## Saemtliche Werke Volume 12:

*Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art* Jon Stewart, 2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker his writings have also been used extensively by literary writers critics and artists worldwide who have been attracted to his creative mixing of genres his complex use of pseudonyms his rhetoric and literary style and his rich images parables and allegories The goal of the present volume is to document this influence in different language groups and traditions Tome I explores Kierkegaard's influence on literature and art in the Germanophone world He was an important source of inspiration for German writers such as Theodor Fontane Thomas Mann Rainer Maria Rilke Alfred Andersch and Martin Walser Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner Karl Kraus Robert Musil and Hermann Broch Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner* Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt The famous Czech author Franz Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics **Paracelsus's Theory of**

**Embodiment** Amy Eisen Cisló, 2015-09-30 Paracelsus has been called the father of modern chemistry and is legendary for his treatment of syphilis This work argues that Paracelsus developed an understanding of the body as composed of two distinct sexes revolutionizing early modern conceptions of the female body as an inversion of or flawed approximation of the male body **Tensions in World Literature** Weigui Fang, 2018-09-28 This collection gives a diversified account of world literature examining not only the rise of the concept but also problems such as the relation between the local and the universal and the tensions between national culture and global ethics In this context it focuses on the complex relationship between Chinese literature and world literature not only in the sense of providing an exemplary case study but also as an introspection and re location of Chinese literature itself The book activates the concept of world literature at a time when it is facing the rising modern day challenges of race class and culture Why the Sky is Blue Götz Hoeppe, 2007-04-08 Delightful and intriguing *Why the Sky is Blue* shows how the attempt to answer this age old and deceptively simple question only enhances the magic of the blue sky we see above us Wild, Unforgettable Philosophy Monad Rrenban, 2005-01-01 Through reading the early work of Walter Benjamin up to and including the *Trauerspiel* author Monad Rrenban elicits a cohesive conception of the wild unforgettable form philosophy as inherent in everything This book distinct in its analysis and depth of analysis elaborates the wild unforgettable form philosophy in relation to language the discipline and the practice of philosophy criticism and the politics of death *A House Built on Sand* Noretta Koertge, 1998-08-27 Cultural critics say that science is politics by other means arguing that the results of scientific inquiry are profoundly shaped by the ideological agendas of powerful elites They base their claims on historical case studies purporting to show the systematic intrusion of

sexist racist capitalist colonialist and or professional interests into the very content of science Physicist Alan Sokal recently poked fun at these claims by foisting a sly parody of the genre on the unwitting editors of the cultural studies journal Social Text touching off a still unabated torrent of editorials articles and heated classroom and Internet discussion This hard hitting collection picks up where Sokal left off The essayists offer crisp and detailed critiques of case studies offered by the cultural critics as evidence that scientific results tell us more about social context than they do about the natural world Pulling no punches they identify numerous crude factual blunders e g that Newton never performed any experiments and egregious errors of omission such as the attempt to explain the slow development of fluid dynamics solely in terms of gender bias Where there are positive aspects of a flawed account or something to be learned from it they do not hesitate to say so Their target is shoddy scholarship Comprising new essays by distinguished scholars of history philosophy and science including Sokal himself this book raises a lively debate to a new level of seriousness The Tragic Absolute David Farrell Krell,2005 Exposes the core of tragic absolutes in German Romantic and Idealist philosophy The Cross and the Star Wayne Cristaudo,Frances Huessy,2009-05-27 Eugen Rosenstock Huessy a Christian convert and a social philosophy scholar had an intense conversation with the Jewish thinker Franz Rosenzweig in 1913 This Leipzig Conversation shattered Rosenzweig s understanding of the meaning of religion but it also propelled him to embrace his innate Jewish faith Three years later they engaged in a correspondence that has emerged as an historic stunning dialogue on Jewish Christian thinking Rosenzweig went on to write The Star of Redemption a classic work of modern Jewish philosophical theology and to become one of the most important and influential figures of twentieth century German Jewry Rosenstock Huessy took a different path writing his Sociology which pointed the social sciences in a new direction based on speech thinking and an enormous rich body of work covering grammar and society revolutions Church history and industrial law teaching generations of European and American university students and putting his faith into action This is the first major collection of essays on these two close friends new thinking Their dialogue mirrored Nietzsche s anti transcendent reading of Judaism and Christianity as well as his attack on idealism But their dialogue also resurrected the redemptive cores of these faiths as sources for the rejuvenation of human society This book brings to publication three essays by Rosenstock Huessy on Nietzsche and a translation of a chapter from his Sociology clarifying the post Nietzschean approach of the new thinking The Cross and the Star a 50 year span of significant scholarship vivifies the reasons for Rosenzweig s and Rosenstock Huessy s influence on faith and society and why their respective thought speaks directly and enduringly to the global human challenges of our time Between Transcendence and Historicism Brian K. Etter,2006-06-01 Between Transcendence and Historicism explores Hegel s aesthetics within the larger context of the tradition of theoretical reflection to emphasize its unique ability to account for traditional artistic practice Arguing that the concept of the ethical is central to Hegel s philosophy of art Brian K Etter examines the poverty of modernist aesthetic theories in contrast to the affirmation by Hegel of the necessity of art He focuses

