Sade My Neighbour:

Sade My Neighbor Pierre Klossowski, 1991-06-01 Enlightenment ideals of a society rooted in liberationist reason and morality were trampled in the wake of the savagery of the Second World War That era s union of cold technology and ancient hatreds gave rise to a dark alternative reason an ethic that was value free and indifferent with regard to virtue and vice freedom and slavery In a world where the unthinkable had become reality it is small wonder that theorists would turn to the writings of a man whose eighteenth century imagination preceded twentieth century history in its unbridled exploration of viciousness perversion and monstrosity the Marquis de Sade Klossowski was one of the first philosophers in postwar Europe to ask whether Sade s reason although aberrant and perverted to evil passions could be taken seriously Klossowski s seminal work inspired virtually all subsequent study of Sadean thought including that of de Beauvoir Deleuze Derrida Bataille Blanchot Paulhan and Lacan

Michel Foucault and Power Today David A. Gabbard, Alain Beaulieu, 2005-12-22 Foucault s thought finds innumerable applications across the social sciences from studies in the social aspects of the medical practices and criminal sociology to juridical and economic sciences Owing to their philosophical ramifications his ideas have also impacted the spheres of literary studies ethics political thought and critical ontology Few thinkers have left such an influence across such a diverse range of studies Contributors attempt to pay homage to that diversity by presenting a multidisciplinary series of analyses dedicated to the question of power today Drawn from a number of papers presented at an international conference entitled Michel Foucault and social Control conducted at Maison de la culture C te des Neiges in Montreal on May 8 10 2004 to commemorate the twentieth anniversary of Foucault s death the essays that comprise this volume address the issue at both a theoretical level and as it pertains to specific fields of practice In addition to paying tribute to Foucault s achievements and situating his thought within the French and larger European context from which it emerged these essays also re evaluate the relevance of Foucault s ideas for understanding contemporary conditions This book is suited for a broad academic audience in the humanities and Social Sciences especially philosophy sociology and cultural studies

The Event, the Subject, and the Artwork R.A. Goodrich, Ann McCulloch, 2015-06-18 Partly guided by Alain Badiou s controversial Century and its interpretation of the events and art of the last century this book opens debates about these for the twenty first century This book examines the extent to which such debates can be applied to the first decades of the twenty first century and the extent to which analyses of events and subjectivities in the twentieth century can be re thought from the perspective of this century This book is also partly guided by Gilles Deleuze s

The Object of Literature Pierre Macherey, 1995-03-16 This 1995 book by Pierre Macherey was his first dealing with literature and theory since his seminal A Theory of Literary Production Continuing the project of Althusserian theory Macherey engages in a series of close exegeses of classical texts in French literature and philosophy from the late eighteenth century down to the 1970s that explore the historically variable

but thematically similar ways in which literary texts represent philosophical ideas Rejecting the simple notion that literature deploys philosophical topoi in an unmediated manner Macherey shows the conceptual sophistication and broad intellectual influence that literary art has displayed in the modern period At once a theoretical meditation of great originality and a historical work of scrupulous scholarship *The Object of Literature* will entrench Pierre Macherey's already considerable reputation as one of the most significant contemporary theoreticians of literature

Surrealism, History and Revolution

Simon Baker, 2007 This book is a new account of the surrealist movement in France between the two world wars It examines the uses that surrealist artists and writers made of ideas and images associated with the French Revolution describing a complex relationship between surrealism's avant garde revolt and its powerful sense of history and heritage Focusing on both texts and images by key figures such as Louis Aragon Georges Bataille Jacques Andr Boiffard Andr Breton Robert Desnos Max Ernst Max Morise and Man Ray this book situates surrealist material in the wider context of the literary and visual arts of the period through the theme of revolution It raises important questions about the politics of representing French history literary and political memorial spaces monumental representations of the past and critical responses to them imaginary portraiture and revolutionary spectatorship The study shows that a full understanding of surrealism requires a detailed account of its attitude to revolution and that understanding this surrealist concept of revolution means accounting for the complex historical imagination at its heart

