[The National Imaginarium](#) Magdy Mounir El-Shammaa, 2021-06-22 A cultural social and economic history of Egyptian cinema of the twentieth century Spanning a century of Egyptian filmmaking this work weaves together culture history politics and economics to form a narrative of how

Egyptian national identity came to be constructed and reconstructed over time on film. It goes beyond the films themselves to explore the processes of filmmaking, the artists that made it possible, the institutional networks, structures and rules that bound them together, the changing social and political environment in which the films were produced, and the role of the state. In peeling back the curtain to reveal the complexities behind the screen, Magdy El Shammaa shows cinema as at once both a reflection and a producer of larger cultural imaginings of the nation. *The National Imaginarium* provides an in-depth description of the films discussed. It explores the construction of a populist consciousness that permeated and transcended class structures at mid-century in Egypt and how this subsequently came undone in the face of the bewildering social, economic and political transformations that the country underwent in the decades that followed. More than similar treatments of the topic, this book draws on theoretical ideas from outside the immediate discipline of Film Studies, including investigations into the materiality and colonial foundations of cosmopolitanism, the stakes and aesthetics of realism, policy shifts around women's rights, transnational economic contexts, and the broader history of the country and region, including insightful snapshots of everyday life.

Historical Dictionary of Egypt Arthur Goldschmidt, Jr., 2023-07-25. Egypt is the world's oldest continuous country with a recorded past of over 6,000 years. Often invaded, conquered, and occupied by foreign armies, Egypt has never lost its identity. The Egyptians of today, although they have changed their language once and their religion twice, descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak, who served Alexander the Great and his heirs, who submitted to Augustus Caesar and raised much of the grain that fed the Roman Empire, who started Christian monasticism and the veneration of the Virgin Mary, and who advanced and sustained Muslim learning in what is now the world's oldest functioning university. It was and is one of the most important countries in the world. *Historical Dictionary of Egypt*, Fifth Edition, contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Egypt.