on the individual arts in greater detail than is normally done for Hegel's aesthetics and considers how the dual constitution of the ethical nature of art can be justified both within Hegel's own philosophical system and in terms of its relevance to the dilemmas of modern social life Etter concludes that the arts have a responsibility to represent the goodness of existence the ideal and the ethical life in dignifying the metaxological realm through their beauty Volume 10, Tome I: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be instrumental for Kierkegaard's breakthrough internationally shortly after the turn of the twentieth century Leading figures of the movement of dialectical theology such as Karl Barth Emil Brunner Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard's thought among generations of German theology students Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of Kierkegaard's published works Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times *We Have Always Been Transcultural: The Arts as an Example* Wolfgang Welsch, 2024-06-17 Wolfgang Welsch demonstrates for the first time that transculturality the mixed constitution of cultures is by no means only a characteristic of the present but has de facto determined the composition of cultures since time immemorial The historical transculturality is demonstrated using examples from the arts While transculturality was often viewed with reservation where political social or psychological levels were at stake it was rather welcomed and appreciated in the field of art The book therefore demonstrates the historical prevalence of transculturality via all areas of art and does so with respect to all cultures and continents of our world

**Ideas and Events** Leonard Krieger, 1992-11 Leonard Krieger has long been revered as a contemporary master historian With an eye toward placing his critical achievements before an expanded readership he helped compile this core collection of his most important essays Together these essays bring under a single cover the key themes and ideas of his life's work to serve as a handbook for intellectual history and historians of every stripe This book reflects Krieger's conviction that the value of intellectual history is as a source of orientation in a world of information overload In Krieger's hands intellectual history has stressed thinking through the relations between ideas and events rather than the compilation and recapitulation

of mere facts and historical categories The essays in this collection cover a range of topics including history of ideas intellectual history early modern political history German political history Hegel Marx and more Many of these essays are already classics of historical scholarship With the demise of the Soviet Union and state sponsored Marxism and with the reunification of Germany Krieger s history takes on new relevance and a renewed importance With a splendid introduction by Michael Ermath and an extensive bibliography of Krieger s most important books and essays this is a must read for every serious student of modern history Leonard Krieger was University Professor Emeritus in the Department of History at the University of Chicago until his death in 1990

**Religious Drama and the Humanist Tradition: Christian Theater in Germany and in the Netherlands 1500-1680** J.A. Parente Jr.,2022-08-22

**Notes to Literature** Theodor W. Adorno,2019-10-01 Notes to Literature is a collection of the great social theorist Theodor W Adorno s essays on such writers as Mann Bloch H Iderlin Siegfried Kracauer Goethe Benjamin and Stefan George It also includes his reflections on a variety of subjects such as literary titles the physical qualities of books political commitment in literature the light hearted and the serious in art and the use of foreign words in writing This edition presents this classic work in full in a single volume with a new introduction by Paul Kottman

**Postmodernism** Thomas Docherty,2016-07-01 This reader provides a selection of articles and essays by leading figures in the postmodernism debate

