Okinawa and the United States this is a valuable study for students and scholars of postwar Japan and migration history

Trade and Transfer Across the East Asian "Mediterranean" Angela Schottenhammer, 2005 The present volume is a collection of studies discussing trade and exchange relations across the East China Sea in the time period between c 1400 and 1840 It introduces and analyses characteristics of trade and exchange of economic and personal networks including knowledge transfer between East Asian countries the importance of which has for a long time been underestimated or misinterpreted The authors want to show that from the fifteenth to the early nineteenth century East Asia was far from being a group of more or less isolated states but was characterised by multifarious contacts and connections The countries or regions investigated include China Japan Korea the Ryūkyū Islands and Tsushima The contributions are subdivided according to topical themes and focus on sea and land routes archaeology trade and commodity exchange knowledge transfer and exchange in the field of medicine including physicians and European images of parts of East Asia Examining a great deal of sources ranging from diaries letters tomb inscriptions to commodity lists and government documents this volume sheds more light into hitherto neglected aspects of maritime trade

East Asian Maritime World

Vierzehnhundert Bis Achtzehnhundert Angela Schottenhammer, 2007 The volume is a collection of studies discussing aspects of the political economy and *raison d'état* of East Asian countries especially against the background of East Asia's integration into the international trade The contributions progress from the general to the particular the first contribution above all taking a broad perspective intended as a general outline of the political and economic history of this macro region The other contributions examine the East Asian world order in ideology and reality long perspective supra regional flows of money between China and the outer world the role of castaways and sea routes between Korea and China Sino Japanese relations in the mid sixteenth century the trade between China and Nagasaki aspects of Sino Ryūkyū relations and the role of translators in the East Asian maritime world The eighteenth century plays a key role in many contributions and time and again the reader will meet with groups of persons who played a particular role within the exchange networks of this early modern period such as monks acting as diplomats or interpreters

Kyushu: Gateway to Japan Andrew Cobbing, 2008-12-18 In this first major study of the region in English the author examines the key themes of Kyushu's history from earliest times the cultural interaction with the continental mainland settlement location and infrastructure as well as trade and commerce arguing that it was the principal stepping stone in terms of Japan's cultural social and economic advance through history up to the present day Although an integral part of Japan Kyushu is culturally distinct in that its location on the East China Sea has exposed the region to an unusually high degree of influence from overseas There was diplomatic exchange between this island and China for example even before the political entity of Japan came into existence Kyushu in fact has been the setting for many of the major cultural encounters in Japan's history from the introduction of Buddhism Confucianism and Christianity to gunpowder coffee and tea The volume also includes a colour plate section

containing 60 images which support the text and provide the reader researcher with invaluable pictorial references to Kyushu's history from earliest times to the present day

Unpredictable Agents Mari Yoshihara, 2021-10-31 In *Unpredictable Agents* twelve Japanese scholars of American studies tell their stories of how they encountered America and came to dedicate their careers to studying it. People in postwar Japan have experienced America in a number of ways through literature, material goods, popular culture, foodways, GI missionaries, art, political figures, celebrities, and business. As the Japanese public wrestled with a complex mixture of admiration and confusion, yearning and repulsion, closeness and alienation toward the US, Japanese scholars specializing in American studies have become interlocutors in helping their compatriots understand the country. In scholarly literature, these intellectuals are often understood as complicit agents in US Cold War liberalism. By focusing on the human dimensions of the intellectuals' lives and careers, *Unpredictable Agents* resists such a deterministic account of complicity while recognizing the relationship between power and knowledge and the historical and structural conditions in which these scholars and their work emerged. How did these scholars encounter America in the first place and what exactly constitutes the America they have experienced? How did they come to be Americanists and what does being Americanists mean for them? In short, what are the actual experiences of Japan's Americanists and what are their relationships to America? Reflecting both the interlocked web of politics, economics, and academics as well as the evolving contours of Japan's Americanists, the essays highlight the diverse paths through which these individuals have come to be Americanists and the complex meanings that identity carries for them. The stories reveal the obvious yet often neglected fact that Japanese scholars neither come from the same backgrounds nor occupy similar identities solely because of their shared ethnicity and citizenship. The authors were born in the period ranging from the 1940s to the 1980s in different parts of Japan, from Hokkaido to Okinawa, and raised in diverse familial and cultural environments which shaped their identities as Japanese and their encounters with America in quite different ways. Together, the essays illustrate the complex positionalities, fluid identities, ambivalent embrace, and unpredictable agency of Japan's Americanists who continue to chart their own course in and across the Pacific.

The Ryukyuanist 〇〇〇, 2022 *The Boundless Sea* Gary Y. Okihiro, 2019-09-24 The last book in a trilogy of explorations on space and time from a preeminent scholar, *The Boundless Sea* is Gary Y. Okihiro's most innovative yet. Whereas Okihiro's previous books, *Island World* and *Pineapple Culture*, sought to deconstruct islands and continents, tropical and temperate zones, this book interrogates the assumed divides between space and time, memoir and history, and the historian and the writing of history. Okihiro uses himself, from Okinawan roots growing up on a sugar plantation in Hawaii, to researching in Botswana and teaching in California, to reveal the historian's craft involving diverse methodologies and subject matters. Okihiro's imaginative narrative weaves back and forth through decades and across vast spatial and societal differences, theorized as historical formations, to critique history's conventions. Taking its title from a translation of the author's surname, *The Boundless Sea* is a deeply personal and reflective volume that challenges

how we think about time and space notions of history Monumenta Nipponica ,2000 Includes section Reviews *Ryūkyū Studies* Patrick Beillevaire,2002 **Guide to Reprints** ,2009 Guide to Reprints 2007 K.