Žižek and his Contemporaries Jones Irwin, Helena Motoh, 2014-06-19 In recent years the popularity of the inimitable Slavoj i ek has perhaps cast a shadow over the collective influence exerted by Slovenian intellectuals on modern day philosophy Yet despite his image as an isolated genius this timely book relocates i ek as a thinker whose ideas are born of a specifically Slovenian context Although only coming to international notice in the early 1990s the Slovenian school needs to be understood as the culmination of a series of intellectual artistic and political movements inextricably connected to the quest for the succession of Slovenia from Yugoslavia These developments in thought must also be seen in the light of one of the giants of Continental philosophy Jacques Lacan Featuring brand new interviews with three of its forerunners i ek Mladen Dolar and Alenka Zupancic this fascinating account details each philosopher's individual concerns whilst shedding light on the complex genealogy and continuing development of the Slovenian Neo Lacanian school Rarely are we afforded such an opportunity to study the birth of a philosophy from a seminal moment in modern history

Georges Bataille Paul Hegarty, 2000-08-18 Long recognized in France as a central figure in French cultural thought the range and significance of Bataille's ideas are now being grasped in the English speaking world His influence on Derrida Foucault Kristeva and Baudrillard is now more clearly understood and Bataille has emerged as a front rank cultural theorist who posed questions and paradoxes that were extraordinarily prescient This book offers a comprehensive and detailed presentation and analysis of the full range of his writings political philosophical aesthetic literary anthropological and cultural And tackles his thoughts on waste sacrifice death eroticism surplus ecstasy and drunkenness

offering the best available guide to this challenging and utterly unique thinker **Lars von Trier's Women** Rex Butler, David Denny, 2016-11-17 The Danish director Lars von Trier is undoubtedly one of the world's most important and controversial filmmakers and arguably so because of the depiction of women in his films. He has been criticized for subjecting his female characters to unacceptable levels of violence or reducing them to masochistic self-abnegation as with Bess in *Breaking the Waves*. She in *Antichrist* and Joe in *Nymphomaniac*. At other times it is the women in his films who are dominant or break out in violence as in his adaptation of Euripides' *Medea*, the conclusion of *Dogville* and perhaps throughout *Nymphomaniac*. Lars von Trier's *Women* confronts these dichotomies head-on. Editors Rex Butler and David Denny do not take a position either for or against von Trier but rather consider how both attitudes fall short of the real difficulty of his films which may simply not conform to any kind of feminist or indeed anti-feminist politics as they are currently configured. Using Lacanian psychoanalysis and acknowledging the work of prior scholars on the films, Lars von Trier's *Women* reveals hidden resources for a renewed feminist politics and social practice.

Helvete 2 Niall Scott, Steve Shakespeare, 2015-05-19 Not to be confused with metal studies, music criticism, ethnography or sociology, *Helvete 2: A Journal of Black Metal Theory* is a speculative and creative endeavor, one which seeks ways of thinking that count as Black Metal events and indeed to see how Black Metal might count as thinking. Theory of Black Metal and Black Metal of theory. Mutual blackening. Therefore we eschew any approach that treats theory and Metal discretely, preferring to take the left-hand path by insisting on some kind of connaturality between the two, a shared capacity for nigredo. Issue 2 focuses on the theme of Inversions in Black Metal. Nailed at the heart of many a logo, suspended from the neck, held out in Satanic blessing, the inverted cross is one of black metal's anti-icons. The antithesis of a revelation of light, it signifies an originary blasphemy, forsaking ascension and mining a path towards the centre of the earth. Black metal finds a satanic stain lodged at the core of being. However, the significance of this movement is not bound by a simple reversal. The inverted cross hangs above a swarming logic of inversion, the overturning of Christianity but also a mimesis of Christian self-desecration, the rejection of certain forms of religion but also of modernity's pallid enlightenment, the invocation of strange gods of the earth even as the earth is cursed. When thought becomes poison, it is no longer so easy to determine which way is up and which way is down. To throw down one's head to push oneself into the cursed earth to occupy the place of the inverted crucified is this, to think by not thinking, an unconditioned rapture beyond negation and affirmation.