Putting God on the Map Erin Kidd,Jakob Karl Rinderknecht,2018-09-15 Since the middle of the last century the emergence and development of fields as diverse as artificial intelligence evolutionary science cognitive linguistics and neuroscience have led to a greater understanding of the ways in which humans think One of the major discoveries involves what researchers refer to as conceptual mapping According to theories of conceptual mapping human thought is profoundly shaped by the ability to make connections Simply put human thinking is metaphorical all the way down This insight has revolutionized the way in which scientists and philosophers think about the mind body problem the formation and function of language and even the development of scientific progress itself Until recently however this research has gone largely unnoticed within Christian theology But this revolution in understanding human cognition calls for broader and richer engagement with theology and religious studies How does this new insight into human meaning making bear on our understanding of religious meaning making And how might Christian theology interpret and respond to this new understanding of the development of human thought This edited volume offers an introduction to conceptual mapping that is accessible to those with no previous knowledge of the field and demonstrates the substantial resources this interdisciplinary research has for thinking about a variety of theological questions The book begins with a chapter introducing the reader to the basics of conceptual mapping The remaining chapters apply these insights to a variety of theological topics including anthropology sacramental theology biblical studies ecumenical theology and ethics

**Augustine, Rahner, and Trinitarian Exegesis** Martin E. Robinson,2024-05-02

Through close and sustained analysis of Augustine s exegesis of Scripture Robinson argues that Augustine s Trinitarian

exegesis offers significant though not inexhaustible support for Rahner's Trinitarian project and particularly his Grundaxiom. Firstly he posits that Augustine provides weighty biblically rich support for Rahner's Trinitarian agenda at exactly those points where Rahner is explicitly critical of Augustine and the Augustinian Western tradition overcoming various weaknesses detected in the later tradition and pre-empting many of Rahner's later solutions. Secondly and consequently Robinson suggests that Augustine offers a scriptural reading strategy that addresses the major exegetical difficulties perceived to emerge from Rahner's Rule. Thus in Augustine's exegesis of Scripture the Augustinian Western tradition has always had the resources at its disposal to avoid or address the most poignant criticisms levelled both by and at Rahner. Modern Gnosis and Zionism Yotam Hotam, 2013-05-20. In the late nineteenth and early twentieth century the German intellectual world was challenged by a growing distrust in the rational ideals of the enlightenment and consequently by a belief in the existence of a radical cultural crisis. One response to this crisis was the emergence of Life Philosophy which celebrated the irrational expressive instinctive and spontaneous while rejecting the rational conscious and logical. Around the same time and place Zionist thought crystallized. It discussed issues like the Jewish essence, the creation of a new Jewish person and a new Jewish community, return to the Jewish homeland and the negation of the diasporic way of life. This book explores the connections between Zionism and Life Philosophy and argues that Life Philosophy represents a modern secularized version of gnostic dualism between God and world and that this was a particular secular impulse that lay at the core of the Zionist political mission. Consisting of two main sections, the book first shows the manner in which Life Philosophy should be understood as a modern secularized gnostic theology before concluding by discussing its political Zionist interpretation. Drawing on published works of a wide range of thinkers and intellectuals alongside a variety of unpublished materials, this book will be welcomed by students and scholars of Jewish studies, the philosophy of Judaism and religion and philosophy more generally. *Johan Ludvig Heiberg* Jon Bartley Stewart, 2008. The polymath Johan Ludvig Heiberg 1791-1860 represented in many ways a kind of crossroads in the Danish Golden Age where many different figures and cultural institutions converged. Although he has been studied for years in his native Denmark, he has not enjoyed the same reception abroad. Recently, however, his work has begun to catch the eye of international scholars and largely as a result of their efforts, Heiberg has now become a familiar name among the most recent generation of Anglophone and international researchers working in fields such as Scandinavian literature, Danish theater history and Kierkegaard studies. However, Heiberg was one of the most versatile figures of his age and the full scope of his activity and thought is still far from being adequately explored in the literature. The present collection features articles from leading Danish and international experts that reflect the different dimensions of Heiberg's thought. The volume is thus interdisciplinary in an attempt to cover as many different aspects of Heiberg's intellectual activity as possible. It is divided into four rubrics: I Philosophy, II Literature and Criticism, III Drama and Aesthetics, and IV Politics and Social Criticism. The hope is that this collection will encourage students and scholars to further explore the different

dimensions of Heiberg's thought both on its own terms and in connection with other important figures such as Søren Kierkegaard and Hans Christian Andersen      *Christologies and Cultures* George Rupp, 2019-05-20 No detailed description available for *Christologies and Cultures*
