Water Veronica Strang, 2020-06-03 Water is the most valuable resource and the most passionately contested Drought has become an increasingly extreme problem in many parts of the world and it is predicted that 60% of the major cities in Europe will run short of water in the next decade In industrialized countries per capita water usage continues to rise intractably despite strenuous efforts by environmentalists and resource managers to encourage conservation Conflicts over water and environmental degradation from the overuse of resources are intensifying Water is not merely a physical resource in every cultural context it is densely encoded with social spiritual political and environmental meanings and these have a powerful effect upon patterns of water use and upon the relationships between water users and suppliers This book makes an in depth analysis of the meanings of water and considers how they are experienced and formed at an individual and societal level Focusing on the River Stour in Dorset Strang draws upon a wide range of data ethnographic research cultural mapping local archives and folklore She explores the controversies surrounding water ownership and management and the social and political questions raised by water privatization in the UK The topical nature of these issues and their global relevance make this book a vital contribution to contemporary research on water and an essential read for anyone with an interest in getting under the surface of one of the worlds most important social and environmental issues **Gender, Water and**

Development Anne Coles, Tina Wallace, 2020-05-12 There is a renewed global commitment to water for all Yet even though women are usually responsible for domestic water provision their needs and voices continue to be marginalized in the development process A close analysis of current policy and practice shows that organizations providing improved water supplies to poor communities typically neglect the gendered nature of access to and control over water resources The resulting gender bias causes inefficiencies and injustices in water provision and reduces the effectiveness of well meant efforts This book shows how in different environmental historical and cultural contexts gender has been an important element in water provision It draws on a wide range of first hand material analyzed from different disciplinary perspectives Case studies include analysis of the role of water in inhibiting the fight against HIV AIDS in southern Africa and the

challenges of taking gender into account in large water projects in India and Nepal *Heathen Paths* Pete Jennings,2007 A detailed researched and inspired book on Norse and Anglo Saxon tradition Paganism This book is written from a different perspective to other books published on aspects of what is known variously as Asatru The Northern Tradition and Odinism to present a handbook of accumulated data so that people can read and interpret it for themselves aided by sometimes conflicting or complementary opinions clearly labelled enabling the reader to develop and adapt their own theories and practices rather than have them laid out by someone else Where possible Pete compares more than one source of information Trying to subjectively observe a movement from within whilst being a part of it oneself is a delicate path to tread but in this book Pete does an admirable job separating them from the historical data being presented **Liminal Images** Alex Woodcock,2005 The presence of unusual grotesque and rude carvings on ecclesiastical buildings have been explained in a number of ways from reflecting the warped sense of humour of the masons to a purely ornamental or marginal function However in this study of medieval sculpture from southern England Alex Woodcock suggests that imagery should be seen in the same way as the buildings themselves as liminal spaces mediating between the human mortal world and the sacred and unknown In examining various distorted and foliate heads grotesques mythical creatures beasts and so on Woodcock argues that these are wholly appropriate images for medieval religious life reflecting the ambiguous and the unclassifiable in an unknown realm whilst also having an apotropaic function Placing emphasis on liminality the study focuses in particular on heads severed foliate and otherwise and whole figures humans animals and hybrids including detailed studies of the siren and mermaid *Crystals and Sacred Sites* Judy Hall,2012-11 Crystals and Sacred Sites teaches you how to tap into the healing energy of sites from around the world using the power of crystals and sacred stones **The British National Bibliography** Arthur James Wells,2000 **The New Werner Twentieth Century Edition of the Encyclopaedia Britannica** ,1905 *An Echo In Time* Traci Harding,2025-09-04 HISTORY WILL HAVE ITS REPRIZE The narrow stairway inside the mountain led to a door that opened into a huge marble plateau Upon this stood a stone circle of nine of the largest hunks of polished crystal Tory had ever seen A turbulent cloud erupted overhead its core alive with electromagnetic activity For twenty years the kingdoms of Prydyn Dumnonia and Dalriada have prospered in peace under the guidance of their High King Maelgwn of Gwynedd and his good Queen Tory But when the High King is stricken with madness and a mysterious plague Britain is set to be thrown into the chaos of yesteryear Tory seeks the advice of an advanced civilisation that thrived long before recorded history where men of great learning and miracles were abundant The women of the Otherworld agree to aid Tory to make her passage back through time But once in Atlantis Tory must use her own devices to find the cure she seeks and a way to return to her loved ones in the Dark Ages **Celtic Women's Spirituality** Edain McCoy,1998 The Celts provide strong accessible images of powerful women This work illustrates how the reader can create a personalized pathway linking two important aspects of self the feminine and the hereditary or adopted Celt and as a result enable her to become a

whole powerful woman **The Encyclopaedia Britannica** Thomas Spencer Baynes,1890 Masters of Reality Traci Harding,2025-09-04 THE FUTURE IS UNDER CONTROL An enormous vortex spiralled above the earth out beyond the orbit of the moon Its centre was expanding to form a huge glowing corridor through the fabric of space This brilliant mass shot forth thousands of glowing balls of light that proceeded to descend toward our planet As Tory awaits Maelgwn s return she endeavours to find out the truth behind her ancestry and is shocked to discover that her clan is not the only tribe of immortals the Gods have nurtured One by one allies from Tory s past re emerge to help her through a time of tribulation when her clan is made outcast from mainstream society an old enemy incarnate is seeking revenge on the Dragon s kin And now aided by a divine power an interstellar army is set to destroy the Chosen at the foretold Gathering of Kings The Encyclopædia Britannica ,1891 The Boy's Own Annual ,1906 *The Literary World* ,1901 *Anglo-American Encyclopedia* ,1910 The Literary American George Payn Quackenbos,1849 **The View Over Atlantis** John Michell,1975 The Economist ,1867 **Albion** Jennifer Westwood,1985