Artificial Hells Claire Bishop, 2012-07-24 The award-winning, highly acclaimed *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art known in the US as social practice. In recent decades, the art gallery and the museum have become a place for participatory art where an audience is encouraged to take part in the artwork. This has been heralded as a revolutionary practice that can promote new emancipatory social relations. What is it, really? In this fully updated edition, Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in

Futurism and Dada the Situationist International Happenings in Eastern Europe Argentina and Paris the 1970s Community Arts Movement and the Artists Placement Group It concludes with a discussion of long term educational projects by contemporary artists such as Thomas Hirschhorn Tania Bruguera Pawel Althamer and Paul Chan Bishop challenges the political and aesthetic ambitions of participatory art this practise She not only scrutinizes the emancipatory claims but also provides an alternative to the ethical rather than artistic criteria invited by such artworks In response Artificial Hells calls for a less prescriptive approach to art and politics and for more compelling troubling and bolder forms of participatory art and criticism

Spaces of Crisis and Critique Anthony Faramelli, David Hancock, Robert G. White, 2018-09-20 In *Of Other Spaces* Foucault coined the term heterotopias to signify all the other real sites that can be found within the culture which are simultaneously represented contested and inverted For Foucault heterotopic spaces were first of all spaces of crisis or transformative spaces however these have given way to heterotopias of deviation and spaces of discipline such as psychiatric hospitals or prisons Foucault's essay provokes us to think through how spaces of crisis and critique function to open up disruptive subversive or minoritarian fields within philosophical political cultural or aesthetic discourses This book takes this interdisciplinary and international approach to the spatial challenging existing borders boundaries and horizons from Claire Colebrook's chapter unpacking the heterotopic spaces of America and Mexico that lie beyond reductive ideological spaces of light and darkness to a Foucauldian reading of the Zapatista resistance With essays on politics philosophy literature post colonial studies and aesthetics from established and emerging academics this book answers Foucault's call to give us a better understanding of our present cultural epoch

Georges Bataille Benjamin Noys, 2000-05-20 This is a guide to the life and work of the French intellectual Georges Bataille best known as the author of the celebrated erotic novel *The Story of the Eye* Benjamin

Noys introduces Bataille as a writer out of step with the dominant intellectual trends of his day surrealism and existentialism and shows that it was his very marginality that accounted in large part for his subsequent importance for the post structuralists and the counterculture in Europe and in the United States Treating Bataille s work as a whole rather than focusing as other studies have done on aspects of his work i e as social theory or philosophy Noys study is intended to be sensitive to the needs of students new to Bataille s work while at the same time drawing on the latest research on Bataille to offer new interpretations of Bataille s oeuvre for more experienced readers This is the first clear introductory reading of Bataille in English challenging current reductive readings and stressing the range of disciplines affected by Bataille s work at a time when interest in Bataille is growing

Without End William S. Allen,2017-12-28 The reputation of the Marquis de Sade is well founded The experience of reading his works is demanding to an extreme Violence and sexuality appear on almost every page and these descriptions are interspersed with extended discourses on materialism atheism and crime In this bold and rigorous study William S Allen sets out the context and implications of Sade s writings in order to explain their lasting challenge to thought For what is apparent from a close examination of his works is the breadth of his readings in contemporary science and philosophy and so the question that has to be addressed is why Sade pursued these interests by way of erotica of the most violent kind Allen shows that Sade s interests lead to a form of writing that seeks to bring about a new mode of experience that is engaged in exploring the limits of sensibility through their material actualization In common with other Enlightenment thinkers Sade is concerned with the place of reason in the world a place that becomes utterly transformed by a materialism of endless excess This concern underlies his interest in crime and sexuality and thereby puts him in the closest proximity to thinkers like Kant and Diderot but also at the furthest extreme in that it indicates how far the nature and status of reason is perverted It is precisely this materialist critique of reason that is developed and demonstrated in his works and which their reading makes persistently excessively apparent

