Sadhana, Or the Realisation of Life Rabindranath Tagore,2003-11-01

Sadhana Rabindranath Tagore,2015-07-13 Excerpt from *Sadhana The Realisation of Life* Perhaps it is well for me to explain that the subject matter of the papers published in this book has not been philosophically treated nor has it been approached from the scholar s point of View The writer has been brought up in a family where texts of the Upanishads are used in daily worship and he has had before him the example of his father who lived his long life in the closest communion with God while not neglecting his duties to the world or allowing his keen interest in all human affairs to suffer any abatement

So in these papers it may be hoped western readers will have an opportunity of coming into touch with the ancient spirit of India as revealed in our sacred texts and manifested in the life of today About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections

successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Sādhana** Rabindranath Tagore,1979 **Sadhana** Rabindranath Tagore,2008-08 All the great utterances of man have to be judged not by the letter but by the spirit the spirit which unfolds itself with the growth of life in history We get to know the real meaning of Christianity by observing its living aspect at the present moment however different that may be even in important respects from the Christianity of earlier periods For western scholars the great religious scriptures of India seem to possess merely a retrospective and arch logical interest but to us they are of living importance and we cannot help thinking that they lose their significance when exhibited in labelled cases mummied specimens of human thought and aspiration preserved for all time in the wrappings of erudition The meaning of the living words that come out of the experiences of great hearts can never be exhausted by any one system of logical interpretation They have to be endlessly explained by the commentaries of individual lives and they gain an added mystery in each new revelation SADHANA RABINDRANATH. Sādhana: the Realisation of Life Rabindranath Tagore,2021-11-12 *S dhan* The Realisation of Life by Rabindranath Tagore **Sadhana** Rabindranath Tagore,2020-11-20 We have seen that it was the aspiration of ancient India to live and move and have its joy in Brahma the all conscious and all pervading Spirit by extending its field of consciousness over all the world But that it may be urged is an impossible task for man to achieve If this extension of consciousness be an outward process then it is endless it is like attempting to cross the ocean after ladling out its water By beginning to try to realise all one has to end by realising nothing But in reality it is not so absurd as it sounds Man has every day to solve this problem of enlarging his region and adjusting his burdens His burdens are many too numerous for him to carry but he knows that by adopting a system he can lighten the weight of his load Whenever they feel too complicated and unwieldy he knows it is because he has not been able to hit upon the system which would have set everything in place and

distributed the weight evenly This search for system is really a search for unity for synthesis it is our attempt to harmonise the heterogeneous complexity of outward materials by an inner adjustment In the search we gradually become aware that to find out the One is to possess the All that there indeed is our last and highest privilege It is based on the law of that unity which is if we only know it our abiding strength Its living principle is the power that is in truth the truth of that unity which comprehends multiplicity Facts are many but the truth is one The animal intelligence knows facts the human mind has power to apprehend truth The apple falls from the tree the rain descends upon the earth you can go on burdening your memory with such facts and never come to an end But once you get hold of the law of gravitation you can dispense with the necessity of collecting facts ad infinitum You have got at one truth which governs numberless facts This discovery of truth is pure joy to man it is a liberation of his mind For a mere fact is like a blind lane it leads only to itself it has no beyond But a truth opens up a whole horizon it leads us to the infinite That is the reason why when a man like Darwin discovers some simple general truth about Biology it does not stop there but like a lamp shedding its light far beyond the object for which it was lighted it illumines the whole region of human life and thought transcending its original purpose Thus we find that truth while investing all facts is not a mere aggregate of facts it surpasses them on all sides and points to the infinite reality **The Sadhana**
