Sacrifice Stone:

The Indian Chief as Tragic Hero Gordon M. Sayre, 2006-05-18 The leaders of anticolonial wars of resistance Metacom Pontiac Tecumseh and Cuauhtemoc spread fear across the frontiers of North America Yet once defeated these men became iconic martyrs for postcolonial national identity in Canada the United States and Mexico By the early 1800s a craze arose for Indian tragedy on the U S stage such as John Augustus Stone s *Metamora* and for Indian biographies as national historiography such as the writings of Benjamin Drake Francis Parkman and William Apess With chapters on seven major resistance struggles including the Pueblo Revolt of 1680 and the Natchez Massacre of 1729 *The Indian Chief as Tragic Hero* offers an analysis of not only the tragedies and epics written about these leaders but also their own speeches and strategies as recorded in archival sources and narratives by adversaries including Hern n Cort s Antoine Simon Le Page du Pratz Joseph Doddridge Robert Rogers and William Henry Harrison Sayre concludes that these tragedies and epics about Native resistance laid the foundation for revolutionary culture and historiography in the three modern nations of North America and that at odds with the trope of the complaisant vanishing Indian these leaders presented colonizers with a cathartic reproof of past injustices

Negotiating the North Sarah Semple,Alexandra Sanmark,Frode Iversen,Natascha Mehler,2020-06-11 This book brings together the cumulative results of a three year project focused on the assemblies and administrative systems of Scandinavia Britain and the North Atlantic islands in the 1st and 2nd millennia AD In this volume we integrate a wide range of historical cartographic archaeological field based and onomastic data pertaining to early medieval and medieval administrative practices geographies and places of assembly in Norway Sweden Denmark Iceland the Faroe Islands Scotland and eastern England This transnational perspective has enabled a new understanding of the development of power structures in early medieval northern Europe and the maturation of these systems in later centuries under royal control In a series of richly illustrated chapters we explore the emergence and development of mechanisms for consensus We begin with a historiographical exploration of assembly research that sets the intellectual agenda for the chapters that follow We then

examine the emergence and development of the thing in Scandinavia and its export to the lands colonised by the Norse We consider more broadly how assembly practices may have developed at a local level yet played a significant role in the consolidation and at times regulation of elite power structures Presenting a fresh perspective on the agency and power of the thing and cognate types of local and regional assembly this interdisciplinary volume provides an invaluable in depth insight into the people places laws and consensual structures that shaped the early medieval and medieval kingdoms of northern Europe Publications ,1929 *Temporalising Anthropology* Timothy Insoll,Rachel MacLean,Benjamin Kankpeyeng,2013 This volume contains the results of significant fieldwork completed in the Tong Hills of Northern Ghana an area currently inhabited by the Talensi ethno linguistic group Although made anthropologically renowned by the anthropologist Meyer Fortes the archaeology and material culture of the Talensi Tong Hills had largely been neglected until the research initiated by the authors Extensive archaeological surveys and excavations were completed allied with ethnoarchaeological and ethnobotanical research on shrines sacrifice and indigenous medicine The data is presented and described and a settlement chronology for the region reconstructed The results of the geological organic geochemical petrographic and archaeometallurgical analysis are provided The function of shrines and the meaning of shrine as a concept are evaluated and indigenous medicinal practices their links with shrines and their substances materiality and archaeological implications assessed with reference to the primary empirical material gathered Ritual performance and its inter relation with the past and the archaeological record are also considered so as to question the timelessness of previous anthropological presentations The Tong Hills are also discussed with reference to their place in the wider history and archaeology of the region This book will be useful to anyone interested in the archaeology and anthropology of African indigenous religions and ritual practices as well as those interested in West African history and the relationship between archaeology and anthropology
