Hindu puranic and Shakta tantric texts popular practices folk belief systems legends and various other cultural phenomena based on this motif It deals with a more intricate and fundamental issue than existing works on the subject how and why is the Devi herself figured as a corpse in the Shakta texts belief systems and folk practices associated with the tantras The issues which have been raised in this book include how does death become a complement to life within this religious epistemology How does one learn to live with death thereby lending new definitions and new epistemic and existential dimensions to life and death And what is the relation between death and gender within this kind of figuration of the Goddess as death and dead body Analysing multiple mythic narratives hymns and scriptural texts where the Devi herself is said to take the form of the Shava the corpse as well as the Shakti who animates dead matter this book focuses not only on the concept of the theological equivalence of the Shava Shiva as corpse and the Shakti Energy in tantras but also on the status of the Divine Mother as the Great Bridge between the apparently irreconcilable opposites the mediatrix between Spirit and Matter death and life existence in stasis and existence in kinesis This book makes an important contribution to the fields of Hindu Studies Goddess Spirituality South Asian Religions Women and Religion India Studies in Shaktism and Tantra Cross cultural Religious Studies Gender Studies Postcolonial Spirituality and Ecofeminism *The Evolution of the Idea of God*

Kitawa Literary Fragments Giancarlo M. G. Scoditti,2025-03-31 The Nowau oral texts collected in this volume were recorded by Scoditti during the several years of fieldwork on Kitawa Island Papua New Guinea devoted mainly to understanding the mental mechanisms followed by the image creators that are the makers of the kula ceremonial canoes the poets the magicians the female and male singers who

perform a poetic text orally written by a poet to an oral score composed by a musician With these early works Scoditti identifies within Kitawa culture a clear distinction between the author and the performer interpreter of a given oral text be it a verbal and a non verbal one a distinction that has called into question the hypothesis that in a culture that does not know or use any form of phonetic writing a text is composed at the time of its performance so that composition and performance would coincide A first result of his interpretation is Kitawa A linguistic and aesthetic analysis of visual art in Melanesia 1990 De Gruyter Mouton then by Kitawa oral poetry An example from Melanesia 1996 ANU Press Notes on the cognitive texture of an oral mind Kitawa a Melanesian culture 2012 Sean Kingston Publishing and now Kitawa Literary Fragments How Storytelling Shapes Spacetime in a Melanesian Matrilineal Culture Religious Tourism and the Environment Kiran A. Shinde, Daniel H. Olsen, 2020-09-30 The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism Focusing here on environmental issues this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment Beginning with an in depth introduction that highlights the intersections between religion tourism and the environment the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism Chapters included discuss such important areas as theological views environmental responsibility and host perspectives **The Evolution of the Idea of God** Grant Allen, 1996-09 Reproduction of the original The Evolution of the Idea of God by Grant Allen *Irfan Faqeer Noor Muhammad*, 2022-12-18 Abstract We in our current era observe the movement of masses in three dimensions be it through a section of road through airways or under a layer of water Time a fourth dimension provides a conclusive evidence of traveling along three dimensions and this fourth dimension always co exists with any of the three dimensions either traveling from the last moment past to the current moment present or from the current moment to the next coming moment future Our brain is a tool which helps us to comprehend the discoveries of science in these four dimensions but a signal of error propagates in our body when we hear of a concept which does not exist in all these four dimensions In our first response we try to jump into a state of denial or refusal of such concepts and realities for some This rhetoric gives birth to the exigency of exploring the unexplored dimensions of this universe IRFAN inner knowledge of self and GOD in accordance with Islamic Sufism a beneficial compilation for its readers outlines the theoretical concepts and personal experiences of Faqeer Noor Muhammad Sawari Qadri R A that uncover the ways for the reader to introspect search for the inner light of the soul build connectivity with GOD and practice renunciation towards materialism to walk on the un travelled dimensions of this physical world The author highlights the ways to identify the inner divine spark by focusing on the personal name of GOD An example of spiritual failure or failure in a dimension which does not exist in the basic four dimensions is the wreckage of Titanic a British liner which to many is the failure of its massive frame However understanding of the parallel existence of physical and spiritual worlds for one could be developed
