The Rise of Nations in the Soviet Union Council on Foreign Relations, 1991 In this collection of essays five experts on the Soviet Union describe the disintegration of the Soviet empire and its implications for American policy It begins with a historical overview of the multinational character of Russia and the Soviet Union with special attention to the similarities and differences between the present moment and the years immediately following the revolution of 1917 Other essays assess the strength of nationalism in the Soviet West the Baltics the Slavic republics of Belorussia Ukraine and Russia and Moldova and the Soviet South including Armenia Azerbaijan Georgia and the five largely Muslim republics of Central Asia Kazakhstan Uzbekistan Tajikistan Turkmenistan and Kirghizia The volume concludes with a look at the issues that the upheaval in the 15 republics presents for U S foreign and security policy ISBN 0 87609 100 1 pbk 14 95 Coercion, Cooperation, and Ethics in International Relations Richard Ned Lebow, 2007-05-07 This volume brings together the recent essays of Richard Ned Lebow one of the leading scholars of international relations and US foreign policy Lebow's work has centred on the instrumental value of ethics in foreign policy decision making and the disastrous consequences which follow when ethical standards are flouted Unlike most realists who have considered ethical considerations irrelevant in states calculations of their national interest Lebow has argued that self interest and hence national interest can only be formulated intelligently within a language of justice and morality The essays here build on this pervasive theme in Lebow's work by presenting his substantive and compelling critique of strategies of deterrence and compellence illustrating empirically and normatively how

these strategies often produce results counter to those that are intended The last section of the book on counterfactuals brings together another set of related articles which continue to probe the relationship between ethics and policy They do so by exploring the contingency of events to suggest the subjective and often self fulfilling nature of the frameworks we use to evaluate policy choices

The American Century and Beyond George C. Herring, 2017-01-23 In his last years as president of the United States an embattled George Washington yearned for a time when his nation would have the strength of a Giant and there will be none who can make us afraid At the turn of the twentieth century the United States seemed poised to achieve a position of world power beyond what even Washington could have imagined In *The American Century and Beyond* U S Foreign Relations 1893 2014 the second volume of a new split paperback edition of the award winning *From Colony to Superpower* George C Herring recounts the rise of the United States from the dawn of what came to be known as the American Century This fast paced narrative tells a story of stunning successes and tragic failures illuminating the central importance of foreign relations to the existence and survival of the nation Herring shows how policymakers defined American interests broadly to include territorial expansion access to growing markets and the spread of the American way of life He recounts the United States domination of the Caribbean and Pacific its decisive involvement in two world wars and the eventual victory in the half century Cold War that left it after the collapse of the Soviet Union the world's lone superpower But the unipolar moment turned out to be stunningly brief Since the turn of the twenty first century conflicts in Afghanistan and Iraq and the emergence of nations such as Brazil Russia India and China have left the United States in a position that is uncertain at best A new chapter brings Herring's sweeping narrative up through the Global War on Terror to the present

Ronald Reagan and His Quest to Abolish Nuclear Weapons Paul Lettow, 2006-02-14 In *Ronald Reagan and His Quest to Abolish Nuclear Weapons* Paul Lettow explores the depth and sophistication of President Ronald Reagan's commitment to ridding humankind permanently of the threat of nuclear war Lettow's narrative spans the start of Reagan's presidency and the 1986 Reykjavik summit between Reagan and Soviet leader Mikhail Gorbachev during which America's Strategic Defense Initiative SDI was a defining issue Lettow reveals SDI for what it was a full on assault against nuclear weapons waged as much through policy as through ideology While cabinet members and advisers played significant roles in guiding American defense policy it was Reagan himself who presided over every element large and small of this paradigm shift in U S diplomacy Lettow conducted interviews with several former Reagan administration officials and he draws upon the vast body of declassified security documents from the Reagan presidency much of what he quotes from these documents appears publicly here for the first time The result is the first major work to apply such evidence to the study of SDI and superpower diplomacy This is a survey that doesn't merely add nuance to the existing record but revises our very understanding of the Reagan presidency
