Hitchcock and the Spy Film James Chapman,2017-11-30 Film historian James Chapman has mined Hitchcock's own papers to investigate fully for the first time the spy thrillers of the world's most famous filmmaker Hitchcock made his name as director of the spy movie He returned repeatedly to the genre from the British classics of the 1930s including *The 39 Steps* and *The Lady Vanishes* through wartime Hollywood films *Foreign Correspondent* and *Saboteur* to the Cold War tracts *North by Northwest* *Torn Curtain* and his unmade film *The Short Night* Chapman's close reading of these films demonstrates the development of Hitchcock's own style as well as how the spy genre as a whole responded to changing political and cultural contexts from the threat of Nazism in the 1930s and 40s to the atom spies and double agents of the post war world

British Genres Marcia Landy, 2014-07-14 In this unprecedented survey of British cinema from the 1930s to the New Wave of the 1960s Marcia Landy explores how cinematic representation and social history converge Landy focuses on the genre film a product of British mass culture often dismissed by critics as unrealistic showing that in England such cinema subtly dramatized unresolved cultural conflicts and was in fact more popular than critics have claimed Her discussion covers hundreds of works including historical films films of empire war films melodrama comedy science fiction horror and social problem films and reveals their relation to changing attitudes toward class race national identity sexuality and gender Landy begins by describing the status and value of genre theory then provides a history of British film production that illuminates the politics and personalities connected with the major studios In vivid accounts of the films within each genre she analyzes styles codes and conventions to show how the films negotiate history fantasy and lived experience Throughout Landy creates a dynamic sense of genre and of how the genres shape not merely reflect cultural conflicts Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

H. G. Wells, Modernity and the Movies Keith Williams, 2007-12-01 This book investigates Wells's interest in cinema and related media technologies by placing it back into the contemporary cultural and scientific contexts giving rise to them It plugs a gap in understanding Wells's contribution to exploring and advancing the possibilities of cinematic narrative and its social and ideological impacts in the modern period Previous studies concentrate on adaptations this book accounts for the specifically proto cinematic techniques and concerns of Wells's texts It also focuses on contemporary film making in dialogue with his ideas Alongside Hollywood's later transactions it gives equal weight to neglected British and continental European dimensions Chapter 1 shows how early writings *The Time Machine* and short stories feature many kinds of radically defamiliarised vision These constitute imaginative speculations about the forms and potentials of moving image and electronic media Chapter 2 discusses the power of voyeurism absent presence and the

disjunction of sound image reproduction implied in *The Invisible Man* and its topical politics updated in notable screen versions Chapter 3 extends this to dystopian warnings of systematic surveillance broadcasting of celebrity personae and post literate video culture in *When the Sleeper Wakes* a crucial template for urban futures on film Chapter 4 analyses Wells's belated return to screenwriting in the 1930s It accounts for his broadbrow ambition of mediating between popular and avant garde tendencies to promote his cause and its mixed results in *Things to Come* *The Man Who Could Work Miracles* etc Chapter 5 finally surveys Wells's legacy on both small and large screens It considers whether as well as being raided for scenarios for spectacular effects his subtexts still nourish an evolving tradition of alternative SF which duly critiques the innovations and applications of its host media

A Special Relationship Anthony Slide, 2015-06-15 *A Special Relationship* provides not only a historical overview of the British in Hollywood but also a detailed study of the contributions made by American individuals and companies to British cinema from the beginning of the twentieth century onwards The story begins with Ohio born Charles Urban who came to London in 1898 and deserves credit for major involvement in the creation of a British film industry While Ireland was still a part of Britain the New York based Kalem Company made films there from 1910 to 1913 British producers realized the importance of American stars and many actors beginning with Florence Turner who was arguably also the first American star made numerous British films In the 1920s such Hollywood stars as Mae Marsh Betty Blythe and Dorothy Gish remained active in Britain In the 1930s as their careers came to a halt more than one hundred former American stars made the trip to England partly as a vacation and partly in the hope of reenergizing their careers Chapters discuss American cinematographers at work in Britain in the 1920s and 1930s and the introduction of Technicolor to British films Diversity is represented by African American performers most notably Paul Robeson the Chinese American star Anna May Wong along with female filmmakers from Hollywood With Britain's declaration of war on Germany there were Americans who stayed such as Bebe Daniels and Ben Lyon contributing to the war effort America became actively involved in British cinema after World War II with many Hollywood studios producing films there As the years progressed the British film industry became an international film industry The book concludes with the Harry Potter and James Bond series indicative of a new international cinema with financing and behind the camera talent coming from the United States but with British locales and British stars
