Russian Republics:

Inter-Republican Co-operation of the Russian Republic Anwara Begum, 2019-01-15 First published in 1997 this book explored Russia's politics at an important phase in the life of the Russian state Focusing on the different types of cooperative interactions between Russia and the fourteen other republics of the former Soviet Union from mid 1990 late 91 The book brings out the nature of the Russians effort to reconfigure its ties with these republics At a time when the Soviet empire with an aim to limit the damage to the interests of the Russians As the author concludes Russia's inter republican cooperation was a carefully thought out policy to undermine the Gorbachev government's effort to control centre periphery relations and manage the uncontrolled break up of the Soviet Union Russia signalled through its cooperative relations with the republics that it was willing to accept the republics as sovereign and view its own interaction with them as inter state relations

Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the
