Russian America Ilya Vinkovetsky, 2011-04-06 From 1741 until Alaska was sold to the United States in 1867 the Russian empire claimed territory and peoples in North America In this book Ilya Vinkovetsky examines how Russia governed its only overseas colony illustrating how the colony fit into and diverged from the structures developed in the otherwise contiguous Russian empire Russian America was effectively transformed from a remote extension of Russia's Siberian frontier penetrated mainly by Siberianized Russians into an ostensibly modern overseas colony operated by Europeanized Russians Under the rule of the Russian American Company the colony was governed on different terms than the rest of the empire a hybrid of elements carried over from Siberia and imported from rival colonial systems Its economic labor and social organization reflected Russian hopes for Alaska as well as the numerous limitations such as its vast territory and pressures from its multiethnic residents it imposed This approach was particularly evident in Russian strategies to convert the indigenous peoples of Russian America into loyal subjects of the Russian Empire Vinkovetsky looks closely at Russian efforts to acculturate the native peoples including attempts to predispose them to be more open to the Russian political and cultural influence through trade and Russian Orthodox Christianity Bringing together the history of Russia the history of colonialism and the history of contact between native peoples and Europeans on the American frontier this work highlights how the overseas colony revealed the Russian Empire's adaptability to models of colonialism *A History of Russian Christianity. Mandelstam Brown, 1973-10-26 Osip Mandelstam who died in 1938 in one of Stalin's labour camps is one of the greatest poets of this century Brown's 1978 volume is a very full and important book which tells of Mandelstam's earlier life and gives an introduction to the poetry Professor Brown tells as much as will probably ever be known about Mandelstam's early life his studies his literary relationships and recreates in piquant detail the intellectual world of prerevolutionary St Petersburg Indeed the criticism of Mandelstam's three collections of poetry quoted both in Russian and

in translation manages the seemingly impossible the reader with no Russian begins to grasp as though at first hand how this poetry makes its effects and he senses its originality and importance and its place in European literature Professor Brown here presents the first critical study of the life and works

<https://vidjambov.blogspot.com> 2023 01 book inventory vladimir djambov talmach.html Teaching in defense of the Orthodox faith in the exposure of atheism and in the refutation of the doctrines of unbelief Apostasy from the true faith can manifest itself in the following forms

- 1 In the distortion distortion of the true content of the doctrine in the change of its dogmas i e in heresies
- 2 In false belief or in denial of all Christianity but with the preservation of faith in God as among the Mohammedans Jews pagans
- 3 In unbelief or in complete indifference to any faith in atheism that is in the denial of the objects of faith the existence of God the immortality of the soul
- 4 In fighting against God that is in an active struggle against any religious faith and in a fierce rebellion against God and all that is holy

The most widespread form of apostasy as Bishop Theophan the Recluse believes will be the perversion of true Christianity heresy or the so called false Christianity The Gospel will be known to everyone he writes but one part will remain in disbelief in him the other the largest will be heretical not following the teaching of God but building their own faith by their invention although on the basis of the word of God And all such will appropriate themselves the name of Christians There will be a part and containing the true faith as it was betrayed by the Holy Apostles and kept in the Orthodox Church but of these a considerable part will only be Orthodox by name but in their hearts they will not have the order that is required by faith having loved the present age Although the Christian name will be heard everywhere and everywhere churches and church orders will be seen but all this is only visibility but inside the retreat is complete On this soil on the soil of false and hypocritical Christianity the Antichrist will be born and will grow up in the same spirit of appearance without the essence of the matter Then surrendering to Satan he will clearly deviate from the faith and all who do not contain Christianity in truth will be carried away to a clear apostasy from Christ the Lord forcing

Between Heaven and Russia Sarah Riccardi-Swartz, 2022-04-05 How is religious conversion transforming American democracy In one corner of Appalachia a group of American citizens has embraced the Russian Orthodox Church and through it Putin s New Russia Historically a minority immigrant faith in the United States Russian Orthodoxy is attracting Americans who look to Russian religion and politics for answers to Western secularism and the loss of traditional family values in the face of accelerating progressivism This ethnography highlights an intentional community of converts who are exemplary of much broader networks of Russian Orthodox converts in the United States These converts sought and found a conservatism more authentic than Christian American Republicanism and a nationalism unburdened by the broken promises of American exceptionalism Ultimately both converts and the Church that welcomes them deploy the subversive act of adopting the ideals and faith of a foreign power for larger transnational political ends Offering insights into this rarely considered religious world including its far right political roots that nourish the embrace of Putin s Russia this ethnography shows how religious conversion is tied to larger issues of social politics allegiance anti democracy and citizenship These conversions offer us a window onto both global politics and foreign affairs while also allowing us to see how particular U S communities are grappling with social transformations in the twenty first century With broad implications for our understanding of both conservative Christianity and right wing politics as well as contemporary Russian American relations this book provides insight in the growing

constellations of far right conservatism While Russian Orthodox converts are more likely to form the moral minority rather than the moral majority they are an important gauge for understanding the powerful philosophical shifts occurring in the current political climate in the United States and what they might mean for the future of American values ideals and democracy

The World's Inhabitants, Or Mankind, Animals, and Plants George Thomas Bettany, 1888

Trust

Geoffrey Hosking, 2014-08-07 Today there is much talk of a crisis of trust a crisis which is almost certainly genuine but usually misunderstood Trust A History offers a new perspective on the ways in which trust and distrust have functioned in past societies providing an empirical and historical basis against which the present crisis can be examined and suggesting ways in which the concept of trust can be used as a tool to understand our own and other societies Geoffrey Hosking argues that social trust is mediated through symbolic systems such as religion and money and the institutions associated with them such as churches and banks Historically these institutions have nourished trust but the resulting trust networks have tended to create quite tough boundaries around themselves across which distrust is projected against outsiders Hosking also shows how nation states have been particularly good at absorbing symbolic systems and generating trust among large numbers of people while also erecting distinct boundaries around themselves despite an increasingly global economy He asserts that in the modern world it has become common to entrust major resources to institutions we know little about and suggests that we need to learn from historical experience and temper this with more traditional forms of trust or become an ever more distrustful society with potentially very destabilising consequences
