genre and establishes nature as a crucial site for the cultural work of feminism

post modern readings of Nietzsche and consider their appropriateness or otherwise for anarchists These specific engagements with contemporary interpretations of Nietzsche are complemented by two essays focusing on specific aspects of Nietzsche s work from anarchist perspectives John Moore provides an anarchist post situationist interpretation of Nietzsche s aesthetics and Peter Lamborn Wilson considers the Islamic dimensions of Nietzsche s philosophy