Screening the Tortured Body Mark de Valk,2016-11-11 Inspired by Michel Foucault s examination of state subjugation and control this book considers post structuralist notions of the political technology of the body and the spectacle of the scaffold as a means to analyse cinematic representations of politically motivated persecution and bodily repression Through a critique of sovereign power and its application of punishment for transgressions against the state the collected works herein assess the politicised body via a range of cinematic perspectives Imagery character construction and narrative devices are examined in their account of hegemonic sanctioned torture and suppression as a means to a political outcome Screening The Tortured Body The Cinema as Scaffold elicits philosophical and cultural accounts of the restrained body to deliberate on a range of politicised films and filmmakers whose narratives and mise en sc ne techniques critique corporeal subjugation by authoritarian factions

Ricoeur and Lacan Karl Simms,2007-06-01 This is the first comparative study of the work of the philosopher Paul Ricoeur and the psychoanalyst Jacques Lacan The book explores the conflict between the two thinkers that arose from their

differing views of ethics Ricoeur's universalist stance drew on a phenomenological reading of Kant whereas Lacan's was a relativist position derived from a psychoanalytic reading of Freud and de Sade Ricoeur and Lacan gives a full critical overview of the work of both figures tracing the origins and development of their principal ideas and identifying key similarities and differences Not only a valuable and original addition to the literature on two major thinkers Ricoeur and Lacan is also an important study of contemporary Continental ethics

Torture Porn in the Wake of 9/11 Aaron Kerner, 2015-04-24 Saw Hostel The Devil's Rejects this wave of horror movies has been classed under the disparaging label torture porn Since David Edelstein coined the term for a New York magazine article a few years after 9/11 many critics have speculated that these movies simply reflect iconic images anxieties and sadistic fantasies that have emerged from the War on Terror In this timely new study Aaron Kerner challenges that interpretation arguing that torture porn must be understood in a much broader context as part of a phenomenon that spans multiple media genres and is rooted in a long tradition of American violence Torture Porn in the Wake of 9/11 tackles a series of tough philosophical historical and aesthetic questions What does it mean to call a film sadistic and how has this term been used to shut down critical debate In what sense does torture porn respond to current events and in what ways does it draw from much older tropes How has torture porn been influenced by earlier horror film cycles from slasher movies to J horror And in what ways has the torture porn aesthetic gone mainstream popping up in everything from the television thriller *Dexter* to the reality show *Hell's Kitchen* Reflecting a deep knowledge and appreciation for the genre Torture Porn in the Wake of 9/11 is sure to resonate with horror fans Yet Kerner's arguments should also strike a chord in anyone with an interest in the history of American violence and its current and future ramifications for the War on Terror

Bodily Pain in Romantic Literature Jeremy Davies, 2014-03-14 Shortlisted for the University English Early Career Book Prize 2016 Shortlisted for the British Association for Romantic Studies First Book Prize 2015 When writers of the late eighteenth and early nineteenth centuries explored the implications of organic and emotional sensitivity the pain of the body gave rise to unsettling but irresistible questions Urged on by some of their most deeply felt preoccupations and in the case of figures like Coleridge and P B Shelley by their own experiences of chronic pain many writers found themselves drawn to the imaginative scrutiny of bodies in extremis Bodily Pain in Romantic Literature reveals the significance of physical hurt for the poetry philosophy and medicine of the Romantic period This study looks back to eighteenth century medical controversies that made pain central to discussions about the nature of life and forward to the birth of surgical anaesthesia in 1846 It examines why Jeremy Bentham wrote in defence of torture and how pain sparked the imagination of thinkers from Adam Smith to the Marquis de Sade Jeremy Davies brings to bear on Romantic studies the fascinating recent work in the medical humanities that offers a fresh understanding of bodily hurt and shows how pain could prompt new ways of thinking about politics ethics and identity
